AT THE GOVERNMENT HOUSE AT OTTAWA.

Monday, the 20th day of June, 1898.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, in virtue of the provisions of chapter 70 of the Revised Statutes, intituled "An Act respecting lighthouses, buoys and beacons and Sable Island," and by and with the advice of the Queen's Privy Council for Canada, is pleased to make the following Regulations for the governance of the passage of the Little Canyon on the Stikine River and for the warping of vessels at other dangerous points, and the same are hereby made and established accordingly.

JOHN J. McGEE,
Clerk of the Privy Council.

NOTICE TO MARINERS.

DOMINION OF CANADA, BRITISH COLUMBIA.

Navigation of the Stikine River.

The Department of Marine and Fisheries of Canada has made arrangements for a system of signalling at Little Canyon on the Stikine River to prevent collisions therein. Immediately after the opening of navigation a station will be established at each end of the Canyon, at which signals will be displayed for the guidance of vessels.

A white ball or disc hoisted to the top of a mast will denote that the channel is clear, and that a vessel may enter the Canyon from the end at which the ball is displayed.

A black drum or square will denote that the channel is not clear and a vessel must not enter the Canyon on any consideration when the drum is displayed.

The drum and ball shown together will be a signal between the two stations for information of the signalmen, and no vessel may enter the Canyon when this signal is shown.

In the event of vessels approaching the Canyon from both ends simultaneously, the upward-bound vessel will be held below the Canyon until the descending vessel has run the Canyon.

One prolonged blast of a steamer's whistle will be a request to the signal-men to give the all-clear signal.

In any other part of the river within Canadian territory if a vessel is warping up a downward bound vessel must keep clear of her and her warping lines, stopping and tying up if necessary to prevent collision.

In the event of two vessels simultaneously approaching where warping is required the upward bound vessel must allow the downward bound vessel to pass before running out her warping lines. Two long blasts followed by two short blasts of a steamer's whistle will be a signal that she is actually engaged in warping. 1–3

[3330]

AT THE GOVERNMENT HOUSE AT OTTAWA.

Saturday, the 18th day of December, 1897.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

ON a Memorandum, dated 11th November, 1897, from the Minister of the Interior, reporting, with regard to the disposal of school lands required in connection with irrigation works, that it is provided by section 21 of The North-west Irrigation Act, that lands required for the purposes of irrigation works may be acquired in a similar manner to that provided by The Railway Act for the acquisition of land required for railway purposes, that is to say, on such terms as the Governor in Council may prescribe.

That it is further provided by section 7 of the Regulations established by Order in Council of the 29th April, 1895, for the disposal of reservoir-sites and right of way for irrigation works, that the lands required for this purpose, and the title to which is vested in the Crown, may be granted free of charge.

The Minister represents that he is, however, advised by the Minister of Justice that section 7 of the Regulations referred to does not apply to school lands, and that in view of the provisions of sections 23 to 25 of The Dominion Lands Act and of section 99 of The Railway Act, where school lands are required for such purposes a special Order in Council should be obtained, prescribing the terms upon which such lands may be taken and appropriated, and providing for the application of the compensation money in like manner to the proceeds of the sales of school lands.

The Minister represents that in regard to school lands required for railway purposes the practice has been to sell such lands to the railway companies requiring them at prices fixed by the Minister of the Interior and approved by Your Excellency in Council, in accordance with the provisions of section 99 of The Railway Act, and the Minister is of opinion that school lands required in connection with irrigation works should be disposed of in a similar manner.

The Minister, therefore, recommends, as it would be difficult to fix a uniform rate of compensation that would be suitable in all cases, and in order to avoid the necessity of referring each case to Your Excellency in Council, that he, the Minister of the Interior, be authorized to dispose of school lands required in connection with irrigation works at such rate of compensation as may seem to him warranted by the circumstances of each case, having due regard to the interests of the School Endowment Fund, and that the compensation money received therefor shall be applied in the same way as that provided by section 25 of The Dominion Lands Act for the proceeds of the auction sales of school lands.

The Committee submit the above recommendation for Your Excellency's approval.

JOHN J. McGEE,
50-4 Clerk of the Privy Council.

Monday, the 16th day of May, 1898.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

ON a Report, dated 29th April, 1898, from the Minister of the Interior, stating that by an Order of the Committee of the Executive Council of the Province of Manitoba, passed on the 3rd day of June, 1897, authority was given for the survey and opening up of a colonization road through Townships 23 and 24, Range 24, and Townships 23, Ranges 25, 26 and 27 west of 1st Meridian, under the powers conferred by clause 7 of chapter 30, Act 58-59 Victoria. The road has been both surveyed and constructed during the past season, and the Provincial Government have deposited certified copies of the plan of survey in the Registry Office at Portage la Prairie, and the Department of the Interior at Ottawa. The Provincial Government of Manitoba have now made application for the transfer to the Crown, in the right of the Province of Manitoba, of the unpatented lands covered by the said road.

The Minister recommends that the areas included in the said road which are coloured *pink* on the plan No. 8054 of record in the Department of the Interior at Ottawa, (saving and excepting thereout the area coloured *pink*, within the south-east ¼ of Section 8, Township 24, Range 24 west 1st Meridian, which is patented land) be transferred to and vested in the Crown, in the right of the Province of Manitoba, for the purposes of a public highway, in accordance with clause 7 of chapter 30, Act 58-59 Victoria.

The Committee submit the same for Your Excellency's approval.

Lundi, le 20e jour de juin 1898.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

CONSIDÉRANT que les règles et règlements concernant l'inspection des bateaux à vapeur contiennent certaines règle qui fixent le nombre de canots que doivent porter les vapeurs à passagers sur certaines eaux en Canada, et en 1882, lorsque ces règles relatives aux canots furent adoptées par le conseil d'inspeetion des bateaux à vapeur et approuvées par le Gouverneur en conseil, le Lac des Bois était supposé être dans la province du Manitoba, et fut en conséquence supposé être compris dans les règles par l'expression "ou sur aucun lac ou rivière dans le Manitoba" ; et

Considérant que plus tard il fut décédé qu'une petite partie seule du Lac des Bois est dans la province du Manitoba, et il s'ensuivit que cette partie du lac sise en dehors du Manitoba est exempte des dispositions des règles relatives au nombre de canots que doivent porter les vapeurs à passagers ; et

Considérant qu'il est nécessaire et à propos de modifier les dites règles de manière à embrasser cette étendue d'eau appelée le Lac des Bois :

A ces causes il plaît à Son Excellence, en vertu des dispositions de "l'Acte d'inspection des bateaux à vapeur," et par et avec l'avis du Conseil privé de la Reine pour le Canada, d'ordonner et décréter que le paragraphe (*a*) de l'article 1 de la partie 8 des règles et règlements concernant l'inspection des bateaux à vapeur en Canada soit et il est par le présent abrogé et remplacé par le suivant :

"Nul bateau à vapeur ayant des passagers à bord ne pourra prendre la mer d'un port ou endroit quelconque en Canada, ou ne partira d'un port ou endroit quelconque, ou ne naviguera sur aucun des lacs Saint-Jean, Memphrémagog, Ontario, Erié, Huron ou Baie Georgienne, Simcoe, Supérieur, ou Lac des Bois, ou sur le fleuve Saint-Laurent, ou sur les rivières Ottawa, ou Saint-Jean, ou sur aucun lac ou aucune rivière au Manitoba, la Colombie-Britannique, ou les Territoires du Nord-Ouest, ou le district de Kéwatin, qui aura plus d'un mille de largeur à un point quelconque sur la route de ce bateau à vapeur."

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

Sur un rapport en date du 29 avril 1898, du ministre de l'Intérieur, énonçant que par un arrêté du comité du Conseil Exécutif de la province du Manitoba, passé le 3e jour de juin 1897, autorité a été donnée d'arpenter et d'ouvrir un chemin de colonisation dans les townships 23 et 24, rang 24, et townships 23, rangs 25, 26 et 27 à l'ouest du 1er méridien, en vertu des pouvoirs conférés par la clause 7 du chapitre 30 de 58-59 Victoria. Tous les officiers, sous-officiers et soldats, qui, durant les opérations en question, (1) ont servi sous les drapeaux, ou (2) ont servi sous les ordres d'une autorité compétente en qualité de gardes, à un point quelconque où une attaque de l'ennemi était à craindre, ou (3) ont été choisis par quelque autorité compétente pour quelque service ou devoir spécifique ou spécial.

DEMANDES.

Tous les réclamants de médailles seront tenus de soumettre leurs demandes séparément, et ceux qui ont fait plus qu'une campagne doivent soumettre une demande pour chacune.

Une formule (formule A. 17) à cet effet, qui renferme une déclaration des détails du service, que le réclamant doit faire devant un juge de paix, et aussi une déclaration d'un camarade qui a une connaissance personnelle du service du réclamant, seront transmises à tous les réclamants dont les demandes sont produites au quartier général. Tous réclamants dont les demandes n'ont pas encore été présentées peuvent obtenir des copies de cette formule en s'adressant au quartier général de district. Cette formule de demandes, après avoir été remplie convenablement, doit être expédiée au plus ancien officier survivant du corps auquel le réclamant appartenait, où, dans le cas où il n'y aurait pas d'officier survivant, directement à l'officier de district commandant actuellement le district dans lequel le service est censé avoir été fait.

Le plus ancien officier survivant, s'il y en a, transmettra, et, s'il a quelque preuve documentaire ou une connaissance personnelle du service allégué, il recommandera, la demande à l'officier de district commandant actuellement le district dans lequel le service est censé avoir été fait.

AGRAFES.

Il ne sera délivré qu'une médaille à une même personne.

Avec chaque médaille il sera accordé une agrafe indiquant l'occasion où ont été rendus les services pour lesquels la médaille est demandée, et à ceux qui ont fait des campagnes subséquentes à celle pour laquelle la médaille est demandée, il sera délivré, en outre, une agrafe pour chaque telle campagne. Les agrafes porteront l'inscription "Fenian Raid, 1866," "Fenian Raid, 1870," et "Red River, 1870."

Des médailles pour les personnes résidant au quartier général d'un corps de la Milice Active, ou d'une unité de ce corps, seront transmises à l'officier commandant du district, ou de l'officier commandant ce corps ou unité, pour être distribuées.

Là où existent des associations de vétérans, et qu'il est désirable de présenter publiquement des médailles à ces associations, ces médailles seront, sur la recommandation de l'officier commandant du district, expédiées aux présidents de ces associations. DEMANDES AU PARLEMENT.

Règles *in re* Avis de bills privés.

Dans le cas de toute demande de bills privés, proprement du ressort législatif du Parlement du Canada suivant les dispositions de l'Acte de l'Amérique Britannique du Nord, 1867, ayant pour objet la concession à une ou plusieurs personnes de certains droits ou privilèges exclusifs ou particuliers, ou le pouvoir de faire quelque chose qui, dans ses effets, pourrait toucher aux droits ou à la propriété d'autrui, ou concerner une classe particulière de la société ; ou ayant pour objet quelque amendement à un acte antérieur,—un avis, énonçant d'une manière claire et intelligible la nature et l'objet de la demande (sauf s'il s'agit de corporations déjà existantes) par les pétitionnaires ou de leur part est nécessaire et doit être publié comme il suit :—

Dans les provinces de Québec et du Manitoba.

Dans la *Gazette du Canada* en anglais et en français, ainsi que dans un journal anglais et un journal français, du district intéressé, ou en anglais et en français dans le même journal, s'il ne s'en publie qu'un seul dans ce district ; ou s'il n'y paraît pas de journal, alors la publication de l'avis en anglais et en français doit se faire dans un journal du district le plus voisin où il s'en publie.

Dans les autres provinces ou territoires.

Dans la *Gazette du Canada*, et dans un journal du comté, du district ou des comtés-unis intéressés, ou s'il n'y paraît pas de journal alors la publication doit se faire dans un journal du comté ou district le plus voisin où il s'en publie. La publication de ces avis durera, dans chaque cas, la période de deux mois au moins pendant l'intervalle de temps qui s'écoulera entre la clôture de la session précédente et la prise en considération de la pétition. Des exemplaires marqués de tous les numéros des journaux reproduisant la première et la dernière insertion de l'avis, devront être transmis au greffier de chaque Chambre, et porter à l'endos " Demande de bill privé."

Si la pétition demande l'autorisation de présenter un bill privé ayant pour objet la construction d'un pont de péage, les pétitionnaires devront aussi, en même temps et de la même manière, donner avis du taux de péages projeté, de l'étendue du privilège, de la hauteur des arches, de l'espace à laisser libre entre les culées ou les piles pour le passage des radeaux et des navires ; et, si c'est un pont mobile, quelles en seront les dimensions.

Toute personne désirant obtenir un bill privé devra, dans les huit jours au moins qui précéderont l'ouverture du parlement, déposer au bureau du greffier de la Chambre dans laquelle le bill doit prendre naissance, une copie de ce bill en langue anglaise ou en langue française, avec une somme suffisante pour en payer la traduction et l'impression. Après la seconde lecture et avant la prise en considération du bill par tout comité, le pétitionnaire aura aussi à payer au greffier du Sénat, ou au comptable de la Chambre des Communes (selon le cas) un honoraire de $200, plus une somme suffisante pour défrayer le coût de l'impression de l'acte dans les Statuts, et remettra le reçu de ce paiement au greffier du comité auquel ce bill aura été renvoyé.

L'honoraire de $200 payable sur tout bill privé, ne sera payé que dans la Chambre où ce bill a pris naissance ; mais les frais de réimpression et de traduction nécessités par ce bill seront payés dans la Chambre où ces frais sont encourus.

Aucune pétition pour l'obtention d'un bill privé ne sera reçue par le Sénat ou par la Chambre des Communes, après les premières trois semaines de la session.

Aucun bill privé ne pourra être présenté au Sénat ou à la Chambre des Communes après les premières quatre semaines de la session.

EDOUARD J. LANGEVIN,
Greffier du Sénat.

JOHN GEORGE BOURINOT,
Greffier des Communes.

Règle spéciale du Sénat.

49. (*c.*) Chaque fois qu'un bill doit opérer dans plus d'une province, territoire ou district, l'avis sera publié dans la *Gazette du Canada* et dans un journal bien établi publié dans chaque province, territoire ou district où le bill doit opérer.

Ordre permanent.

Lorsqu'un bill confirmant un bail, une convention ou toute autre espèce de contrat, sera reçu ou présenté au Sénat, ce bail, cette convention ou cette autre espèce de contrat sera exposé dans un appendice ou autrement.

EDOUARD J. LANGEVIN,
Greffier du Sénat.

Règles additionnelles de la Chambre des Communes concernant les bills privés.

Tous les bills privés demandant des actes constitutifs devront être rédigés de manière à y incorporer, en les spécifiant, les *clauses* des Actes généraux concernant les détails qui font l'objet de ces bills ; des raisons spéciales seront données chaque fois que l'on aura l'intention de se départir de ce principe, ou que l'on voudra y introduire d'autres dispositions touchant ces détails ; et une note sera annexée au bill indiquant les dispositions au sujet desquelles l'on entend s'écarter de l'Acte général ; les bills qui ne seront pas rédigés conformément à cette Règle, devront être remodelés par les auteurs et réimprimés à leurs frais, avant qu'aucun comité en examine les clauses.

51*a*. Tous les bills privés pour chartes ou pour modification de chartes de compagnies de chemins de fer seront rédigés conformément au bill-modèle dont copie peut être obtenue du greffier de la Chambre ;

(*a.*) Les dispositions contenues dans un bill quelconque qui ne seront pas conformes au bill-modèle, seront insérées entre crochets, et après avoir été revisées par l'officier compétent, elles seront imprimées ainsi ; et les bills qui ne seront pas rédigés en conformité de cette règle seront renvoyés aux auteurs pour être remodelés avant leur revision et impression ;

(*b.*) Toutes clauses d'actes existants que l'on proposera de modifier, seront imprimées en entier, avec les amendements insérés en leur lieu et place, et entre crochets;

(*c.*) Toutes dispositions exceptionnelles que l'on proposera d'insérer dans un bill quelconque, seront imprimées dans l'avis publié.

51*b.* Nul bill pour la constitution légale d'une compagnie de chemin de fer ou pour changer le tracé du chemin de fer d'une compagnie déjà constituée ne sera pris en considération par le comité des chemins de fer à moins qu'il n'ait été donné au comité, au moins une semaine avant la prise en considération du bill—

(*a.*) Une carte ou plan à l'échelle de pas moins d'un demi-pouce au mille, indiquant le territoire sur lequel l'on se propose de construire les travaux projetés, ainsi que les lignes de travaux analogues existants ou autorisés, dans les limites du district, ou partie du district que la ligne projetée doit desservir, ou affectant le dit district en aucune manière; cette carte ou plan devra être signé par l'ingénieur ou toute autre personne qui l'aura fait;

(*b.*) Un exhibit faisant connaître le montant total du capital que l'on se propose de prélever pour les fins de l'entreprise, et la manière dont on se propose de le prélever, soit au moyen d'actions ordinaires, obligations, débentures ou autres garanties, et le montant respectif de chacune.

JOHN GEORGE BOURINOT,
Greffier des Communes.

Ordre spécial de la Chambre des Communes.

Résolu,—Que le greffier de la Chambre adresse une copie de la Règle 49 modifiée aux personnes qui signifient dans la *Gazette du Canada* leur intention de s'adresser au parlement pour la passation d'un bill privé, ainsi qu'un avis portant que la dite Règle sera strictement appliquée à l'avenir :—

49. Les pétitions pour bills privés ne seront reçues par la Chambre que pendant les trois premières semaines de la session, et les bills privés ne pourront être présentés à la Chambre que pendant les quatre premières semaines de la session; et tout comité auquel aura été renvoyé un bill privé devra le prendre en considération et en faire rapport à la Chambre avec toute la diligence convenable.

2. Qu'il soit enjoint à tous les comités sur bills privés, dans le cas où les promoteurs ne seraient point prêts à procéder avec leurs mesures quand celles-ci auront été appelées deux fois en deux occasions différentes devant le comité pour y être considérées, de rapporter ces mesures à la Chambre sans délai, faisant connaître les faits, et avec la recommandation que ces bills soient retirés."

JOHN GEORGE BOURINOT,
Greffier des Communes.

Substance des règles et formes de procéder du Sénat concernant les bills de divorce.

L'époux qui a l'intention de demander un bill de divorce doit faire connaître cette intention, ainsi que les noms de l'autre époux et la cause du divorce, par avis inséré durant six mois avant la présentation de sa pétition pour obtenir le bill, dans la *Gazette du Canada* et dans deux journaux du district où il avait sa résidence habituelle à l'époque de séparation d'avec son conjoint, s'il résidait alors dans la province de Québec, le Manitoba, la Colombie-Britannique, ou les Territoires du Nord-Ouest,—ou du comté ou des comtés-unis, s'il résidait dans une autre province; mais si ce nombre de journaux ne s'y trouve pas, l'avis sera publié dans le district, le comté ou les comtés-unis voisins. Dans les provinces de Québec et de Manitoba, les insertions seront faites dans un journal anglais et un journal français, s'il en existe des deux langues dans le district : autrement, elles se feront en anglais et en français au même journal.

Il doit être signifié, à la diligence de l'époux pétitionnaire, un mois au moins avant la présentation de la pétition, une copie de cet avis à l'autre époux en personne, si cela est possible.

Aucune pétition en divorce n'est reçue après l'expiration des trente premiers jours de la session.

Toute pétition en divorce devra être écrite lisiblement et porter la signature du pétitionnaire. Elle énoncera sommairement le fait du mariage, le lieu et l'époque de sa célébration, les noms du célébrant, les griefs qui donnent lieu à la demande de redressement et la nature du redressement demandé, et en outre contiendra assurance qu'il n'y a pas eu réconciliation, collusion ni connivence. Les allégations de la pétition seront appuyées de la déclaration du pétitionnaire faite en vertu de "l'Acte de la preuve en Canada, 1893."

Huit jours avant l'ouverture du Parlement, le pétitionnaire déposera au bureau du greffier du Sénat, une copie en langue anglaise ou française du bill de divorce qui doit être présenté, et en même temps une somme suffisante pour payer la traduction et l'impression et tirage à 600 exemplaires anglais et 200 exemplaires français de ce bill.

La pétition en obtention d'un bill de divorce n'est présentée que lorsque le pétitionnaire a versé au bureau du greffier du Sénat une somme de $200.

La pétition, au moment de sa présentation, doit être accompagnée de la preuve de la publication d'avis, d'une déclaration qu'il a été signifié une copie de l'avis, et d'une copie du bill qui doit être présenté.

ORDERS IN COUNCIL.

[1627]

AT THE GOVERNMENT HOUSE AT OTTAWA.

Friday, the 24th day of June, 1898.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

ON a Memorandum, dated 30th May, 1898, from the Minister of the Interior, submitting that, on a Report dated 24th December, 1894, from the then Minister of the Interior, stating that it had been represented to him on behalf of the Mennonite settlers n Manitoba that their two Reserves in that Province were overcrowded owing partly to the influx of their fellow-countrymen from the United States and Europe and partly to the natural increase which has aken place since their first settlement in Manitoba, and that, therefore, to meet the growing needs of heir families and to encourage the settlement of their fellow-countrymen in Canada, it had become necesary to ask the Government to establish a reservation for them from lands in the Prince Albert District, an Order of Your Excellency in Council was passed dated he 23rd of January, 1895, reserving for entry by Mennonites only, the even-numbered sections (exclusive of Hudson's Bay Company's lands) so far as they were at the disposal of the Government, in Townships 40, Ranges 3, 4, and 5, and Township 41, Range 4, all west of the 3rd Meridian.

The Mennonites now state that the movement to he Prince Albert District is assuming large proportions, and that there are upwards of seventy families leaving for the new district this Spring and, as they consider the reserve already made insufficient, they have applied for an addition to it of Township 41, Range 3 west of the third Meridian.

The Minister states that these people have been a good class of settlers and have always faithfully discharged any obligations in connection with settlement undertaken by them, and he considers it in the public interest to encourage them in their efforts to promote settlement, and to do this it is necessary to give the intending settlers an assurance that they will be enabled to carry out the principles of their social system and to settle together in hamlets (for which provision is made by section 37 of the Dominion Lands Act) by obtaining entries for contiguous lands.

The Minister, therefore, recommends that he be authorized to reserve for entry by Mennonites only, the even-numbered sections (exclusive of Hudson's Bay Company's lands), in Township 41, Range 3, west of the 3rd Meridian, so far as they may be at the disposal of the Government.

The Committee advise that the requisite authority be granted accordingly.

H. G. LaMOTHE,
2-4 Asst. Clerk of the Privy Council.

The Order sets forth that this road "is necessary and advisable for the pur-"poses of settlement and colonization, and for the "convenience of the public," &c.

The Minister, therefore, recommends that assent of Your Excellency be given to the opening up the said road, which is coloured pink on the annexed plan, and that the same be transferred to the Crown in the right of the Province of Manitoba, for the purpose of a public highway, as provided for by clause 7 of chapter 30 of the Act 58-59 Victoria.

JOHN J. McGEE,
Clerk of the Privy Council.

NOTICE TO MARINERS.

DOMINION OF CANADA, BRITISH COLUMBIA.

Navigation of the Stikine River.

The Department of Marine and Fisheries of Canada has made arrangements for a system of signalling at Little Canyon on the Stikine River to prevent collisions therein. Immediately after the opening of navigation a station will be established at each end of the Canyon, at which signals will be displayed for the guidance of vessels.

A white ball or disc hoisted to the top of a mast will denote that the channel is clear, and that a vessel may enter the Canyon from the end at which the ball is displayed.

A black drum or square will denote that the channel is not clear and a vessel must not enter the Canyon on any consideration when the drum is displayed.

The drum and ball shown together will be a signal between the two stations for information of the signalmen, and no vessel may enter the Canyon when this signal is shown.

In the event of vessels approaching the Canyon from both ends simultaneously, the upward-bound vessel will be held below the Canyon until the descending vessel has run the Canyon.

One prolonged blast of a steamer's whistle will be a request to the signal-men to give the all-clear signal.

In any other part of the river within Canadian territory if a vessel is warping up a downward bound vessel must keep clear of her and her warping lines, stopping and tying up if necessary to prevent collision.

In the event of two vessels simultaneously approaching where warping is required the upward bound vessel must allow the downward bound vessel to pass before running out her warping lines. Two long blasts followed by two short blasts of a steamer's whistle will be a signal that she is actually engaged in warping. 1–3

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

SUR un rapport daté du 7 de juin 1898, du ministre de l'Intérieur, disant que le Conseil Exécutif de la province du Manitoba a passé un arrêté autorisant l'ouverture d'une nouvelle réserve de chemin sur le quart nord-ouest de la section 28, township 10, rang 10 à l'ouest du 1er méridien, et qu'il a déposé au Secrétariat d'Etat une copie de l'arrêté ainsi qu'un plan qui l'accompagne. L'arrêté énonce que ce chemin " est nécessaire et avantageux pour les fins d'établissement et de colonisation, et pour la commodité du public," etc.

Le Ministre recommande donc que l'assentiment de Votre Excellence soit donné à l'ouverture du dit chemin qui est coloré rose sur le plan ci-joint, et qu'il soit transféré à la Couronne à la province du Manitoba, pour les fins d'un chemin public, tel que prévu par la clause 7 du chapitre 30 de l'Acte 58-59 Victoria.

Le comité soumet ce qui précède à l'approbation de Votre Excellence.

H. G. LaMOTHE,
2–4 Greffier-adjoint du Conseil privé.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

SUR un memorandum daté le 30 de mai 1898, du ministre de l'Intérieur, soumettant que sur un rapport daté le 24 décembre 1894, du ministre de l'Intérieur alors en exercice, énonçant qu'il lui avait été représenté de la part des colons Mennonites au Manitoba que leurs deux réserves dans cette province étaient encombrées partie par l'affluence de leurs compatriotes venus des Etats-Unis et de l'Europe, et partie par l'accroissement naturel qui a eu lieu depuis leur premier établissement au Manitoba, et que, pour faire face aux besoins croissants de leurs familles, et pour encourager l'établissement de leurs compatriotes en Canada, il était devenu nécessaire de demander au gouvernement d'établir une réserve pour eux à même les terres dans le district de Prince Albert, un arrêté de Son Excellence en conseil fut rendu en date du 23 de janvier 1895, réservant pour inscription par les mennonites seulement, les sections impaires (à l'exception des terres de la Compagnie de la Baie d'Hudson) qui étaient à la disposition du gouvernement dans les townships 40, rangs 3, 4 et 5, et le township 41, rang 4, tous à l'ouest du 5e méridien.

Les Mennonites disent maintenant que le mouvement dans le district de Prince Albert se développe beaucoup, et qu'il y a au delà de soixante-dix familles qui partent ce printemps pour ce nouveau district, et vu qu'ils considèrent que la réserve est déjà insuffisante, ils ont demandé que le township 41, rang 3 à l'ouest du 3e méridien lui soit ajouté.

Le Ministre dit que ces gens ont été de bons colons, et ont toujours fidèlement rempli les obligations relatives à l'établissement entreprises par eux, et il considère que c'est dans l'intérêt public de les encourager dans leurs efforts pour développer l'établissement, et à cette fin il est nécessaire de donner aux colons en perspective l'assurance qu'ils pourront mettre à exécution les principes de leur système social et de s'établir ensemble par hameaux (système prévu par l'article 37 de l'*Acte des terres fédérales*) en obtenant des inscriptions pour des terres contiguës.

A ces causes le Ministre recommande qu'il soit autorisé à réserver pour inscription par les Mennonites seulement, les sections impaires (à l'exception des terres de la Compagnie de la Baie d'Hudson) dans le township 41, rang 3 à l'ouest du 3e méridien, en tant que le gouvernement peut en disposer.

Le comité conseille que l'autorisation requise doit donnée en conséquence.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

SUR un rapport daté le 18 de juin 1898, du ministre de l'Intérieur, énonçant que par arrêté en conseil du 22 de janvier 1872, un bloc de terre à Winnipeg, contenant environ 50 acres, fut réservé pour des fins publiques, à même les terres qui constituaient autrefois la réserve faite par la Compagnie de la Baie d'Hudson à Fort Garry en haut. Subséquemment, par arrêté en conseil du 10 d'avril 1874, la moitié est de ce bloc de terre, sur lequel les édifices du gouvernement provincial sont situés, fut transférée à la province du Manitoba.

Le Ministre dit, de plus, qu'il est maintenant représenté qu'une partie de la balance de la réserve fédérale est requise par l'Université du Manitoba, et il est d'avis que cette demande devrait être accordée.

Le Ministre recommande qu'une partie de la dite réserve colorée rose sur le plan ci-joint, et contenant environ 6·60 acres, soit accordée au gouvernement de la province du Manitoba pour des fins d'éducation.

Le comité soumet ce qui précède à l'approbation de Votre Excellence.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

CONSIDÉRANT que les règles et règlements concernant l'inspection des bateaux à vapeur contiennent certaines règle qui fixent le nombre de canots que doivent porter les vapeurs à passagers sur certaines eaux en Canada, et en 1882, lorsque ces règles relatives aux canots furent adoptées par le conseil d'inspection des bateaux à vapeur et approuvées par le Gouverneur en conseil, le Lac des Bois était supposé être dans la province du Manitoba, et fut en conséquence supposé être compris dans les règles par l'expression " ou sur aucun lac ou rivière dans le Manitoba " ; et

Considérant que plus tard il fut décédé qu'une petite partie seule du Lac des Bois est dans la province du Manitoba, et il s'ensuivit que cette partie du lac sise en dehors du Manitoba est exempte des dispositions des règles relatives au nombre de canots que doivent porter les vapeurs à passagers ; et

Considérant qu'il est nécessaire et à propos de modifier les dites règles de manière à embrasser cette étendue d'eau appelée le Lac des Bois :

A ces causes il plaît à Son Excellence, en vertu des dispositions de " l'Acte d'inspection des bateaux à vapeur," et par et avec l'avis du Conseil privé de la Reine pour le Canada, d'ordonner et décréter que le paragraphe (*a*) de l'article 1 de la partie 8 des règles et règlements concernant l'inspection des bateaux à vapeur en Canada soit et il est par le présent abrogé et remplacé par le suivant :

" Nul bateau à vapeur ayant des passagers à bord ne pourra prendre la mer d'un port ou endroit quelconque en Canada, ou ne partira d'un port ou endroit quelconque, ou ne naviguera sur aucun des lacs Saint-Jean, Memphrémagog, Ontario, Erié, Huron ou Baie Georgienne, Simcoe, Supérieur, ou Lac des Bois, ou sur le fleuve Saint-Laurent, ou sur les rivières Ottawa, ou Saint-Jean, ou sur aucun lac ou aucune rivière au Manitoba, la Colombie-Britannique, ou les Territoires du Nord-Ouest, ou le district de Kéwatin, qui aura plus d'un mille de largeur à un point quelconque sur la route de ce bateau à vapeur."

DEMANDES AU PARLEMENT.

RÈGLES *in re* AVIS DE BILLS PRIVÉS.

Dans le cas de toute demande de bills privés, proprement du ressort législatif du Parlement du Canada suivant les dispositions de l'Acte de l'Amérique Britannique du Nord, 1867, ayant pour objet la concession à une ou plusieurs personnes de certains droits ou privilèges exclusifs ou particuliers, ou le pouvoir de faire quelque chose qui, dans ses effets, pourrait toucher aux droits ou à la propriété d'autrui, ou concerner une classe particulière de la société ; ou ayant pour objet quelque amendement à un acte antérieur,—un avis, énonçant d'une manière claire et intelligible la nature et l'objet de la demande (sauf s'il s'agit de corporations déjà existantes) par les pétitionnaires ou de leur part est nécessaire et doit être publié comme il suit :—

Dans les provinces de Québec et du Manitoba.

Dans la *Gazette du Canada* en anglais et en français, ainsi que dans un journal anglais et un journal français, du district intéressé, ou en anglais et en français dans le même journal, s'il ne s'en publie qu'un seul dans ce district ; ou s'il n'y paraît pas de journal, alors la publication de l'avis en anglais et en français doit se faire dans un journal du district le plus voisin où il s'en publie.

Dans les autres provinces ou territoires.

Dans la *Gazette du Canada*, et dans un journal du comté, du district ou des comtés-unis intéressés, ou s'il n'y paraît pas de journal alors la publication doit se faire dans un journal du comté ou district le plus voisin où il s'en publie. La publication de ces avis durera, dans chaque cas, la période de deux mois au moins pendant l'intervalle de temps qui s'écoulera entre la clôture de la session précédente et la prise en considération de la pétition. Des exemplaires marqués de tous les numéros des journaux reproduisant la première et la dernière insertion de l'avis, devront être transmis au greffier de chaque Chambre, et porter à l'endos " Demande de bill privé."

Si la pétition demande l'autorisation de présenter un bill privé ayant pour objet la construction d'un pont de péage, les pétitionnaires devront aussi, en même temps et de la même manière, donner avis du taux de péages projeté, de l'étendue du privilège, de la hauteur des arches, de l'espace à laisser libre entre les culées ou les piles pour le passage des radeaux et des navires ; et, si c'est un pont mobile, quelles en seront les dimensions.

Toute personne désirant obtenir un bill privé devra, dans les huit jours au moins qui précéderont l'ouverture du parlement, déposer au bureau du greffier de la Chambre dans laquelle le bill doit prendre naissance, une copie de ce bill en langue anglaise ou en langue française, avec une somme suffisante pour en payer la traduction et l'impression. Après la seconde lecture et avant la prise en considération du bill par tout comité, le pétitionnaire aura aussi à payer au greffier du Sénat, ou au comptable de la Chambre des Communes (selon le cas) un honoraire de $200, plus une somme suffisante pour défrayer le coût de l'impression de l'acte dans les Statuts, et remettra le reçu de ce paiement au greffier du comité auquel ce bill aura été renvoyé.

L'honoraire de $200 payable sur tout bill privé, ne sera payé que dans la Chambre où ce bill a pris naissance ; mais les frais de réimpression et de traduction nécessités par ce bill seront payés dans la Chambre où ces frais sont encourus.

Aucune pétition pour l'obtention d'un bill privé ne sera reçue par le Sénat ou par la Chambre des Communes, après les premières trois semaines de la session.

Aucun bill privé ne pourra être présenté au Sénat ou à la Chambre des Communes après les premières quatre semaines de la session.

EDOUARD J. LANGEVIN,
Greffier du Sénat.
JOHN GEORGE BOURINOT,
Greffier des Communes.

RÈGLE SPÉCIALE DU SÉNAT.

49. (*c*.) Chaque fois qu'un bill doit opérer dans plus d'une province, territoire ou district, l'avis sera publié dans la *Gazette du Canada* et dans un journal bien établi publié dans chaque province, territoire ou district où le bill doit opérer.

ORDRE PERMANENT.

Lorsqu'un bill confirmant un bail, une convention ou toute autre espèce de contrat, sera reçu ou présenté au Sénat, ce bail, cette convention ou cette autre espèce de contrat sera exposé dans un appendice ou autrement.

EDOUARD J. LANGEVIN,
Greffier du Sénat.

RÈGLES ADDITIONNELLES DE LA CHAMBRE DES COMMUNES CONCERNANT LES BILLS PRIVÉS.

Tous les bills privés demandant des actes constitutifs devront être rédigés de manière à y incorporer, en les spécifiant, les *clauses* des Actes généraux concernant les détails qui font l'objet de ces bills ; des raisons spéciales seront données chaque fois que l'on aura l'intention de se départir de ce principe, ou que l'on voudra y introduire d'autres dispositions touchant ces détails ; et une note sera annexée au bill indiquant les dispositions au sujet desquelles l'on entend s'écarter de l'Acte général ; les bills qui ne seront pas rédigés conformément à cette Règle, devront être remodelés par les auteurs et réimprimés à leurs frais, avant qu'aucun comité en examine les clauses.

51*a*. Tous les bills privés pour chartes ou pour modification de chartes de compagnies de chemins de fer seront rédigés conformément au bill-modèle dont copie peut être obtenue du greffier de la Chambre ;

(*a*.) Les dispositions contenues dans un bill quelconque qui ne seront pas conformes au bill-modèle, seront insérées entre crochets, et après avoir été revisées par l'officier compétent, elles seront imprimées ainsi ; et les bills qui ne seront pas rédigés en conformité de cette règle seront renvoyés aux auteurs pour être remodelés avant leur revision et impression ;

(*b.*) Toutes clauses d'actes existants que l'on proposera de modifier, seront imprimées en entier, avec les amendements insérés en leur lieu et place, et entre crochets;

(*c.*) Toutes dispositions exceptionnelles que l'on proposera d'insérer dans un bill quelconque, seront imprimées dans l'avis publié.

51*b*. Nul bill pour la constitution légale d'une compagnie de chemin de fer ou pour changer le tracé du chemin de fer d'une compagnie déjà constituée ne sera pris en considération par le comité des chemins de fer à moins qu'il n'ait été donné au comité, au moins une semaine avant la prise en considération du bill—

(*a.*) Une carte ou plan à l'échelle de pas moins d'un demi-pouce au mille, indiquant le territoire sur lequel l'on se propose de construire les travaux projetés, ainsi que les lignes de travaux analogues existants ou autorisés, dans les limites du district, ou partie du district que la ligne projetée doit desservir, ou affectant le dit district en aucune manière; cette carte ou plan devra être signé par l'ingénieur ou toute autre personne qui l'aura fait;

(*b.*) Un exhibit faisant connaître le montant total du capital que l'on se propose de prélever pour les fins de l'entreprise, et la manière dont on se propose de le prélever, soit au moyen d'actions ordinaires, obligations, débentures ou autres garanties, et le montant respectif de chacune.

JOHN GEORGE BOURINOT,
Greffier des Communes.

ORDRE SPÉCIAL DE LA CHAMBRE DES COMMUNES.

Résolu,—Que le greffier de la Chambre adresse une copie de la Règle 49 modifiée aux personnes qui signifient dans la *Gazette du Canada* leur intention de s'adresser au parlement pour la passation d'un bill privé, ainsi qu'un avis portant que la dite Règle sera strictement appliquée à l'avenir:—

49. Les pétitions pour bills privés ne seront reçues par la Chambre que pendant les trois premières semaines de la session, et les bills privés ne pourront être présentés à la Chambre que pendant les quatre premières semaines de la session; et tout comité auquel aura été renvoyé un bill privé devra le prendre en considération et en faire rapport à la Chambre avec toute la diligence convenable.

2. Qu'il soit enjoint à tous les comités sur bills privés, dans le cas où les promoteurs ne seraient point prêts à procéder avec leurs mesures quand celles-ci auront été appelées deux fois en deux occasions différentes devant le comité pour y être considérées, de rapporter ces mesures à la Chambre sans délai, faisant connaître les faits, et avec la recommandation que ces bills soient retirés."

JOHN GEORGE BOURINOT,
Greffier des Communes.

SUBSTANCE DES RÈGLES ET FORMES DE PROCÉDER DU SÉNAT CONCERNANT LES BILLS DE DIVORCE.

[1627]

AT THE GOVERNMENT HOUSE AT OTTAWA.

Friday, the 24th day of June, 1898.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

On a Memorandum, dated 30th May, 1898, from the Minister of the Interior, submitting that, on a Report dated 24th December, 1894, from the then Minister of the Interior, stating that it had been represented to him on behalf of the Mennonite settlers in Manitoba that their two Reserves in that Province were overcrowded owing partly to the influx of their fellow countrymen from the United States and Europe and partly to the natural increase which has taken place since their first settlement in Manitoba, and that, therefore, to meet the growing needs of their families and to encourage the settlement of their fellow-countrymen in Canada, it had become necessary to ask the Government to establish a reservation for them from lands in the Prince Albert District, an Order of Your Excellency in Council was passed dated the 23rd of January, 1895, reserving for entry by Mennonites only, the even-numbered sections (exclusive of Hudson's Bay Company's lands) so far as they were at the disposal of the Government, in Townships 40, Ranges 3, 4, and 5, and Township 41, Range 4, all west of the 3rd Meridian.

The Mennonites now state that the movement to the Prince Albert District is assuming large proportions, and that there are upwards of seventy families leaving for the new district this Spring and, as they consider the reserve already made insufficient, they have applied for an addition to it of Township 41, Range 3 west of the third Meridian.

The Minister states that these people have been a good class of settlers and have always faithfully discharged any obligations in connection with settlement undertaken by them, and he considers it in the public interest to encourage them in their efforts to promote settlement, and to do this it is necessary to give the intending settlers an assurance that they will be enabled to carry out the principles of their social system and to settle together in hamlets (for which provision is made by section 37 of the Dominion Lands Act) by obtaining entries for contiguous lands.

The Minister, therefore, recommends that he be authorized to reserve for entry by Mennonites only, the even-numbered sections (exclusive of Hudson's Bay Company's lands), in Township 41, Range 3, west of the 3rd Meridian, so far as they may be at the disposal of the Government.

The Committee advise that the requisite authority be granted accordingly.

H. G. LAMOTHE,
2–4 Asst. Clerk of the Privy Council.

The Order sets forth that this road "is necessary and advisable for the purposes of settlement and colonization, and for the convenience of the public," &c.

The Minister, therefore, recommends that assent of Your Excellency be given to the opening up the said road, which is coloured pink on the annexed plan, and that the same be transferred to the Crown in the right of the Province of Manitoba, for the purpose of a public highway, as provided for by clause 7 of chapter 30 of the Act 58-59 Victoria.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

WHEREAS the Rules and Regulations relating to the inspection of steamboats contain certain rules which govern the number of boats to be carried by passenger steamboats on certain waters in Canada ; and in 1882 when these rules relating to boats were adopted by the Board of Steamboat Inspection and approved by the Governor in Council, the Lake of the Woods was supposed to be in the Province of Manitoba, and was therefore supposed to be included in the rules by the expression "or any lake or river in Manitoba"; and

Whereas it is necessary and expedient to amend the said rules so as to embrace that body of water known as the Lake of the Woods :

Therefore His Excellency, in virtue of the provisions of The Steamboat Inspection Act, and by and with the advice of the Queen's Privy Council for Canada, is pleased to order and direct that paragraph "*a*" of section 1 of part 8 of the Rules and Regulations respecting the inspection of steamboats in Canada shall be and the same is hereby repealed and the following substituted therefor :

JOHN J. McGEE,
Clerk of the Privy Council.

NOTICE TO MARINERS.

Dominion of Canada, British Columbia.

Navigation of the Stikine River.

The Department of Marine and Fisheries of Canada has made arrangements for a system of signalling at Little Canyon on the Stikine River to prevent collisions therein. Immediately after the opening of navigation a station will be established at each end of the Canyon, at which signals will be displayed for the guidance of vessels.

A white ball or disc hoisted to the top of a mast will denote that the channel is clear, and that a vessel may enter the Canyon from the end at which the ball is displayed.

A black drum or square will denote that the channel is not clear and a vessel must not enter the Canyon on any consideration when the drum is displayed.

The drum and ball shown together will be a signal between the two stations for information of the signalmen, and no vessel may enter the Canyon when this signal is shown.

In the event of vessels approaching the Canyon from both ends simultaneously, the upward-bound vessel will be held below the Canyon until the descending vessel has run the Canyon.

One prolonged blast of a steamer's whistle will be a request to the signal-men to give the all-clear signal.

In any other part of the river within Canadian territory if a vessel is warping up a downward bound vessel must keep clear of her and her warping lines, stopping and tying up if necessary to prevent collision.

In the event of two vessels simultaneously approaching where warping is required the upward bound vessel must allow the downward bound vessel to pass before running out her warping lines. Two long blasts followed by two short blasts of a steamer's whistle will be a signal that she is actually engaged in warping. 1-3

DOMINION OF CANADA—BRITISH COLUMBIA.

I. BEACON AT GIBSONS LANDING.

A small stone beacon, surmounted by a wooden staff and lattice work ball, the whole painted black, and showing 9 feet above water, has been erected by this Department on the northern portion of a rock 2¾ cables east of Gibsons Landing, Shoal Channel, Howe Sound.

Lat. N.	49°	24'	10"
Long. W.	123°	31'	2"

This beacon replaces the buoy described in Part III of Notice to Mariners No. 28 of 1898.

II. ROCK IN SHOAL CHANNEL.

An uncharted danger in Shoal Channel, entrance to Howe Sound, near the conspicuous cone shown on plan 585 has been located by Mr. J. T. Walbran, Master of the D.G.S. "Quadra."

The danger is a narrow shoal running S.S.E. from a point on the west shore where a slate spit extends 160 feet south from high water mark. No depth of more than 2 fathoms is found to the shoalest spot, a rock awash, at a distance of one cable from the shore. A depth of 4 fathoms is found ½ cable south of this spot, outside of which the water rapidly deepens.

From the rock awash Gibsons Landing wharf bears S.S.W. (S. 45° 45' W. true), distant 1⅓ miles; the North Shelter Island, S.E. (S. 21° 45' E. true), distant 7 cables, and the trend of the shore northward bears N. ¼ E. (N. 26° E. true).

This notice affects Admiralty charts Nos. 579 and 585, and British Columbia Pilot, 1888, page 169.

III. Rocky Patch off Cole Bay.

Notice has been received from the Commander-in-chief of the Pacific Station of the location by the officers of H.M.S. "Pheasant" of a rocky patch off White Rocks, Cole Bay, Saanich Inlet.

Lat. N. 48° 37' 47"
Long. W. 123° 29' 40"

The patch lies in a N.E. by S.W. direction with the westernmost of the White Rocks bearing N. 57° E. magnetic, distant 2 cables. It is about ½ cable in extent and has a least depth of 8 feet.

The following sextant angles will locate the position of least depth.

IV. Shoal Southeastward of Mitlenatch Island.

Information, dated 21st April, 1898, was received by the British Admiralty from Commander M. H. Smith, H.M. surveying-vessel "Egeria," of the existence of a shoal, now named Sentry Shoal, lying to the southeastward of Mitlenatch Island. The shoal within the limits of the 10 fathom line runs N.W. and S.E. 1½ miles, the least depth found being 5 fathoms, from which the summit of Mitlenatch Island bears N. 30° W., distant 2⅒ miles.

Shoal water also appears to extend ½ mile from the north side of Mitlenatch Island.

Approximate position of 5 fathom patch:—

This notice affects Admiralty charts Nos. 580 and 1917, and British Columbia Pilot, 1888, page 182.

V. Rock in Schooner Passage.

Captain Roberts, of the steamer "Princess Louise," has reported that his vessel struck an unknown rock in Schooner Passage, Rivers Inlet. The rock is about 70 yards from the western shore and is awash at extreme low tide. A mid-channel course will clear the danger.

Approximate position on Admiralty chart No. 1923*b*:—

Lat. N. 51° 33' 17"
Long. W. 127° 36' 30"

Captain Roberts also reports that the rock shown on the chart on the eastern side of the southern entrance to Schooner Passage dries at an extreme low tide.

This notice affects Admiralty chart No. 1923*b*, and British Columbia Pilot, 1888, page 360.

VI. General Information respecting Work Channel.

The following summary of a report by Captain Walbran, has been published in the United States Notice to Mariners No. 24 of 1898:—

Work Channel, the entrance to which lies close northward of Point Maskelyne, is a nearly straight arm stretching about 30 miles to the southeastward, the head reaching within 2 or 3 miles of the Skeena River.

There is good anchorage in 9 fathoms in a small cove, known as Trail Bay Cove, situated on the west side of Trail Bay. Trail Bay is situated on the western shore of the inlet and 5½ miles from the entrance.

Two miles eastward of Grace Point, the entrance to Trail Bay, is a dangerous pinnacle rock situated nearly in the middle of the inlet. The rock just dries at an extreme low tide. It is surrounded by deep water, there being a depth of 130 fathoms close to it.

The shores of this inlet are bold and compact and the whole of this channel is surrounded by high and precipitous mountains.

About 8 miles from the head a narrow arm branches off to the northward for about 3 miles and then turns to the southeast and eastward for 8 miles.

Indifferent anchorage may be found at the head of the main inlet, between the two small streams in the southwestern bight, in 35 fathoms, 400 yards from low water mark. There is also anchorage, for a small vessel, in 9 fathoms in the cove to the northward of the bight and off the entrance of Salt Water Lake, steadying her with a hawser to the trees.

The tidal stream in the entrance of Work Channel runs about 3 knots per hour.

This notice affects Admiralty charts Nos. 1923*a* and 2430, and British Columbia Pilot, 1888, page 428.

The light will be, as heretofore, fixed white, elevated 47 feet above high water mark, and should be visible 10 miles in the line of range and also eastwardly down the bay approximately between the bearings of N. W. and E. S. E. The illuminating apparatus consists of a single wick lamp strengthened by a pressed glass lens.

The back tower is erected on the south side of the high road, 804 feet S. by E. ⅝ E. (S. 40° 30' E. true) from the front tower. It is a skeleton steel frame work, square in plan, with sloping sides, surmounted by a wooden lantern and light-room. The height from the ground to the vane on the lantern is 59 feet. The lantern and ironwork are painted red: the enclosed upper part of the tower is painted white. The light is a fixed white light elevated 58 feet above high water mark and visible 10 miles in the line of range and also eastwardly down the bay. The illuminating apparatus is similar to that of the front light.

The two lights are in exactly the same alignment as the old lights and in one lead vessels entering Miramichi bay from the Bar buoy up through the ship channel east of the Lump buoy.

This notice affects Admiralty charts Nos. 435, 2034 and 2187.

SUR un rapport daté du 7 de juin 1898, du ministre de l'Intérieur, disant que le Conseil Exécutif de la province du Manitoba a passé un arrêté autorisant l'ouverture d'une nouvelle réserve de chemin sur le quart nord-ouest de la section 28, township 10, rang 10 à l'ouest du 1er méridien, et qu'il a déposé au Secrétariat d'Etat une copie de l'arrêté ainsi qu'un plan qui l'accompagne. L'arrêté énonce que ce chemin " est nécessaire et avantageux pour les fins d'établissement et de colonisation, et pour la commodité du public," etc.

Le Ministre recommande donc que l'assentiment de Votre Excellence soit donné à l'ouverture du dit chemin qui est coloré rose sur le plan ci-joint, et qu'il soit transféré à la Couronne à la province du Manitoba, pour les fins d'un chemin public, tel que prévu par la clause 7 du chapitre 30 de l'Acte 58-59 Victoria.

Le comité soumet ce qui précède à l'approbation de Votre Excellence.

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

SUR un memorandum daté le 30 de mai 1898, du ministre de l'Intérieur, soumettant que sur un rapport daté le 24 décembre 1894, du ministre de l'Intérieur alors en exercice, énonçant qu'il lui avait été représenté de la part des colons Mennonites au Manitoba que leurs deux réserves dans cette province étaient encombrées partie par l'affluence de leurs compatriotes venus des Etats-Unis et de l'Europe, et partie par l'accroissement naturel qui a eu lieu depuis leur premier établissement au Manitoba, et que, pour faire face aux besoins croissants de leurs familles, et pour encourager l'établissement de leurs compatriotes en Canada, il était devenu nécessaire de demander au gouvernement d'établir une réserve pour eux à même les terres dans le district de Prince Albert, un arrêté de Son Excellence en conseil fut rendu en date du 23 de janvier 1895, réservant pour inscription par les mennonites seulement, les sections impaires (à l'exception des terres de la Compagnie de la Baie d'Hudson) qui étaient à la disposition du gouvernement dans les townships 40, rangs 3, 4 et 5, et le township 41, rang 4, tous à l'ouest du 5e méridien.

Les Mennonites disent maintenant que le mouvement dans le district de Prince Albert se développe beaucoup, et qu'il y a au delà de soixante-dix familles qui partent ce printemps pour ce nouveau district, et vu qu'ils considèrent que la réserve est déjà insuffisante, ils ont demandé que le township 41, rang 3 à l'ouest du 3e méridien lui soit ajouté.

Le Ministre dit que ces gens ont été de bons colons, et ont toujours fidèlement rempli les obligations relatives à l'établissement entreprises par eux, et il considère que c'est dans l'intérêt public de les encourager dans leurs efforts pour développer l'établissement, et à cette fin il est nécessaire de donner aux colons en perspective l'assurance qu'ils pourront mettre à exécution les principes de leur système social et de s'établir ensemble par hameaux (système prévu par l'article 37 de l'*Acte des terres fédérales*) en obtenant des inscriptions pour des terres contiguës.

A ces causes le Ministre recommande qu'il soit autorisé à réserver pour inscription par les Mennonites seulement, les sections impaires (à l'exception des terres de la Compagnie de la Baie d'Hudson) dans le township 41, rang 3 à l'ouest du 3e méridien, en tant que le gouvernement peut en disposer.

Le comité conseille que l'autorisation requise doit donnée en conséquence.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

SUR un rapport daté le 18 de juin 1898, du ministre de l'Intérieur, énonçant que par arrêté en conseil du 22 de janvier 1872, un bloc de terre à Winnipeg, contenant environ 50 acres, fut réservé pour des fins publiques, à même les terres qui constituaient autrefois la réserve faite par la Compagnie de la Baie d'Hudson à Fort Garry en haut. Subséquemment, par arrêté en conseil du 10 d'avril 1874, la moitié est de ce bloc de terre, sur lequel les édifices du gouvernement provincial sont situés, fut transférée à la province du Manitoba.

Le Ministre dit, de plus, qu'il est maintenant représenté qu'une partie de la balance de la réserve fédérale est requise par l'Université du Manitoba, et il est d'avis que cette demande devrait être accordée.

Le Ministre recommande qu'une partie de la dite réserve colorée rose sur le plan ci-joint, et contenant environ 6·60 acres, soit accordée au gouvernement de la province du Manitoba pour des fins d'éducation.

Le comité soumet ce qui précède à l'approbation de Votre Excellence.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

CONSIDÉRANT que les règles et règlements concernant l'inspection des bateaux à vapeur contiennent certaines règle qui fixent le nombre de canots que doivent porter les vapeurs à passagers sur certaines eaux en Canada, et en 1882, lorsque ces règles relatives aux canots furent adoptées par le conseil d'inspection des bateaux à vapeur et approuvées par le Gouverneur en conseil, le Lac des Bois était supposé être dans la province du Manitoba, et fut en conséquence supposé être compris dans les règles par l'expression "ou sur aucun lac ou rivière dans le Manitoba" ; et

Considérant que plus tard il fut décédé qu'une petite partie seule du Lac des Bois est dans la province du Manitoba, et il s'ensuivit que cette partie du lac sise en dehors du Manitoba est exempte des dispositions des règles relatives au nombre de canots que doivent porter les vapeurs à passagers ; et

Considérant qu'il est nécessaire et à propos de modifier les dites règles de manière à embrasser cette étendue d'eau appelée le Lac des Bois :

A ces causes il plaît à Son Excellence, en vertu des dispositions de "l'Acte d'inspection des bateaux à vapeur," et par et avec l'avis du Conseil privé de la Reine pour le Canada, d'ordonner et décréter que le paragraphe (*a*) de l'article 1 de la partie 8 des règles et règlements concernant l'inspection des bateaux à vapeur en Canada soit et il est par le présent abrogé et remplacé par le suivant :

"Nul bateau à vapeur ayant des passagers à bord ne pourra prendre la mer d'un port ou endroit quelconque en Canada, ou ne partira d'un port ou endroit quelconque, ou ne naviguera sur aucun des lacs Saint-Jean, Memphrémagog, Ontario, Erié, Huron ou Baie Georgienne, Simcoe, Supérieur, ou Lac des Bois, ou sur le fleuve Saint-Laurent, ou sur les rivières Ottawa, ou Saint-Jean, ou sur aucun lac ou aucune rivière au Manitoba, la Colombie-Britannique, ou les Territoires du Nord-Ouest, ou le district de Kéwatin, qui aura plus d'un mille de largeur à un point quelconque sur la route de ce bateau à vapeur."

DEMANDES AU PARLEMENT.

Règles *in re* Avis de bills privés.

Dans le cas de toute demande de bills privés, proprement du ressort législatif du Parlement du Canada suivant les dispositions de l'Acte de l'Amérique Britannique du Nord, 1867, ayant pour objet la concession à une ou plusieurs personnes de certains droits ou privilèges exclusifs ou particuliers, ou le pouvoir de faire quelque chose qui, dans ses effets, pourrait toucher aux droits ou à la propriété d'autrui, ou concerner une classe particulière de la société ; ou ayant pour objet quelque amendement à un acte antérieur,—un avis, énonçant d'une manière claire et intelligible la nature et l'objet de la demande (sauf s'il s'agit de corporations déjà existantes) par les pétitionnaires ou de leur part est nécessaire et doit être publié comme il suit :—

Dans les provinces de Québec et du Manitoba.

Dans la *Gazette du Canada* en anglais et en français, ainsi que dans un journal anglais et un journal français, du district intéressé, ou en anglais et en français dans le même journal, s'il ne s'en publie qu'un seul dans ce district ; ou s'il n'y paraît pas de journal, alors la publication de l'avis en anglais et en français doit se faire dans un journal du district le plus voisin où il s'en publie.

Dans les autres provinces ou territoires.

Dans la *Gazette du Canada*, et dans un journal du comté, du district ou des comtés-unis intéressés, ou s'il n'y paraît pas de journal alors la publication doit se faire dans un journal du comté ou district le plus voisin où il s'en publie. La publication de ces avis durera, dans chaque cas, la période de deux mois au moins pendant l'intervalle de temps qui s'écoulera entre la clôture de la session précédente et la prise en considération de la pétition. Des exemplaires marqués de tous les numéros des journaux reproduisant la première et la dernière insertion de l'avis, devront être transmis au greffier de chaque Chambre, et porter à l'endos " Demande de bill privé."

Si la pétition demande l'autorisation de présenter un bill privé ayant pour objet la construction d'un pont de péage, les pétitionnaires devront aussi, en même temps et de la même manière, donner avis du taux de péages projeté, de l'étendue du privilège, de la hauteur des arches, de l'espace à laisser libre entre les culées ou les piles pour le passage des radeaux et des navires ; et, si c'est un pont mobile, quelles en seront les dimensions.

Toute personne désirant obtenir un bill privé devra, dans les huit jours au moins qui précéderont l'ouverture du parlement, déposer au bureau du greffier de la Chambre dans laquelle le bill doit prendre naissance, une copie de ce bill en langue anglaise ou en langue française, avec une somme suffisante pour en payer la traduction et l'impression. Après la seconde lecture et avant la prise en considération du bill par tout comité, le pétitionnaire aura aussi à payer au greffier du Sénat, ou au comptable de la Chambre des Communes (selon le cas) un honoraire de $200, plus une somme suffisante pour défrayer le coût de l'impression de l'acte dans les Statuts, et remettra le reçu de ce paiement au greffier du comité auquel ce bill aura été renvoyé.

L'honoraire de $200 payable sur tout bill privé, ne sera payé que dans la Chambre où ce bill a pris naissance ; mais les frais de réimpression et de traduction nécessités par ce bill seront payés dans la Chambre où ces frais sont encourus.

Aucune pétition pour l'obtention d'un bill privé ne sera reçue par le Sénat ou par la Chambre des Communes, après les premières trois semaines de la session.

Aucun bill privé ne pourra être présenté au Sénat ou à la Chambre des Communes après les premières quatre semaines de la session.

EDOUARD J. LANGEVIN,
Greffier du Sénat.

JOHN GEORGE BOURINOT,
Greffier des Communes.

Règle spéciale du Sénat.

49. (*c*.) Chaque fois qu'un bill doit opérer dans plus d'une province, territoire ou district, l'avis sera publié dans la *Gazette du Canada* et dans un journal bien établi publié dans chaque province, territoire ou district où le bill doit opérer.

Ordre permanent.

Lorsqu'un bill confirmant un bail, une convention ou toute autre espèce de contrat, sera reçu ou présenté au Sénat, ce bail, cette convention ou cette autre espèce de contrat sera exposé dans un appendice ou autrement.

EDOUARD J. LANGEVIN,
Greffier du Sénat.

Règles additionnelles de la Chambre des Communes concernant les bills privés.

Tous les bills privés demandant des actes constitutifs devront être rédigés de manière à y incorporer, en les spécifiant, les *clauses* des Actes généraux concernant les détails qui font l'objet de ces bills ; des raisons spéciales seront données chaque fois que l'on aura l'intention de se départir de ce principe, ou que l'on voudra y introduire d'autres dispositions touchant ces détails ; et une note sera annexée au bill indiquant les dispositions au sujet desquelles l'on entend s'écarter de l'Acte général ; les bills qui ne seront pas rédigés conformément à cette Règle, devront être remodelés par les auteurs et réimprimés à leurs frais, avant qu'aucun comité en examine les clauses.

51*a*. Tous les bills privés pour chartes ou pour modification de chartes de compagnies de chemins de fer seront rédigés conformément au bill-modèle dont copie peut être obtenue du greffier de la Chambre ;

(*a*.) Les dispositions contenues dans un bill quelconque qui ne seront pas conformes au bill-modèle, seront insérées entre crochets, et après avoir été revisées par l'officier compétent, elles seront imprimées ainsi ; et les bills qui ne seront pas rédigés en conformité de cette règle seront renvoyés aux auteurs pour être remodelés avant leur revision et impression ;

(*b*.) Toutes clauses d'actes existants que l'on proposera de modifier, seront imprimées en entier, avec les amendements insérés en leur lieu et place, et entre crochets;

(*c*.) Toutes dispositions exceptionnelles que l'on proposera d'insérer dans un bill quelconque, seront imprimées dans l'avis publié.

51*b*. Nul bill pour la constitution légale d'une compagnie de chemin de fer ou pour changer le tracé du chemin de fer d'une compagnie déjà constituée ne sera pris en considération par le comité des chemins de fer à moins qu'il n'ait été donné au comité, au moins une semaine avant la prise en considération du bill—

(*a*.) Une carte ou plan à l'échelle de pas moins d'un demi-pouce au mille, indiquant le territoire sur lequel l'on se propose de construire les travaux projetés, ainsi que les lignes de travaux analogues existants ou autorisés, dans les limites du district, ou partie du district que la ligne projetée doit desservir, ou affectant le dit district en aucune manière ; cette carte ou plan devra être signé par l'ingénieur ou toute autre personne qui l'aura fait ;

(*b*.) Un exhibit faisant connaître le montant total du capital que l'on se propose de prélever pour les fins de l'entreprise, et la manière dont on se propose de le prélever, soit au moyen d'actions ordinaires, obligations, débentures ou autres garanties, et le montant respectif de chacune.

JOHN GEORGE BOURINOT,
Greffier des Communes.

ORDRE SPÉCIAL DE LA CHAMBRE DES COMMUNES.

Résolu,—Que le greffier de la Chambre adresse une copie de la Règle 49 modifiée aux personnes qui signifient dans la *Gazette du Canada* leur intention de s'adresser au parlement pour la passation d'un bill privé, ainsi qu'un avis portant que la dite Règle sera strictement appliquée à l'avenir :—

49. Les pétitions pour bills privés ne seront reçues par la Chambre que pendant les trois premières semaines de la session, et les bills privés ne pourront être présentés à la Chambre que pendant les quatre premières semaines de la session ; et tout comité auquel aura été renvoyé un bill privé devra le prendre en considération et en faire rapport à la Chambre avec toute la diligence convenable.

2. Qu'il soit enjoint à tous les comités sur bills privés, dans le cas où les promoteurs ne seraient point prêts à procéder avec leurs mesures quand celles-ci auront été appelées deux fois en deux occasions différentes devant le comité pour y être considérées, de rapporter ces mesures à la Chambre sans délai, faisant connaître les faits, et avec la recommandation que ces bills soient retirés."

JOHN GEORGE BOURINOT,

ORDERS IN COUNCIL.

[1266]

AT THE GOVERNMENT HOUSE AT OTTAWA.

Monday, the 27th day of June, 1898.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

ON a Report, dated 20th May, 1898, from the Minister of the Interior, submitting, that by Orders in Council, dated respectively 3rd March, 1873, and 25th April, 1876, tracts of land in the Province of Manitoba were set apart for settlement by Mennonites exclusively, that is to say, some eight townships in Ranges 4, 5 and 6 on the east side of the Red River, and what is known as the Dufferin Mennonite Reserve on the west side of the said river, the latter being composed of Townships 2 and 3, in Ranges 1 to 5 inclusive, Townships 1, in Ranges 1 to 6 inclusive, west of the Principal Meridian, and Township 1, Range 1 east of the same Meridian.

The Minister states that fully one-half of the lands within the western Mennonite Reserve have passed out of the possession of the Mennonites to persons of other nationalities by sale and otherwise, and the few sections remaining vacant are inferior in quality and better adapted for stock purposes than for farming, with the exception of Township 6, Range 1 west, which is chiefly valuable for timber. The lands in the eastern Mennonite Reserve that have been disposed of are held almost exclusively by Mennonites, but comparatively very little of the lands in Townships 4 and 5, Range 6 east, have so far been taken up at all.

The Minister is of opinion that the purpose for which these Reserves were originally made has now been fully served, and as the Mennonites do not appear to be desirous of acquiring the lands remaining vacant, for which applications have been made by settlers belonging to other nationalities, the same should be thrown open for general settlement, and he therefore recommends that on and after the 1st day of August next, (1898) all the lands remaining vacant at that date in the western Mennonite Reserve, and in Townships 4 and 5 in Range 6 east, in the eastern Mennonite Reserve, be thrown open for general settlement, except such portions thereof as it may be deemed advisable in the public interest to reserve for timber purposes.

The Minister further recommends that all lands remaining vacant in the eastern Mennonite Reserve, outside of Townships 4 and 5 in Range 6 east above referred to, including both odd and even-numbered sections, be and remain open for homestead entry by Mennonites exclusively up to the 30th November, 1898, and that after that date all lands not then taken up be thrown open for general settlement.

The Committee submit the above recommendation for Your Excellency's approval.

H. G. LAMOTHE,
4–4 Assist. Clerk of the Privy Council.

[1698]

AT THE GOVERNMENT HOUSE AT OTTAWA.

Monday, the 27th day of June, 1898.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

ON a Report dated 20th June, 1898, from the Minister of Agriculture, stating that in his opinion, in the public interest and in accordance with the provisions of section 52, chapter 61, Revised Statutes of Canada, intituled " An Act respecting Patents of Invention, " it would be advisable to have rescinded the Rules and Forms of the Canadian Patent Office as authorized by Order in Council, under date 12th May, 1888, together with the several amendments thereto, and in lieu thereof to substitute the annexed Rules and Regulations.

The Minister recommends that authority be given to have these Rules and Regulations published twice in the *Canada Gazette*, and that he be authorized to cause the same to be printed for the general use of the Department of Agriculture.

The Committee submit the same for Your Excellency's approval.

JOHN J. McGEE,
Clerk of the Privy Council.

PATENTS OF INVENTION.

RULES AND FORMS OF THE CANADIAN PATENT OFFICE.

By Order in Council, dated 27th June, 1898.

1. A personal appearance of the applicant, or his representative, at the Patent Office is not required, unless specially called for by the Commissioner or Deputy Commissioner.

2. In all cases the applicant or depositor of any paper is responsible for the merits of his allegations, and the validity of the instruments furnished by him or his agent.

3. Correspondence may be carried on either with the applicant, or his agent, but only with one person, and will be conveyed through the Canadian mails free of charge.

4. All documents must be legibly and neatly written or printed on foolscap paper, 13 inches long and 8 wide, with an inner margin of one inch and a half wide.

5. All communications are to be addressed—" *The Commissioner of Patents, Ottawa, Canada.*" Papers forwarded to the Office should be accompanied by a letter, and a separate letter should be written on every subject.

6. As regards proceedings not specially provided for in the accompanying forms, any other form being conformable to the letter and spirit of the law may be accepted, and if not conformable therewith will be returned for correction.

7. Models need only be furnished when required by the Commissioner, and must be neat and substantial working ones, not exceeding 12 inches on the longest side, unless otherwise allowed by special permission ; models must be so constructed as to show exactly every part of the invention claimed and its mode of working. In cases were samples of ingredients are required by law, they must be contained in glass bottles properly arranged ; but dangerous or explosive substances must not be sent. Both models and bottles must bear the name of the inventor, the title of the invention and date of the application ; they must be furnished to the Patent Office free of charge and in good order.

8. All fees should be transmitted with the application for any action by the office. Remittances must be in current bankable funds, bank drafts, money orders, or certified cheques. Money sent by mail should be in registered letters and is at the risk of the sender. Drafts, money orders and cheques should be made payable to the Commissioner of Patents, Ottawa.

9. An application for a Patent must be proceeded with and made perfect for examination within two years after the lodging of the petition, or upon failure of the applicant to prosecute the same within two years after any action therein, in default of which it will be regarded as abandoned, as well as all proceedings had in relation thereto, and any fees paid will be held at the expiration of that period to be forfeited, unless the Commissioner is satisfied that the cause of the delay was not the fault of the applicant.

10. Two or more separate inventions cannot be claimed in one application, nor included in one Patent. But if separate matters are represented to be so dependent on, and connected with each other as to be necessarily taken together, to obtain the end sought for by the inventor, the Commissioner of Patents shall be the judge whether or not the pretentions of the applicant in such respect can be entertained.

11. The filing of a protest against the issuing of a Patent shall not be taken in itself as sufficient reason to withhold the granting of such Patent to an applicant.

12. A *Caveat* can only be filed by an inventor, and shall be composed of a specification (*and drawings*), certified on oath [Form No. 23] and the applicant may, while it is pending, lodge additional papers, provided they relate exclusively to the same invention. The person filing a *Caveat* will not be entitled to notice of any application pending at the time of filing his *Caveat.* A *Caveat* must be limited to a single invention.

The specification of a *Caveat* should be sufficiently precise to enable the Office to judge whether there is a probable interference when a subsequent application is filed.

13. Drawings in duplicate, to be attached to the duplicate specification, must be made in India or carbon ink, on sheets of tracing cloth other than Linaura or similar fabric, eight by thirteen inches, neatly executed and without colours.

DRAWINGS.

(To be in duplicate.)

Each sheet on tracing linen shall contain the following : The title of the invention on the top of the sheet ; the following certificate at the bottom : " Certified to be the drawings referred to in the specification hereunto annexed," and signed by the inventor or his attorney; place, date, and signature of two witnesses.

All drawings must be clear, sharp, well-defined, not too fine *and perfectly black.*

Lines that are pale, ashy, very fine, ragged or broken, give bad results when photo-lithographed.

Brush-shading, tinting and imitation surface graining should never be used; and in fine-shading the result should be attained with as few lines as possible

Section lines also should be as open in their spacing as the case will admit of, and these, as well as all right lines, in order to insure clearness, should be made with a ruling pen. The shading of convex and concave surfaces may be dispensed with when the invention is otherwise well illustrated.

Shade lines may sometimes be used with good effect, but heavy shadows where they would obscure lines or letters of reference, should be avoided.

With each application an extra full set of drawings must be supplied on double Bristol Board, 8 by 13 inches, without writing on its face, merely the usual lettering; no title, certificate, nor signatures; on the back of the sheet the name of the inventor and the title of the invention must be written in pencil.

The card board drawing should be rolled on a roller for transmission to the office, as folding will prevent its usefulness for photo-lithographing.

14. In the matter of a re-issue, under section 23 of the Act, whatever is really embraced in the original application and so described or shown in the same, that it might have been embraced in the original Patent, may be ground for a re-issue. No new matter can be introduced into the specifications, nor shall the models or drawings be amended except each by the other. In the absence of model or drawing, the re-issue may contain amendments, upon satisfactory proof to the Commissioner that such amendments were part of the invention, although omitted in the original application. Separate patents may be issued for each separate and distinct part of the invention, comprehended in the original patent.

15. Information in relation to pending cases will be furnished only so far as it becomes necessary in conducting the business of the Office.

16. The Office can not respond to inquiries as to the probability of an alleged invention being patented in advance of an application for a Patent; nor to inquiries founded on brief or imperfect descriptions, propounded with a view of ascertaining whether alleged improvements have been patented, nor unless the name of the patentee, and, as nearly as possible, the date of the Patent be given; nor can it act as an expounder of the Patent Law, nor as counsellor for individuals, except as to questions within the Office.

In order to avoid unnecessary explanations and useless loss of time and labour, it is particularly recommended that reference be made to the law before writing on any subject to the Patent Office.

A copy of the Rules with a particular section marked, sent to any person making an inquiry, will be deemed a respectful answer by the Office.

17. It is desirable, both in the interests of the applicant and of the public service, that the papers and drawings should be prepared by competent persons. Therefore, the applicant is advised, unless himself competent to draw up papers, in connection with the application, to employ a skilled attorney, as the value of patents is largely based upon the ability with which the specification and claims have been prepared. The Office will always decline to advise the selection of an attorney.

18. All business with this Office should be transacted in writing. The action of the Office will be based exclusively on the written record. No attention will be paid to any alleged verbal promise or understanding in relation to which there is any disagreement or doubt.

19. Assignments of Patents are to be accompanied by a copy thereof; the original will be kept in the Patent Office, and the copy will be returned to the person sending it, with certificate of registration thereon.

20. All cases connected with the intricate and multifarious proceedings arising from the working of the Patent Office, which are not specially defined and provided for in these Rules, will be decided in accordance with the merits of each case under the authority of the Commissioner; and such decision will be communicated to the interested parties in writing.

21. Applications for patents sent to this Office, unaccompanied by the fee provided by law; will receive no official recognition, nor be filed nor numbered; they will merely be pigeon-holed, and only marked filed the day on which the fee shall have been received.

22. The applicant has a right to amend before or after the first rejection or action; and he may amend as often as the examiner presents new references or reasons for rejection. In so amending, the applicant must clearly point out all the patentable novelty which he thinks the case presents in view of the state of the art disclosed by the references cited or the objections made. He must also show how the amendments avoid such references or objections.

23. The specification and drawing must be amended and revised when required, to correct inaccuracies of description or unnecessary prolixity and to secure correspondence between the claim, the specification and the drawing. But no change in the drawing may be made except by written permission of the office.

24. In every amendment the exact word or words to be stricken out or inserted in the application must be specified and the precise point indicated where the erasure or insertion is to be made. All such amendments must be on sheets of paper separate from the papers previously filed, and written on but one side of the paper. Erasures, additions, insertions or mutilations of the papers and records must not be made by the applicant.

25. Amendments require the signature of the applicant or his attorney.

26. When an amendatory clause is amended, it must be wholly rewritten, so that no interlineation or erasure shall appear in the clause, as finally amended, when the application is passed to issue. If the number or nature of the amendments shall render it otherwise difficult to consider the case or to arrange the papers for printing or copying, the Examiner or Commissioner may require the entire specification to be rewritten.

FORM 13.

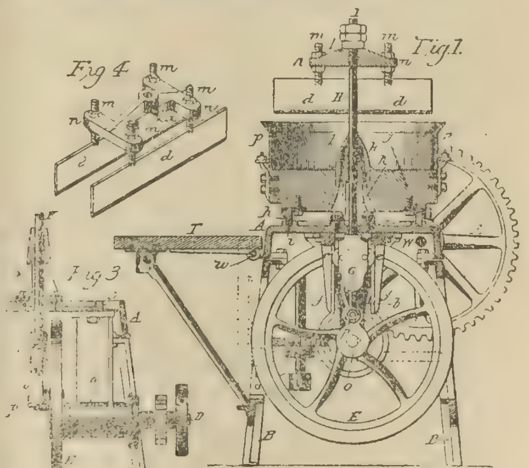
FOR A MACHINE.

To all whom it may concern :

Be it known that I, William Woodworth, of the Town of Poughkeepsie, in the County of Duchess, in the State of New York, gentleman, having invented certain new and useful improvements in Meat Chopping Machines (for which I have obtained a patent in [here name the country] No. bearing date 189) ;* do hereby declare that the following is a full, clear, and exact description of the same.

My invention relates to improvements in meat-chopping machines in which vertically-reciprocating knives operate in conjunction with a rotating chopping-block ; and the objects of my improvement are, first, to provide a continuously-lubricated bearing for the block ; second, to afford facilities for the proper adjustment of the knives independently of each other in respect to the face of the block ; and, third, to reduce the friction of the reciprocating rod which carries the knives.

I attain these objects by the mechanism illustrated in the accompanying drawing, in which—



Certified to be the Drawings referred to in the specification hereunto annexed.
(Place and date.)
(Signature of Inventor or his Attorney.)
(Signature of two witnesses.)

---

* NOTE.—If no foreign patent has been obtained, the words in parentheses should be omitted.

Figure 1 is a vertical section of the entire machine; Fig. 2, a top view of the machine as it appears after the removal of the chopping-block and knives; Fig. 3, a vertical section of a part of the machine on the line 1, 2, Fig. 2; and Fig. 4, a detailed view in perspective of the reciprocating crosshead and its knives.

Similar letters refer to similar parts throughout the several views.

The table or plate A, its legs or standards BB, and the hanger *a*, secured to the under side of the table, constitute the frame-work of the machine. In the hanger *a* turns the shaft D, carrying a fly-wheel E, a crank-pin, on the hub of which is connected by a link *b* to a pin passing through a cross-head G, and to the latter is secured a rod H, having at its upper end a cross-head I, carrying the adjustable chopping-knives *d d*, referred to hereinafter.

The cross-head G, reciprocated by the shaft D, is provided with antifriction rollers, *e e*, adapted to guides *f f*, secured to the under side of the table A, so that the reciprocation of this cross-head may be accompanied with as little friction as possible.

To the under side of a wooden chopping-block J is secured an annular rib *h* adapted to and bearing in an annular groove *i* in the table A. (See Figs. 1 and 2.) This annular groove or channel is not of the same depth throughout, but communicates at one or more points (two in the present instance) with the pockets or receptacles *j j*, deeper than the groove, and containing supplies of oil in contact with which the rib *h* rotates, so that the continuous lubrication of the groove and rib is assured. The rod H passes through and is guided by a central stand K, secured to the table A, and projecting through a central opening in the chopping-block without being in contact therewith, the upper portion of the said stand being contained within a cover *k*, which is secured to the block, and which prevents particles of meat from escaping through the central opening of the same.

The cross-head I, previously referred to, and shown in perspective in Fig. 4, is vertically adjustable on the rod H, and can be retained after adjustment by a set-screw *x*, the upper end of the rod being threaded for the reception of nuts, which resist the shocks imparted to the cross-head when the knives are brought into violent contact with the meat on the chopping-block.

The knives *d d* are adjustable independently of each other and of the said cross-head, so that the coincidence of the cutting-edge of each knife with the face of the chopping-block may always be assured.

I prefer to carry out this feature of my invention in the manner shown in Fig. 4, where it will be seen that two screw-rods *m m* rise vertically from the back of each knife and pass through lugs *n n* on the cross-head, each rod being furnished with two nuts, one above and the other below the lug through which it passes. The most accurate adjustment of the knives can be effected by the manipulation of these nuts.

A circular casing *p* is secured to the chopping-block, so as to form on the same a trough P for keeping the meat within proper bounds; and on the edge of the annular rib *h*, secured to the bottom of the block, are teeth for receiving those of a pinion *q*, which may be driven by the shaft D through the medium of any suitable system of gearing, that shown in the drawing forming no part of my present invention.

This shaft D may be driven by a belt passing round the pulleys *s*, or it may be driven by hand from a shaft W, furnished at one end with a handle *t*, and at the other with a cog-wheel R, gearing into a pinion on the said shaft D.

A platform T may be hinged, as at *w*, to one edge of the table A, to support a vessel in which the chopped meat can be deposited. The means by which it may be supported, and the most convenient method of disposing of it when not in use, are shown in Fig. 1.

I am aware that prior to my invention meat-chopping machines have been made with vertically-reciprocating knives operating in conjunction with rotating chopping-blocks. I therefore do not claim such a combination broadly; but

What I do claim as my invention, and desire to secure by letters patent, is:—

1. The combination, in a meat-chopping machine, of a rotary chopping-block having an annular rib, with a table having an annular recess and a pocket communicating with the said recess, all substantially as set forth.

2. In a meat-chopping machine, the combination of a rotary chopping-block with a reciprocating cross-head carrying knives, each of which is vertically adjustable on the said cross-head independently of the other, substantially as described.

3. The knife *d*, having two screw rods, *m m*, attached to its back, substantially as shown, for the purpose specified.

4. The combination, in a meat-chopping machine, of the reciprocating rod, carrying the knives, the cross-head secured to the said rod, and having anti-friction rollers, with guides, adapted to the said rollers, all substantially as set forth.

FOR AN ART OR PROCESS.

To all whom it may concern:

Be it known that we, Marion Ellsworth, of Chicago, County of Cook, and State of Illinois, gentleman, and Joseph Richard Shaw, of Indianapolis, County of Marion, and State of Indiana, gentleman, have jointly invented certain new and useful Process of Treating Sludge Oil, in order to obtain from it a resinous substance, (for which I have obtained a patent in [here name the country], No. , bearing date 189), of which the following is a specification:

In the purification of hydrocarbon oils produced by the distillation of crude petroleum, asphalts, or bitumens, or by the destructive distillation of coal, resins, or bituminous shales, the oils are agitated with 2 per cent or more of concentrated sulphuric acid (60° Baumé, 1·86 specific gravity) in order to remove certain oils contained in the distillate which would, in course of time, absorb oxygen from the air, and cause the oil to become dark-coloured and gummy, and also to remove tarry substances and the disagreeable odour. Sulphuric acid combines chemically with these bodies and dissolves them, forming a dark-red, heavy liquid, which settles on the bottom of the agitator, and can then be readily drawn off from the purified oil. This peculiar compound of sulphuric acid and hydrocarbon oils, dissolved in the excess of acid, is known as "sludge." At present it is purchased by superphosphate manufacturers, who mix it with a little water, which decomposes the compound of acid and oil, producing a weaker acid (about 50° Beaumé) used in the manufacture of superphosphate of lime, and a dark coloured offensive oil, which rises to the surface of the acid, and usually is thrown away, no commercial use having been found for it. This waste product is called "sludge oil."

The mode of practising my invention is as follows: In my process, when the sludge has been decomposed by the addition of water, the sludge oil is drawn off, and is then purified by repeated washings with water, until the acid remaining in it is removed. For this purpose equal volumes of water and sludge oil may be used; but the washing can be effected by a less quantity of water. The acid remaining in the oil, if any, is then neutralized with quicklime or caustic soda. The purified oil has a strong and somewhat disagreeable odour, and contains about 10 per cent of volatile oils, which are converted into a hard resin with difficulty. To remove these volatile substances, the sludge oil thus purified is introduced into a still with the addition of from 2 to 4 per cent of caustic soda and about 2 per cent of the oxides of lead or manganese, to oxidize any sulphurous body which may be in the oil and combine with it, and steam is then blown through the oil, the oil being kept hot either by a fire under the still or by the use of steam heated to the required temperature (between 212° and 450° Fahrenheit). The action of the steam is continued until no more volatile oils are removed (usually from five to ten hours). The steam is then shut off, and the contents of the still allowed to settle, when a sediment of tarry impurities and soda subsides, from which the pure oil may be drawn off. The oil is then introduced into a still or tank, and oxidized by blowing currents of air through it, the oil being kept at a moderate temperature (from 200° to 300° Fahrenheit), either by a slow fire under the still, or by a steam coil in the bottom of the tank, or by heating the air by a hot-blast oven to the proper temperature before it is blown through the oil, and the action of the air is continued until complete oxidation is effected, and a sample on cooling solidifies to a more or less hard resin.

The time required to effect the oxidation varies with the working temperature and with the extent of surface of oil brought in contact with the air. I may define it as between four and twelve days. The action of the air upon the oil is stopped when samples on cooling, taken from the contents of the still, are found to be of the proper degree of hardness and toughness for the particular purpose to which the product is to be applied, and after letting the contents of the still settle the hot resin is drawn off from the sediment of soda and impurities.

The action of the air may be accelerated by adding other oxidizing agents—for example, about 2 per cent of the oxides of lead or manganese, or about 2 per cent of the manganates of soda and potassa to the oil. These substances act either by giving up oxygen to the oil or by their presence inducing a combination of the oxygen and the hydrocarbon.

An inferior quality of resin may be produced by treating the washed sludge oil in a still with caustic soda and litharge (5 per cent soda to 1 to 2 per cent litharge) and blowing a current of air through it at about the temperature of 350° Fahrenheit, which at the same time oxidizes the oil and removes the more volatile portions, which are distilled off until it is converted into a resin, which, on cooling, becomes hard and brittle. This process last mentioned requires from two to six days, but the resin produced is darker in colour than that made by first treating with steam and then with air at a lower temperature, as the colouring matter is not affected by steam at 400°, while air at that temperature rapidly darkens it by oxidation. Sunlight bleaches the colour of sludge oil, and, at the same time, greatly accelerates the absorption of oxygen from the air. To produce the lightest-coloured resins the sludge oil is steamed with 5 per cent of a solution of soda, 20° Baumé, at a low temperature (about 200° to 250° Fahrenheit for ten hours), to remove the more volatile portions, and then oxidized and bleached by exposing the oil, in shallow tanks covered by glass, to the action of the sunlight, the oil being kept hot and fluid by a steam coil in the bottom of the tank, and currents of air blown through it to produce the oxidation.

Inferior qualities of sludge oil, as those produced in the purification of lubricating oils, and which contain a large quantity of tarry substances, are treated as follows: The oil is charged in to a still, and caustic soda and black oxide of manganese (in the proportion of about 5 per cent of soda and 2 per cent of manganese) are added, and the charge distilled by a current of steam blown through the oil, assisted by a fire under the still, until only tar and coke remain behind. The distillation commences at about 350° Fahrenheit, and, the fire being increased, the temperature in the still gradually rises to about 800°, when only the thick pitch remains in the still.

By the use of steam under pressure the oil can be distilled with scarcely any decomposition, and the distillate, which is of a yellow light-red colour, can be converted into a superior resin by oxidizing it with a current of hot air. The resin produced by this oxidation of sludge oil is distinguished from all other known resins and resinous substances by its behaviour with different chemicals and solvents. It varies in colour from yellow to dark garnet red, according to the method of its production. It is hard, brittle, and odourless at ordinary temperatures, tasteless, insoluble, and not acted upon by water, soda, potassa, and ammonia, even when heated.

Alcohol of 95 per cent dissolves but small quantities of this resin, even when boiled with it. Petroleum-naphtha dissolves it very quickly without the aid of heat, producing a varnish. Spirits of turpentine readily dissolves the melted resin, forming a varnish. Benzole, chloroform, and bisulphide of carbon all dissolve the resin, the solution being aided by warming. Ether and a mixture of ether and alcohol, in equal parts, quite readily dissolve it, but not so readily as pure ether. Linseed oil and olive oil dissolve the melted resin. A solution of the resin in linseed oil and spirits of turpentine forms an "oil varnish." Concentrated sulphuric acid dissolves it completely; the resin separates again on adding water. Nitric acid attacks it violently and converts it into a brown tarry or gummy substance, having a pleasant, peculiar odour. Hydrochloric acid seems to have little or no action on it.

It is well known that it has been proposed to use sludge oil as a paint oil, but this has not been attended with practical success. I do not wish to be understood, however, as making claim, broadly, to a process for freeing sludge oil from the acid by the use of water and caustic alkalies, or by still further purifying it by subjecting it to distillation, or by blowing steam through it, for the purpose of removing impurities, all of which, it is well known, have been practised since the discovery of the present processes of refining petroleum. Nor do I wish to be understood as laying claim in this application to the resinous substance produced by my process, as that forms the subject-matter of another application by me for letters patent.

I claim—

1. The process herein described for producing from sludge oil a resinous substance possessing the properties described, which consists in combining the oxygen of the air with the sludge oil with the aid of a moderate degree of heat.

2. The process of producing from sludge oil a substance of a resinous character, which consists in treating the sludge oil while heated to a moderate temperature, with the air and with other oxiding agents, substantially as described.

3. The process of treating sludge oil in order to obtain from it a resinous substance, which consists in purifying such oil, distilling from it the volatile substances present therein, heating the residue of a temperature of from 200° to 300° Fahrenheit, and blowing air into it while it is so heated, substantially as described.

(One executed Specification and copy thereof.)

FOR A COMPOSITION OF MATTERS.

To all whom it may concern:

Be it known that I, Ebenezer Whitney, of the City of Charleston, in the District of Charleston and State of South Carolina, gentleman, am the administrator of the estate of Benjamin Browning, in his lifetime of the said city, gentleman, and that the said Benjamin Browning did invent a certain new and useful Composition of matter to be used for the removal of Hair and Grease from Hides preparatory to tanning (for which I have obtained a patent in [here name the country], (No. , dated , 189) of which the following is a specification:

The composition of the said Benjamin Browning consists of the following ingredients, combined in the proportions stated, viz.:

Water substantially pure	500 gallons
Unslacked lime	350 pounds
Soda-ash (sodium carbonate)	100 pounds
Saltpetre (nitrate of an alkali metal)...	20 pounds
Sulphur (preferable flowers of sulphur)	10 pounds

These ingredients are to be thoroughly mingled by agitation.

In using the above named composition the hides should first be freed from all salt and impurities, by soaking green hides one day and dry hides eight days. The hides so cleaned are then placed in the said solution, and allowed to remain in it forty-eight hours. They should then be removed from the solution and unhaired in the usual way.

By the use of the above composition the hair is speedily and thoroughly loosened, and the hides, while retaining all that portion of the substance which can be converted into leather, are at the same time entirely cleaned from grease and other substances which would prevent them from being tanned quickly.

I am aware that a composition consisting of soda-ash-water, lime and sulphur has been used for the same purpose, and that a patent therefor was granted to C. D., July 10, 18 , No. . I am also aware that saltpeter has been used in depilatory processes; but I am not aware that all of the ingredients of my composition have been used together.

What I claim, and desire to secure by letters patent of the Dominion of Canada, is—

1. The herein-described composition of matter, consisting of water, unslacked lime, soda-ash, saltpetre, and sulphur, substantially as described and for the purpose specified.

2. The herein-described composition of matter for depilating and preparing hides for tanning, consisting of pure water five hundred gallons, unslacked lime three hundred and fifty pounds, soda-ash one hundred pounds, saltpeter twenty pounds, and flowers of sulphur ten pounds, substantially as described.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, by and with the advice of the Queen's Privy Council for Canada, is pleased to order and direct that the annexed Regulations governing the granting of yearly licenses and permits to cut timber on Dominion Lands in Manitoba and the North-west Territories (excepting the Provisional District of Yukon), and within twenty miles of either side of the Canadian Pacific Railway, in the Province of British Columbia, shall be and the same are hereby substituted in lieu of the Regulations issued under authority of an Order of the Governor in Council, dated 17th September, 1889, for similar purposes, as amended by subsequent Orders of the Governor in Council.

JOHN J. McGEE,
Clerk of the Privy Council.

TIMBER LICENSES.

Section 1.

(*a*) Licenses to cut timber shall be disposed of by public competition.

(*b*) Parties tendering will be required to state the sum or bonus per square mile which they will pay in addition to ground rent and royalty ; and each tender must be forwarded in a sealed envelope and be accompanied by the cash, or an accepted cheque of a chartered bank, payable to the order of the Deputy Minister or the Minister of the Interior for the amount of such bonus. No tender by telegraph will be accepted. The limit will be awarded to the party offering the highest bonus therefor.

(*c*) The length of any berth covered by a license shall in no case exceed three times the breadth thereof.

Section 2.

(*a*) The licensee shall pay an annual ground rent of five dollars per square mile, except for lands situated west of Eagle Pass, in the Province of British Columbia, in which case the yearly ground rent shall be five cents an acre.

(*b*) Within a month after the date of awarding a timber berth, the party in whose favour it is awarded shall pay rent for the year in advance, and if not then paid the said rent shall bear interest at the rate of six per cent per annum from that date until the same is paid.

(*c*) The licensee shall furnish the Crown Timber Agent, having jurisdiction in the matter, sworn returns monthly, or at such times as the Minister of the Interior may direct, accounting for the full quantity of sawn lumber and other products of timber manufactured and sold and otherwise disposed of, and pay the following Crown dues, that is to say :—

Sawn lumber, 50 cents per thousand feet, B.M.
Railway ties, 8 feet long...... 1½ cents each.
do 9 do ...... 1¾ do
Shingle bolts.................. 25 cents per cord.

And 5 per cent on the sales of all other products of the berth.

A rebate of forty cents per thousand feet, B.M., will be allowed on lumber exported from British Columbia to places outside of the Dominion of Canada, provided the licensee can produce evidence to the Crown Timber Agent as to the quantity exported.

(*d*) Should the licensee manufacture other timber at his mill, than that cut under his license or on Dominion Lands so as to make it difficult or impossible to keep a separate account of the sales thereof, he shall pay dues at the rates provided in the preceding sub-clause "*c*" on the amount of the lumber in the log, on returns required, under sub-clause "*e*."

(*e*) All licensees shall furnish to the Crown Timber Agent, having jurisdiction in the matter, monthly or at such time as the Minister of the Interior may direct through himself, his scaler and foreman, a statement in writing in detail, under oath, setting forth the number of pieces of timber, saw-logs and other material cut, caused to be cut or taken under his or their licenses during the month immediately preceding said statement, or for such other period as may be required, and the correct contents in board measure of the same, as shown by Scribner's log rule, if the timber has been cut in Manitoba, the North-west Territories or the district of Keewatin, and by the British Columbia log scale when cut within the Railway Belt of British Columbia.

(*f*) On the arrival of any raft or parcel of timber or saw-logs (cut or taken from Dominion lands) at the place where the same is to be manufactured or sold, and before the same becomes mixed with the timber or saw-logs, the owners or persons in charge thereof, shall report the same to the Crown Timber Agent having jurisdiction in the matter, making, if required, declaration upon oath as to where the said timber was cut, the number of pieces and the description of each kind of wood contained in such raft or parcel of timber and contents thereof in board measure, and should the Crown Timber Agent not be satisfied with the correctness of such report he shall cause a strict count and scale to be made of the timber on such raft ; and on being satisfied of the correctness of such report, or count, the Crown Timber Agent may grant a clearance in due form for such raft, when the same may be at the disposal of the owner or person in charge of the same. Should the number of pieces given in the report of the owner or person in charge be found by the specification of measurement to contain a greater number of pieces or contain a greater number of feet in board measure than is given by the owner or agent's report, the surplus number of pieces or overplus, if not satisfactorily explained, shall be held as having been cut on Dominion lands without authority and subject to payment of dues accordingly. This clause only to have force in the case of a licensee making payment of dues on the quantity of lumber contained in the timber or saw-log by log scale.

(*g*) The licensee shall also pay the Crown dues prescribed by the regulations on any lumber or other timber products on which the dues have not previously been paid which may be damaged or consumed by fire or otherwise destroyed.

Licensees will not be required to pay royalty dues on the sales of slabs, for fuel purposes, or on saw-dust.

(*h*) Saw-logs and other timber for manufacture, taken from the berth, must be manufactured at the saw-mill of the licensee to be operated in connection with the berth, as prescribed by sub-clause "*j*."

All timber before being put into any stream or lake to be floated to the mill, must be marked with a stamp

furnished by the licensee and approved by the Crown Timber Agent, a copy of said stamp to be placed on record in the Crown Timber Office.

(*i*) It is required that all licensees, through themselves, their scalers and foremen, shall furnish proof on oath on the said first day of May of each year, or at such other time as the Minister may direct, as to the exact locality, by a ground sketch, where all timber, saw-logs or other lumber cut by themselves and others, to their knowledge, upon the timber berth held or occupied by him or them, respectively, have been cut.

(*j*) The licensee shall have in operation within a year from the date when he is notified by the proper officer of the Department of the Interior that the Minister of the Interior regards such a step necessary or expedient in the public interest, and keep in operation for at least six months of each year of his holding a saw-mill, in connection with his berth, capable of cutting in twenty-four hours a thousand feet, board measure, for every two and a half square miles of the area licensed, or shall establish such other manufactory of wood goods as the Minister accepts as equivalent thereto.

(*k*) Any right to a timber berth cannot be assigned or transferred without the consent of the Minister of the Interior.

(*l*) All timber licenses shall expire on the 30th of April next after the date thereof.

Section 3.

When a licensee has complied with all the conditions herein set forth in his license and the regulations, and where no portion of the timber berth is required for settlement or other public purpose, of which the Minister of the Interior is to be the judge, the license may be renewed for another year, subject to such revision of the annual rental and royalty to be paid therefor as may be fixed by the Governor in Council.

Section 4.

(*a*) The person who has acquired a timber berth shall receive a license so soon as the berth has been awarded to him, but the licensee before he cuts any timber thereunder shall cause to be made at his own expense, under the instructions of the Surveyor General, a survey of his timber berth by a duly qualified Dominion Land Surveyor, and the plan and field notes of such survey shall be deposited on record in the Department of the Interior ; and he shall be held liable for the dues upon timber that may be cut by any one on the berth subsequent to ten days from the date upon which he is notified that the berth has been awarded to him. The dues upon such timber to be fixed by the Minister of the Interior.

(*b*) In surveyed territory, berths shall consist of township sections, their legal subdivisions or fractions thereof.

Section 5.

If, in consequence of any incorrectness in survey or other error or cause whatever, a timber berth is found to comprise lands included in another berth awarded at a prior date, or any lands sold, granted, leased or lawfully set apart for any other purpose under these regulations or the Dominion Lands Act, the later berth shall be void in so far as it interferes with any previous sale, grant or setting apart.

Section 6.

All ground rents, royalties or other dues on timber cut within the boundaries of any timber berth, which are not paid at the time when they become due shall bear interest at the rate of six per cent per annum until paid, and shall be a lien on any timber cut within such limits ; or on other Dominion Lands by the licensee or his agents ; and in case of such non-payment—whether, in consequence thereof the license of the berth has or has not been cancelled—the Crown Timber Agent or other person authorized thereto may, with the sanction of the Minister, seize so much of the timber cut on such berth or other Dominion lands by the licensee or his agents, as will in his opinion, be sufficient to secure the payment of such rent or royalty and all interest and expenses of seizure and sale, and may detain the same as security for the payment thereof ; and if payment is not made within three months after such seizure, he may, with the sanction of the Minister, sell such timber by public auction, and after deducting the sum due to the Crown, the interest thereon and expenses aforesaid, he shall pay over the balance, if any, to the licensee, if the timber was in his possession at the time of seizure, or if it was not, to the person who had possession thereof at the time.

Section 7.

All timber cut under license shall be liable for the payment of the Crown dues thereon, whenever and wherever the said timber or any part of it is found, whether it is or is not converted into deals, boards or any other manufacture of wood ; and all officers or agents employed in the collection of such dues may follow all such timber and may seize and detain the same wherever it is found, until the dues thereon are paid or secured, as provided in the next preceding clause.

Section 8.

If the payment of the Crown dues on any timber has been evaded by any licensee or other person, by the removal of such timber or products out of Canada, or otherwise, the amount of dues so evaded and any expenses incurred by the Crown in enforcing payment of the said dues under the Dominion Lands Act, may be added to the dues remaining to be collected on any other timber cut on any timber berth by the licensee or by his authority, and may be levied and collected or secured on such timber, together with such last mentioned dues, in the manner hereinbefore provided ; or the amount due to the Crown, of which payment has been evaded, may be recovered by action or suit in the name of the Minister or his agent, in any court of competent jurisdiction.

Section 9.

The Minister may take or authorize the taking of bonds or promissory notes for any money due to the Crown, as aforesaid, or, in his discretion, for double the amount of any dues, penalties and costs incurred or to be incurred, and may, if it is under seizure, then release any timber upon which the same would be leviable, but the taking of such bonds or notes shall not affect the right of the Crown to enforce payment of such money, and the debt shall be a lien on any timber cut on the same or on any other berth by the licensee or by his authority, if the sums for which such bonds or notes are given are not paid when due.

FORM OF TIMBER LICENSE.

Section 10.

The following is the form of license to be used in respect of timbered lands :—

Know all men by these presents, that by virtue of the authority vested in me by the Dominion Lands Act, that by an Order of His Excellency the Governor General in Council, of the day of , 18 , I, , the Minister of the Interior, of Canada, do hereby in consideration of the sum of , ground rent, now paid to me for the use of Her Majesty, and in consideration of the royalty hereinafter mentioned, given unto , hereinafter called the licensee, executors and administrators, full right, power and license, subject to the conditions and restrictions hereinafter mentioned and contained, and such other conditions and restrictions as are in that behalf contained in the Dominion Lands Act and the amendments thereto, and in the regulations respecting timber passed by the Governor General in Council, to cut timber on the following tract of land (hereinafter called the "berth" or "berths") that is to say :— , and to take and keep exclusive possession of the said lands, except as hereinafter mentioned, for and during the period of one year from the day of , 18 , to the day of , 18 , and no longer.

This license shall vest in the licensee, subject to the conditions hereinafter mentioned, all right of property whatsoever in all trees, timber, lumber, and other products of timber cut within the "berths," during the continuance thereof, whether such trees, timber and

lumber or products be cut by authority of the licensee or by any other person, with or without consent; and shall entitle the licensee to seize in replevin, revendication or otherwise, as property, such timber where the same is found in the possession of any unauthorized person, and also to bring any action or suit at law or in equity, against any party unlawfully in possession of any such timber or of any land so leased, and to prosecute all trespassers thereon and other such offenders as aforesaid, to conviction and punishment, and to recover damages, if any, and all proceedings pending at the expiration of this license may be continued and completed as if the same had not expired.

This license is subject to the following conditions and restrictions in addition to such of the conditions and restrictions as are in that behalf contained in the Dominion Lands Act and the amendments thereto, and in the regulations respecting timber passed by order of the Governor General in Council:—

1. That the licensee shall not have the right thereunder to cut timber of a less diameter than ten (10) inches at the stump except such as may be actually necessary for the construction of roads, &c., to facilitate the taking out of merchantable timber.

2. That this license shall not be allowed to interfere with the settlement of any lands within the "berths" which may be desirable for settlement, the Minister of the Interior to be the judge of the fact, and the only recourse of the licensee against the ruling of the Minister in favour of permitting settlement within such "berths" to be that (the licensee) may within sixty days after receiving notice to the above effect from the local agent of Dominion Lands, remove all timber on such lands which may be over ten inches in diameter at the stump.

Further, that this license shall not prevent individual Homestead Settlers holding free permits heretofore or hereafter given under the Order in Council, dated the seventeenth day of September, 1889, or under any subsequent Order in Council passed in such behalf from cutting and removing from the land covered by this license such quantity of building timber, fence rails, or fire wood, as such permit may set forth, and the Government may, notwithstanding this license, give such permit to individual settlers from time to time under said Order in Council or any subsequent Order in Council.

3. That the licensee shall take from every tree cut down all the timber fit for use, and manufacture the same into sawn lumber or some other saleable product.

4. That the licensee shall prevent all unnecessary destruction of growing timber on the part of his men, and exercise strict and constant supervision to prevent the origin or spread of fires.

5. That the licensee shall make returns to the Government monthly, or at such other periods as may be required by the Minister of the Interior, or by regulations under the said Act, sworn to by him or by his agent or employee, cognizant of the facts, declaring the quantities manufactured, sold or disposed of, of all sawn lumber, timber, or any other product of timber from the berth with the exception of slabs for fuel and saw-dust, in whatever form the same may be sold or otherwise disposed of by him during such month or other period, and the price or value thereof.

6. That the licensee shall pay, in addition to the said ground rent, dues in the manner prescribed in subsection "*c*," section 2 of the Timber Regulations.

7. That the licensee shall keep a "lumber sales book" in which shall be entered all sales of the products of the berth, both cash and credit sales, also a book accounting for the number of feet of sawn lumber manufactured each day at the mill, with day and date; all books and memoranda kept at the logging camps shall be carefully preserved and these and other books kept by the licensee in connection with his lumbering business he shall submit for the inspection of the Crown Timber Agent or other officer of the Crown whenever required for the purpose of verifying his returns aforesaid.

8. This license shall be subject to the right of the Crown to deal in accordance with the provisions of the said Act, and the regulations made under it by the Governor in Council with any and all stone, coal and other minerals found within the limits of the berth licensed; and the Crown shall have the right in dealing, as above provided, with any stone, coal or other minerals in lands licensed as timber limits to authorize the persons to whom such stone, coal or other minerals are granted, to take possession of and occupy such extent of the land so licensed as is necessary to work such stone, coal or other minerals, and to open necessary roads through any such timber berth paying the licensee of the berth the value of any and all timber of a diameter of ten inches at the stump and upwards, necessarily cut in making such roads or in working the quarries or mines, such value in case of dispute to be fixed by the Minister of the Interior; and the provisions of this clause shall operate retrospectively, that is to say: They shall apply to all licenses of timber berths heretofore granted under any Act respecting Dominion lands, as if they had been contained in such Act when it was passed.

9. The license shall be subject to forfeiture for infraction of any one of the conditions to which it is subject, or for any fraudulent return; and in such case the Minister of the Interior shall have the right without any suit or other proceeding at law or in equity, or compensation to the licensee, to cancel the same, and to make a new license or disposition of the said "berth" to any other party, at any time during the term hereby granted. Provided that the Minister of the Interior if he sees fit, may refrain from forfeiting such license for non-payment of dues, and may enforce payment of such dues in the manner provided by the said Act:—

Provided, that if during the said term of one year any actual waiver on the part of the Minister of the Interior, or of any one on his behalf, of the benefit of any condition in this license shall take place in any one particular instance, such actual waiver shall not be assumed or deemed to extend in any instance or any breach of such condition, other than that to which such waiver shall specially relate, nor to be a general waiver of the benefit of such condition. Provided that whenever in the above conditions the word "licensee" occurs, it is to be taken to extend to and include the executors, administrators and assigns of the "licensee."

Provided further that the Minister of the Interior shall be the sole judge of the fact in regard to infraction or alleged infraction of any one of the conditions of this license, and that his decision in relation thereto shall be binding and conclusive.

10. That should the Canadian Pacific Railway Company, or any other railway company, become entitled to a grant from Her Majesty or Her successors of any portion of the lands hereby demised, whether as part of their land subsidy provided for by the Statutes of Canada, or for the road-bed of the railway, or its branches, or for stations, station grounds, workshops, dock grounds and water frontage on navigable waters, building yards and other appurtenances required for the convenient and effectual construction and working of the railway and its branches, and if Her Majesty or successors grant the same, the land so granted shall as soon as due notice thereof in writing has been served upon the licensee, or his legal representatives be withdrawn from the operation of this license, but the licensee or his legal representatives shall be at liberty to remove all timber then cut and all other property belonging to him then on the lands thereby withdrawn from the operation of this license.

11. This license cannot be assigned or transferred without the consent of the Minister of the Interior.

12. The licensee shall have in operation within one year from a date when he is notified by the proper officer of the Department of the Interior that the Minister of the Interior regards such a step necessary or expedient in the public interest and keep in operation, for at least six months of each year of his holding, a saw-mill in connection with the berth herein

described, capable of cutting in twenty-four hours a thousand feet board measure for every two and a half square miles of the area licensed.

Section 14.

Besides the dues above specified, grantees of permits may be called upon to pay such additional sum as the Minister may judge necessary to meet their proportion of any expense incurred or that may be incurred by the Department in making a survey or other demarcation on the ground of the boundaries within which such permits are to be operative.

Section 22.

In order that mill-owners may be able to give satisfactory evidence that saw-logs or lumber found in their possession have been lawfully cut, they shall require from settlers bringing timber to be sawn, proof that the same has not been cut on Dominion lands, or that it has been cut under a permit, which the settler should produce in order that its number, its date, and the name of the permittee may be noted by the mill-owner. The latter should also record the quantity of such timber sawn by him, so that he may be in a position to duly protect himself should an account or return thereof be demanded by agents of the Department.

[1627]

AT THE GOVERNMENT HOUSE AT OTTAWA.

Friday, the 24th day of June, 1898.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

ON a Memorandum, dated 30th May, 1898, from the Minister of the Interior, submitting that, on a Report dated 24th December, 1894, from the then Minister of the Interior, stating that it had been represented to him on behalf of the Mennonite settlers in Manitoba that their two Reserves in that Province were overcrowded owing partly to the influx of their fellow-countrymen from the United States and Europe and partly to the natural increase which has taken place since their first settlement in Manitoba, and that, therefore, to meet the growing needs of their families and to encourage the settlement of their fellow-countrymen in Canada, it had become necessary to ask the Government to establish a reservation for them from lands in the Prince Albert District, an Order of Your Excellency in Council was passed dated the 23rd of January, 1895, reserving for entry by Mennonites only, the even-numbered sections (exclusive of Hudson's Bay Company's lands) so far as they were at the disposal of the Government, in Townships 40, Ranges 3, 4, and 5, and Township 41, Range 4, all west of the 3rd Meridian.

The Mennonites now state that the movement to the Prince Albert District is assuming large proportions, and that there are upwards of seventy families leaving for the new district this Spring and, as they consider the reserve already made insufficient, they have applied for an addition to it of Township 41, Range 3 west of the third Meridian.

The Minister states that these people have been a good class of settlers and have always faithfully discharged any obligations in connection with settlement undertaken by them, and he considers it in the public interest to encourage them in their efforts to promote settlement, and to do this it is necessary to give the intending settlers an assurance that they will be enabled to carry out the principles of their social system and to settle together in hamlets (for which provision is made by section 37 of the Dominion Lands Act) by obtaining entries for contiguous lands.

The Minister, therefore, recommends that he be authorized to reserve for entry by Mennonites only, the even-numbered sections (exclusive of Hudson's Bay Company's lands), in Township 41, Range 3, west of the 3rd Meridian, so far as they may be at the disposal of the Government.

The Committee advise that the requisite authority be granted accordingly.

2–4 Asst. Clerk of the Privy Council.

The Order sets forth that this road "is necessary and advisable for the pur-"poses of settlement and colonization, and for the "convenience of the public," &c.

The Minister, therefore, recommends that assent of Your Excellency be given to the opening up the said road, which is coloured pink on the annexed plan, and that the same be transferred to the Crown in the right of the Province of Manitoba, for the purpose of a public highway, as provided for by clause 7 of chapter 30 of the Act 58-59 Victoria.

The Committee submit the above recommendation for Your Excellency's approval.

The Minister further states that Mr. Parke is now desirous of amending his application to purchase to include the following lands:—

The Minister recommends that the Order in Council, dated 10th December, 1896, above mentioned, be amended in so far as the description of the land is concerned, and that Mr. Parke be allowed to purchase the lands above described, and shown on the accompanying sketch, on the same terms and conditions mentioned in the Order in Council in question.

The Committee submit the same for Your Excellency's approval.

DOMINION OF CANADA—BRITISH COLUMBIA.

I. Beacon at Gibsons Landing.

A small stone beacon, surmounted by a wooden staff and lattice work ball, the whole painted black, and showing 9 feet above water, has been erected by this Department on the northern portion of a rock 2¾ cables east of Gibsons Landing, Shoal Channel, Howe Sound.

Lat.	N.	49°	24'	10"
Long.	W.	123°	31'	2"

This beacon replaces the buoy described in Part III of Notice to Mariners No. 28 of 1898.

This notice affects Admiralty charts Nos. 579 and 585, and British Columbia Pilot, 1888, page 169.

II. Rock in Shoal Channel.

An uncharted danger in Shoal Channel, entrance to Howe Sound, near the conspicuous cone shown on plan 585 has been located by Mr. J. T. Walbran, Master of the D.G.S. "Quadra."

The danger is a narrow shoal running S.S.E. from a point on the west shore where a slate spit extends 160 feet south from high water mark. No depth of more than 2 fathoms is found to the shoalest spot, a rock awash, at a distance of one cable from the shore. A depth of 4 fathoms is found ½ cable south of this spot, outside of which the water rapidly deepens.

From the rock awash Gibsons Landing wharf bears S.S.W. (S. 45° 45' W. true), distant 1⅓ miles ; the North Shelter Island, S.E. (S. 21° 45' E. true), distant 7 cables, and the trend of the shore northward bears N. ¼ E. (N. 26° E. true).

This notice affects Admiralty charts Nos. 579 and 585, and British Columbia Pilot, 1888, page 169.

III. Rocky Patch off Cole Bay.

Notice has been received from the Commander-in-chief of the Pacific Station of the location by the officers of H.M.S. "Pheasant" of a rocky patch off White Rocks, Cole Bay, Saanich Inlet.

Lat. N. 48° 37' 47"
Long. W. 123° 29' 40"

The patch lies in a N.E. by S.W. direction with the westernmost of the White Rocks bearing N. 57° E. magnetic, distant 2 cables. It is about ½ cable in extent and has a least depth of 8 feet.

The following sextant angles will locate the position of least depth.

Village Point, 0°
Hatch Point, 87½°
Coal Point, 22½°
Western White Rocks, 76°
Senanus Island, 109½°

IV. Shoal Southeastward of Mitlenatch Island.

Information, dated 21st April, 1898, was received by the British Admiralty from Commander M. H. Smith, H.M. surveying-vessel "Egeria," of the existence of a shoal, now named Sentry Shoal, lying to the southeastward of Mitlenatch Island. The shoal within the limits of the 10 fathom line runs N.W. and S.E. 1½ miles, the least depth found being 5 fathoms, from which the summit of Mitlenatch Island bears N. 30° W., distant 2⅒ miles.

Shoal water also appears to extend ½ mile from the north side of Mitlenatch Island.

Approximate position of 5 fathom patch:—

Lat. N. 49° 55' 0"

This notice affects Admiralty charts Nos. 580 and 1917, and British Columbia Pilot, 1888, page 182.

V. Rock in Schooner Passage.

Captain Roberts, of the steamer "Princess Louise," has reported that his vessel struck an unknown rock in Schooner Passage, Rivers Inlet. The rock is about 70 yards from the western shore and is awash at extreme low tide. A mid-channel course will clear the danger.

Approximate position on Admiralty chart No. 1923*b*:—

Lat. N. 51° 33' 17"
Long. W. 127° 36' 30"

Captain Roberts also reports that the rock shown on the chart on the eastern side of the southern entrance to Schooner Passage dries at an extreme low tide.

This notice affects Admiralty chart No. 1923*b*, and British Columbia Pilot, 1888, page 360.

VI. General Information respecting Work Channel.

The following summary of a report by Captain Walbran, has been published in the United States Notice to Mariners No. 24 of 1898:—

Work Channel, the entrance to which lies close northward of Point Maskelyne, is a nearly straight arm stretching about 30 miles to the southeastward, the head reaching within 2 or 3 miles of the Skeena River.

There is good anchorage in 9 fathoms in a small cove, known as Trail Bay Cove, situated on the west side of Trail Bay. Trail Bay is situated on the western shore of the inlet and 5½ miles from the entrance.

Two miles eastward of Grace Point, the entrance to Trail Bay, is a dangerous pinnacle rock situated nearly in the middle of the inlet. The rock just dries at an extreme low tide. It is surrounded by deep water, there being a depth of 130 fathoms close to it.

The shores of this inlet are bold and compact and the whole of this channel is surrounded by high and precipitous mountains.

About 8 miles from the head a narrow arm branches off to the northward for about 3 miles and then turns to the southeast and eastward for 8 miles.

Indifferent anchorage may be found at the head of the main inlet, between the two small streams in the southwestern bight, in 35 fathoms, 400 yards from low water mark. There is also anchorage, for a small vessel, in 9 fathoms in the cove to the northward of the bight and off the entrance of Salt Water Lake, steadying her with a hawser to the trees.

The tidal stream in the entrance of Work Channel runs about 3 knots per hour.

This notice affects Admiralty charts Nos. 1923*a* and 2430, and British Columbia Pilot, 1888, page 428.

2. Two range lights have been established by Mr. Rouleau on Big Point, on the American side of the river, in the same alignment as the lights on the Canadian side, to show the axis of the dredged channel above the canal from the American side to the turning point at the beacon.

These lights will be maintained by the pilots and the Canadian Government assumes no responsibility in connection with them.

This notice affects Admiralty charts Nos. 320 and 324, and the substance of it should be entered in the Canadian List of Lights after No. 1115.

II. Shoal off Gros Cap.

The Department of Marine and Fisheries is advised that several vessels, drawing 17 feet or more, have struck an uncharted shoal in the upper or Lake Superior entrance to River St. Mary, between Gros Cap and Point Iroquois.

One master states that the shoal is about a mile and a-half above Point Iroquois.

The shoal is on, or a little to the eastward of, the alignment of the private lights known as Bernard's Range.

Masters are advised to keep the range open a little to the westward until abreast of Point Iroquois.

This notice affects Admiralty charts Nos. 320 and 324.

F. GOURDEAU,
Deputy-Minister of Marine and Fisheries.

Department of Marine and Fisheries,
Ottawa, Canada, 30th June, 1898.

☞ All bearings, unless otherwise noted, are magnetic and are given from seaward, miles are nautical miles, heights are above high water, and all depths are at mean low water.

Pilots, masters, or others interested, are earnestly requested to send information of dangers, changes in aids to navigation, notices of new shoals or channels, errors in publications, or any other facts affecting the navigation of Canadian waters, to the Chief Engineer, Department of Marine and Fisheries, Ottawa, Canada.

NOTICE TO MARINERS.

No. 32 of 1898.

DOMINION OF CANADA.—NEW BRUNSWICK.

IMPROVEMENT IN PRESTON BEACH RANGE LIGHTS.

The masts, from which range lights were shown on Preston beach, on the south shore of Miramichi bay, New Brunswick, have been replaced by lighthouse towers. The front tower stands on the top of a sand ridge which follows the shore of the bay, and is 68 feet N. 18° W. from the former range light mast.

Lat. N. 47° 4' 47"
Long. W. 64° 54' 58"

The tower is a wooden building, square in plan, with inclined sides, surmounted by a square wooden lantern, and is 29 feet high, from the ground to the vane on the lantern. It is painted white, with the lantern red. The light will be, as heretofore, fixed white, elevated 47 feet above high water mark, and should be visible 10 miles in the line of range and also eastwardly down the bay approximately between the bearings of N. W. and E. S. E. The illuminating apparatus consists of a single wick lamp strengthened by a pressed glass lens.

The back tower is erected on the south side of the high road, 804 feet S. by E. ⅝ E. (S. 40° 30' E. true) from the front tower. It is a skeleton steel frame work, square in plan, with sloping sides, surmounted by a wooden lantern and light-room. The height from the ground to the vane on the lantern is 59 feet. The lantern and ironwork are painted red : the enclosed upper part of the tower is painted white. The light is a fixed white light elevated 58 feet above high water mark and visible 10 miles in the line of range and also eastwardly down the bay. The illuminating apparatus is similar to that of the front light.

The two lights are in exactly the same alignment as the old lights and in one lead vessels entering Miramichi bay from the Bar buoy up through the ship channel east of the Lump buoy.

This notice affects Admiralty charts Nos. 435, 2034 and 2187.

ARRETÉS EN CONSEIL.

[1698]

HOTEL DU GOUVERNEMENT À OTTAWA.

Lundi, le 27e jour de juin 1898.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

SUR un rapport daté le 20 de juin 1898, du ministre de l'Agriculture, disant qu'il est d'avis que dans l'intérêt du public et en conformité des dispositions de l'article 52 du chapitre 61 des Statuts Revisés du Canada, intitulé "Acte concernant les brevets d'invention," il serait avantageux de rescinder les règles et formules du Bureau Canadien les brevets d'invention tels qu'autorisés par arrêté en conseil daté le 12 de mai 1888, ainsi que les diverses modifications qui y ont été apportées, et de les remplacer par les règles et règlement ci-joints.

Le Ministre recommande qu'autorisation soit donnée de faire publier ces règles et règlement deux fois dans la *Gazette du Canada*, et qu'il soit autorisé à les faire imprimer pour l'usage général du ministère de l'Agriculture.

Le comité soumet ce qui précède à l'approbation de Votre Excellence.

JOHN J. McGEE,
Greffier du Conseil privé.

—

Règles et Formules du Bureau Canadien des brevets d'invention adoptés par arrêté en conseil daté le 27 de juin 1898.

1. Il n'est pas nécessaire que celui qui demande un brevet d'invention, ou son représentant, se présente personnellement au bureau des brevets, à moins qu'il n'y soit spécialement invité par le commissaire ou le sous-commissaire.

2. Le requérant ou celui qui dépose quelque document relatif à une demande de brevet, est dans tous les cas responsable du mérite de ses allégations et de la validité des documents soumis par lui ou par son agent.

3. La correspondance peut se faire soit avec le pétitionnaire, soit avec son agent, mais avec une seule personne, et elle sera transmise franco par les malles canadiennes.

4. Tous les documents doivent être lisiblement et proprement écrits ou imprimés sur papier tellière (*foolscap*,) de 13 pouces de longueur par 8 de largeur, en conservant une marge intérieure d'un pouce et demi.

5. Toutes communications doivent être adressées : *Au commissaire des brevets d'invention, Ottawa, Canada.* Les documents envoyés au bureau doivent être accompagnés d'une lettre, et une lettre distincte doit être écrite sur chaque sujet.

6. Au sujet des manières de procéder auxquelles il n'est pas spécialement pourvu par les formules ci-jointes, toute formule conforme à la lettre et à l'esprit de la loi sera acceptée, et dans le cas contraire, elle sera renvoyée pour être corrigée.

7. Il suffit de fournir des modèles que si le commissaire l'exige, et ils doivent être bien faits et pouvoir fonctionner ; ils ne doivent pas avoir plus de douze pouces dans leur plus grande longueur, à moins d'une permission spéciale, et ils doivent être construits de manière à faire voir exactement chaque partie de l'invention et son fonctionnement. Lorsque la loi exige des échantillons d'ingrédients, ils doivent être contenus dans des fioles convenablement arrangées ; mais les substances dangereuses ou explosibles ne doivent pas être transmises. Les modèles et les fioles devront porter le nom de l'inventeur, celui de l'invention et la date de la requête, et devront être envoyés au bureau des brevets en bon état, aux frais du pétitionnaire.

8. Tous les droits prescrits par la loi devront être transmis en même temps que la demande, pour que le bureau s'en occupe. Les remises doivent être en fonds de banque, traites, mandats-poste ou chèques certifiés. Les deniers envoyés par la poste doivent l'être dans des lettres enregistrées et au risque de l'envoyeur. Les traites, mandats-poste et chèques doivent être faits à l'ordre du commissaire des brevets, Ottawa.

9. Toute demande de brevet doit être poursuivie et parfaite pour examen dans les deux ans qui suivent le dépôt de la pétition, ou, si le requérant manque de la poursuivre, alors sous deux ans après un commencement d'exécution, à défaut de quoi elle sera regardée comme abandonnée, aussi bien que tous procédés qui auront eu lieu à ce sujet, et tous les droits payés seront, à l'expiration de cette période considérés confisqués, à moins que le commissaire ne soit convaincu que le délai n'était pas dû à la négligence du requérant.

10. Deux ou plusieurs inventions distinctes ne peuvent faire la matière d'une seule demande, ni être comprises dans un même brevet. Mais s'il est allégué que les différentes matières sont si étroitement liées entre elles qu'il devient nécessaire de les rattacher ensemble pour obtenir le but que se propose l'inventeur, le commissaire des brevets décidera si les prétentions du requérant à cet égard peuvent être maintenues.

11. Le dépôt d'un protêt contre la concession d'un brevet ne sera pas regardé comme étant une raison suffisante pour empêcher cette concession au pétitionnaire.

12. Un *caveat* ne peut être déposé que par un inventeur, et se composera d'une spécification (*et de dessins*) certifiée sous serment [formule n° 23], et celui qui l'aura déposé pourra, pendant sa durée, y joindre des documents supplémentaires, pourvu qu'ils se rattachent exclusivement à la même invention. La personne qui aura déposé un *caveat* n'aura pas le droit d'être notifiée des demandes pendantes lors du dépôt de son *caveat*. Un *caveat* ne doit s'appliquer qu'à une seule invention.

La spécification d'un *caveat* doit être suffisamment précise pour permettre au bureau de juger s'il y a conflit probable lors d'une demande subséquente.

13. Les dessins en double qui sont attachés au double de la spécification, doivent être faits en encre de Chine, sur des feuilles de toile à calquer autre que la linaura ou fabrique semblable, de huit sur 13 pouces, proprement exécutés et non colorés.

DESSINS.

(*Faits en double.*)

Chaque feuille sur la toile à calquer contiendra ce qui suit :—Le titre de l'invention en tête de la feuille ; le certificat suivant au pied : " Certifiés être les dessins mentionnés dans la spécification ci-annexée," et signée par l'inventeur ou son fondé de pouvoirs ; le lieu, la date et la signature de deux témoins.

Toutes les lignes doivent être claires, nettes, bien accentuées pas trop fines, *et parfaitement noires.*

Les lignes pâles, grises, très-fines, imparfaites ou embrouillées, donnent de mauvais résultats à la photo-lithographie.

Les ombres au pinceau, les hachures et les imitations du bois doivent être évitées ; et les ombres fines au trait doivent être faites avec le moins de lignes possible.

Les lignes de section doivent être bien espacées, et elles doivent être faites ainsi que toutes les lignes droites, au moyen du tire-ligne, afin d'obtenir le plus de clarté possible. L'on peut se dispenser d'ombrer les surfaces convexes et concaves, lorsque l'invention est d'ailleurs bien représentée.

L'on peut parfois employer les lignes ombrées avec avantage, mais les fortes ombres, qui auraient l'effet d'obscurcir les traits ou les lettres de renvoi, doivent être évitées.

Avec chaque demande de brevet, il faut envoyer une série de dessins à part sur du carton de Bristol, de 8 x 13 pouces, et ne devra contenir aucune écriture, sur sa face, sauf les lettres de renvoi. Il ne sera pas nécessaire d'y mettre ni titre, ni certificat, ni signatures ; le nom de l'inventeur et celui de l'invention devront être écrits au crayon sur le revers.

Le dessin sur carton doit être roulé sur un rouleau pour le transmettre au bureau, car les plis détruiraient son utilité pour la photo-lithographie.

14. A l'égard de la redélivrance d'un brevet, en vertu de l'article 23 de l'acte, tout ce qui est réellement compris dans la requête primitive et décrit ou indiqué dans la spécification de manière à pouvoir être compris dans le premier brevet, pourra faire le sujet d'un nouveau brevet. Aucune nouvelle matière ne sera introduite dans la spécification, et les modèles et dessins ne pourront être amendés que les uns par les autres. En l'absence de modèles ou de dessins, la nouvelle spécification pourra être amendée sur preuve donnée à la satisfaction du commissaire que les amendements faisaient partie de l'invention, bien qu'ils aient été omis dans la première description. Des brevets distincts pourront être émis pour chaque partie séparée et distincte de l'invention, comprise dans le brevet primitif.

15. Les renseignements relatifs aux demandes pendantes ne seront fournis qu'en autant que la chose sera nécessaire pour la transaction des affaires du bureau.

16. Le bureau ne peut répondre aux questions relatives à la probabilité de la concession d'un brevet pour une prétendue invention, avant que la demande de brevet ne soit régulièrement faite, non plus qu'aux questions basées sur des descriptions abrégées ou imparfaites, posées dans le but de constater si quelque prétendu perfectionnement a été breveté, ni à moins que le nom du breveté, et la date du brevet, aussi exactement que possible, ne soient donnés. Le bureau ne peut, non plus, agir comme interprète de la loi des brevets, ni comme conseiller des particuliers, excepté pour les questions surgissant dans le bureau.

On recommande particulièrement d'examiner la loi avant d'écrire au département sur un sujet quelconque, afin d'éviter des explications et un travail inutiles.

Un exemplaire des règlements, avec indication particulière d'un article quelconque, expédié à une personne demandant quelque renseignement, servira de réponse par le bureau.

17. Il est de l'intérêt, tant du pétitionnaire que du service public, que les documents et dessins soient préparés par des personnes entendues, ce qui facilitera

l'expédition et la régularité des procédés. On conseille donc au requérant, à moins qu'il ne soit lui-même capable de dresser les papiers relatifs à sa demande, d'employer un procureur capable, vu que la valeur des brevets dépend beaucoup de l'habileté avec laquelle la spécification et les réclamations ont été préparés. Le bureau refusera toujours de suggérer le choix d'un procureur.

18. Toute affaire avec le bureau doit se transiger par écrit. Les décisions du bureau ne seront basées que sur les documents écrits. Il ne sera fait aucune attention aux prétendues promesses verbales ou ententes au sujet desquelles il y aura désaccord ou doute.

19. Les cessions de brevets devront être accompagnées d'une copie de la cession ; l'original sera gardé au bureau des brevets, et la copie sera renvoyée à la personne qui l'aura transmise, avec le certificat d'enregistrement y inscrit.

20. Tous les cas difficiles pouvant naître de l'application de la loi des brevets d'invention, auxquels il n'est pas spécialement pourvu dans ces règlements, seront décidés, suivant leur mérite, par autorité du commissaire, et cette décision sera communiquée par écrit aux intéressés.

21. Les demandes de brevets envoyées à ce bureau, non accompagnées des droits exigés par la loi, ne seront pas reconnues officiellement, ni notées ni numérotées ; elles seront simplement mises dans les casiers, et ne seront reçues comme déposées que le jour où les droits auront été reçus.

22. Le requérant a le droit de modifier avant ou après le premier rejet, ou première action ; et il peut modifier aussi souvent que l'examinateur présente quelques nouveaux renvois ou raisons pour rejet. En faisant ainsi des modifications, le requérant doit indiquer clairement tous les points nouveaux que le cas présente selon lui, dans l'état de l'art dévoilé par les renvois cités ou les objections faites. Il doit aussi indiquer comment les modifications surmontent ces renvois ou objections.

23. La spécification et le dessin doivent être modifiés et revisés lorsque requis, pour corriger des inexactitudes de description ou une prolixité inutile, et faire concorder la réclamation, la spécification et le dessin. Mais aucun changement dans le dessin ne sera fait sans la permission écrite du bureau.

24. Dans chaque modification le mot ou les mots exacts à biffer ou à insérer dans la demande doivent être spécifiés, et le point précis indiqué où la rature ou l'insertion doit être faite. Toutes ces modifications doivent être faites sur des feuilles de papier distincte des papiers déjà déposés, et écrites sur un seul côté du papier. Le requérant ne doit pas faire de ratures, d'ajoutés, d'insertions ou de mutilations dans les papiers et archives.

25. Les modifications exigent la signature du requérant ou de son fondé de pouvoirs.

29. Si une clause modificative est modifiée, elle doit être écrite au long, de façon que ni intercallation ni rature ne paraisse dans la clause telle que définitivement modifiée lorsque la demande est acceptée pour délivrance. Si le nombre ou la nature des modifications rendaient difficile l'examen du cas, ou l'arrangement des papiers pour l'impression ou la transcription, l'examinateur ou le commissaire fera écrire de nouveau toute la spécification.

FORMULE 13.

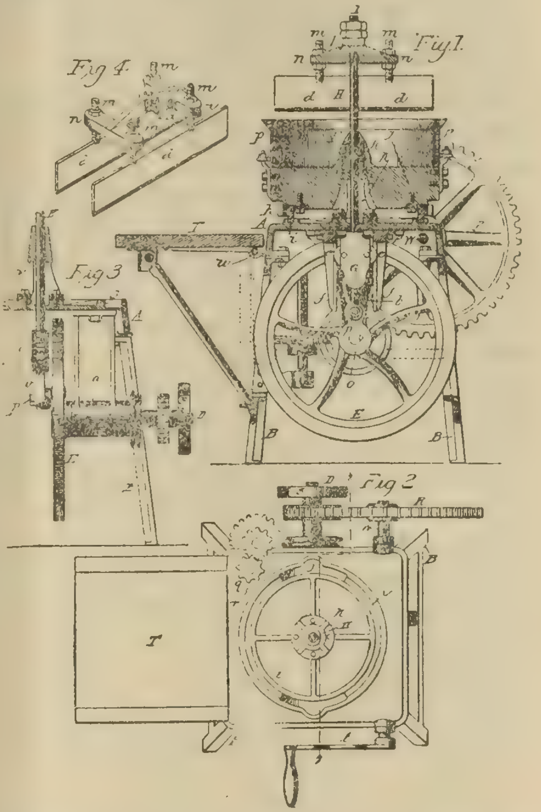
POUR UNE MACHINE.

A tous les intéressés :

Sachez que moi, William Woodworth, de la ville de Poughkeepsie, dans le comté de Duchess, dans l'Etat de New-York, bourgeois, ai inventé certains perfectionnements nouveaux et utiles aux machines à hacher la viande (pour lesquels j'ai obtenu un brevet dans *(ici nommez le pays)* No.   daté   189) ; * je déclare par ses présentes que ce qui suit en est une description claire, entière et exacte.

Mon invention ce rapporte à des perfectionnements aux machines à hacher la viande dans lesquelles des couperets verticaux opèrent alternativement avec un billot rotatoire ; et le but de mon perfectionnement est, premièrement de fournir un coussinet toujours graissé pour le billot ; secondement, donner des facilités pour l'ajustement convenable des couperets indépendamment l'un de l'autre à l'égard de la face du billot ; et troisièmement réduire la friction de la tige alternative qui porte les couperets.

J'atteins ce but par le mécanisme illustré dans le dessin ci-joint, dans lequel—



Attestés être les dessins mentionnés dans la spécification ci-jointe.

(Lieu et date.)

(Signature de l'inventeur ou de son procureur.)

(Signature de deux témoins.)

La figure 1 est une section verticale de toute la machine ; la figure 2, une vue plongeante de la machine telle qu'elle appert après l'enlèvement du billot et des couperets ; la figure 3, est une section verticale d'une partie de la machine sur la ligne 1, 2 de la figure 2 ; et la figure 4, une vue détaillée en perspective de la traverse alternative et ses couperets.

Des lettres semblables renvoient à de semblables pièces par toutes les diverses vues.

La table ou plaque A, ses pieds ou montants BB, et le support *a*, assujéti en-dessous de la table, forment la charpente de la machine. Dans le support *a* tourne un arbre D, portant un volant E, un tourillon, le moyeu duquel est relié par une boucle *b* à une cheville passant à travers une traverse G, et à cette dernière est assujétie une tige H, ayant à sa tête une traverse I, portant les couperets ajustables *d d*, mentionnés plus loin.

La traverse G, rencontrée par l'arbre D, est munie de rouleaux anti-friction *e e*, adaptés à des guides *f f*, assujétis en-dessous de la table A, de façon que le mouvement alternatif de cette traverse puisse se faire avec le moins de friction possible.

Au-dessous d'un billot de bois J est attaché un tirant annulaire *h* adapté à et portant sur une rainure *i* dans la table A. (Voir figures 1 et 2.) Cette rainure annulaire n'est pas partout de la même profondeur, mais communique à un ou plusieurs points (deux dans le cas-ci) avec des poches ou réceptables *j j*, plus profondes que la rainure, et contenant de l'huile dans laquelle tourne le tirant *h*, de façon qu'il s'opère un graissage continu de la rainure et du tirant. La tige H passe à travers d'un, et est guidé par un support central K, assujéti à la table A, et projetant par une ouverture centrale dans le billot sans y toucher, la partie supérieure du dit support étant contenue dans un couvercle *k*, qui est assujéti au billot, et qui empêche les parcelles de viande de s'échapper par l'ouverture centrale.

---

* NOTES.—S'il n'a pas obtenu de brevet étranger, les mots entre parenthèses doivent être omis.

La traverse I, déjà mentionnée, et indiquée en perspective dans la figure 4, est ajustable verticalement sur la tige H, et peut être retenue après ajustage par une vis à demeure *x*, la tête de la tige étant filetée pour y recevoir un écrou qui résiste aux chocs causés à la traverse lorsque les couperets viennent en contact violent avec la viande sur le billot.

Les couperets *d d* sont ajustables indépendamment l'un de l'autre et de la dite traverse, de façon que la coïncidence du tranchant de chaque couperet avec la face du billot est toujours assurée.

Je préfère exécuter cette partie de mon invention en la manière indiquée à la figure 4, où l'on verra que deux tiges à vis *m m* sortent verticalement du dos de chaque couperet et passent à travers deux oreilles *n n* sur la traverse, chaque tige étant munie de deux noix, une au-dessus et l'autre au-dessous de l'oreille qu'elle traverse. L'ajustage le plus parfait des couperets peut se faire au moyen de ces noix.

Une enveloppe *p* est attachée au billot, de façon à y former une auge P pour retenir la viande ; et sur le bord du tirant annulaire *h* assujéti au fond du billot, se trouvent des dents pour recevoir celles du pignon *q* qui peut être mû par l'arbre D au moyen d'un système convenable d'engrenage, celui indiqué dans le dessin ne formant pas partie de ma présente invention.

Cet arbre D peut être mû par une courroie passant autour des poulies *s*, ou peut être mû à la main de l'arbre W muni à un bout d'une manivelle *t*, et à l'autre bout d'une roue dentée R, s'adaptant dans un pignon sur le dit arbre D.

Une plateforme T peut être pendue, tel qu'à *w* à un bord de la table A, pour soutenir un vaisseau dans lequel la viande hachée peut être déposée. Les moyens par lesquels elle peut être soutenue et la méthode la plus facile d'en disposer lorsqu'elle n'est pas en usage, sont indiqués à la figure 1.

Je sais qu'antérieurement à mon invention des machines à hacher la viande ont été faites avec des couperets verticaux fonctionnant alternativement. En conséquence je ne réclame pas une telle combinaison généralement ; mais

Ce que je réclame comme mon invention, et désire m'assurer par des lettres patentes sont :—

1. La combinaison, dans une machine à hacher la viande, d'un billot rotatoire ayant un tirant annulaire, avec une table ayant une cavité annulaire et une poche communiquant avec la dite cavité, le tout tel que décrit en substance.

2. Dans une machine à hacher la viande, la combinaison d'un billot rotatoire avec une traverse alternative portant des couperets, dont chacun est verticalement ajustable sur la dite traverse indépendamment de l'autre, tel que décrit en substance.

3. Le couperet *d*, ayant deux tiges à vis *m m*, attachées à son dos, tel que décrit en substance, pour la fin spécifiée.

4. La combinaison, dans une machine à hacher la viande, de la tige alternative, portant les couperets, la traverse attachée à la dite tige, et ayant deux rouleaux anti-friction, avec des guides, adaptés aux dits rouleaux, le tout tel qu'énoncé en substance.

(*Fait en double.*)

POUR UN ART OU PROCÉDÉ.

A tous les intéressés :

Sachez que nous Marion Ellsworth, de Chicago, comté de Cook, et Etat d'Illinois, bourgeois, et Joseph Richard Shaw, d'Indianapolis, comté de Marion, Etat d'Indiana, bourgeois, avons conjointement inventé un procédé nouveau et utile pour traiter l'huile de boue, afin d'en obtenir une substance résineuse (pour lequel j'ai obtenu un brevet dans (*ici nommez le pays*) No.   date 189 , dont suit une spécification :—

Dans la purification des huiles hydrocarboniques produites par la distillation du pétrole cru, d'asphaltes ou de bitumes, ou par la distillation destructive de la houille, des résines, ou des schistes bitumineux, les huiles sont agitées avec 2 pour 100 ou plus d'acide sulfurique concentré (60° Baumé, 1.86 poids spécifique) afin d'enlever certaines huiles contenues dans la distillation qui, dans le cours du temps, absorberaient de l'oxygène de l'air, et rendraient l'huile brune et gommeuse, et aussi enlever les substances goudronneuses et l'odeur désagréable. L'acide sulfurique se combine chimiquement avec ces corps et les dissout, formant un liquide rouge foncé et lourd, qui se dépose au fond de l'agitateur et peut être alors aisément retiré de l'huile purifiée. Ce composé particulier d'acide sulfurique et d'huiles hydrocarboniques, dissous dans l'excédent d'acide, est appelé "boue." Actuellement il est acheté par les fabricants de superphosphates, qui le mélangent avec un peu d'eau, qui décompose le composé d'acide et d'huile, produisant un acide plus faible (environ 50° Baumé) utilisé dans la manufacture du superphosphate de chaux, et une huile désagréable de couleur foncée, qui s'élève à la surface de l'acide, et est généralement jetée de côté, n'ayant aucune valeur commerciale, ce rebut est appelé huile de "boue."

Le mode de pratiquer mon invention est comme suit : Dans mon procédé lorsque la boue a été décomposée par addition de l'eau, l'huile de boue est retirée, et est ensuite purifiée en la lavant fréquemment avec de l'eau, jusqu'à ce que l'acide qui y reste soit enlevé. Dans ce but des volumes égaux d'eau et d'huile de boue peuvent être employés, mais le lavage peut se faire avec une moindre quantité d'eau. L'acide qui reste dans l'huile, s'il s'en trouve, est alors neutralisé au moyen de chaux vive ou de soude caustique. L'huile purifiée a une odeur forte et quelque peu désagréable, et contient environ 10 pour 100 d'huiles volatiles, qui sont difficilement converties en une résine dure. Pour enlever ces substances volatiles, l'huile de boue ainsi purifiée est introduite dans un alambic avec addition de 2 à 4 pour 100 de soude caustique et d'environ 2 pour 100 des oxydes de plomb ou de manganèse, afin d'oxyder tout corps sulfureux qui pourrait se trouver dans l'huile et se combiner avec elle, et la vapeur est alors forcée dans l'huile, l'huile étant tenue chaude au moyen d'un feu sous l'alambic, ou au moyen de la vapeur chauffée à la température voulue (entre 212° et 240° Fahrenheit). L'action de la vapeur est continuée jusqu'à ce qu'il ne reste plus d'huiles volatiles à retirer,—(de cinq à dix heures généralement). La vapeur est alors fermée, on laisse reposer le contenu de l'alambic, et il en résulte un dépôt d'impuretés goudronneuses et de soude, duquel l'huile pure peut être retirée. L'huile est alors introduite dans un alambic ou réservoir, et oxydée en y soufflant des courants d'air, l'huile étant tenue à une température modérée (de 200° à 300° Fahrenheit), soit par un feu lent sous l'alambic, soit par un serpentin à vapeur au fond du réservoir, ou en chauffant l'air par un fourneau à eau chaude à la température voulue avant de la souffler dans l'huile, et l'action de l'air est continuée jusqu'à complète oxydation, et un échantillon se solidifie en refroidissant en une résine plus ou moins dure.

Le temps requis pour effectuer l'oxydation varie avec la température effective et avec l'étendue de la surface d'huile mise en contact avec l'air. Disons quatre et douze jours. L'action de l'air sur l'huile est arrêtée du moment que des échantillons, pris du contenu de l'alambic, atteignent en refroidissant le degré voulu de dureté et de raideur pour les fins auxquelles le produit est destiné, et après avoir laissé reposer le contenu de l'alambic la résine chaude est retirée du sédiment de soude et d'impuretés.

L'action de l'air peut être accélérée en ajoutant à l'huile d'autres agents oxydants, par exemple, environ 2 pour 100 des oxydes de plomb ou manganèse, ou environ 2 pour 100 des manganates de soude et de potasse. Ces substances agissent soit en rendant l'oxygène à l'huile, ou en produisant par leur présence une combinaison de l'oxygène et de l'hydrocarbone.

Une qualité inférieure de résine peut être produite en traitant l'huile de boue lavée dans un alambic avec de la soude caustique et de la litharge (5 pour 100 de litharge) et en y soufflant un courant d'air à une température d'environ 350° Fahrenheit, qui oxyde en même temps l'huile et enlève les parties les plus volatiles, qui sont distillées jusqu'à ce qu'elle soit convertie en une résine, qui devient dure et cassante en refroidissant. Ce dernier procédé exige de deux à six jours, mais la résine produite est plus foncée que celle obtenue en la traitant d'abord avec la vapeur et ensuite avec l'air à une température plus basse, vu que la matière colorante n'est pas affectée par la vapeur à 400°, tandis que l'air à cette température la rend rapidement plus foncée par l'oxydation. La lumière du soleil blanchit la couleur de l'huile de boue, et, en même temps accélère grandement l'absorption de l'oxygène de l'air. Pour produire les résines plus claires l'huile de boue est traitée à la vapeur avec 5 pour 100 d'une solution de soude, 20° Baumé, à une basse température (environ 200° à 250° Fahrenheit pendant dix heures), pour enlever les parties les plus volatiles, et ensuite oxydée et blanchie en exposant l'huile dans des bassins plats couverts de verre, à l'action de la lumière du soleil, l'huile étant tenue chaude et fluide au moyen d'un serpentin à vapeur au fond du bassin, et des courants d'air soufflés à travers pour produire l'oxydation.

Les qualités inférieures d'huile de boue, telles que celles produites dans la purification d'huiles lubrifiantes, et qui contiennent une grande quantité de substances goudronneuses, sont traitées comme suit :—L'huile est chargée dans un alambic, et de la soude caustique et de l'oxyde noir de manganèse (dans la proportion d'environ 5 pour 100 de soude et de 2 pour 100 de manganèse) sont ajoutés, et la charge distillée par un courant de vapeur passée dans l'huile, aidé d'un feu sous l'alambic, jusqu'à ce que le goudron et le coke restent seuls. La distillation commence à environ 350° Fahrenheit, et le feu étant attisé, la température dans l'alambic s'élève graduellement à environ 800°, alors que la poix épaisse reste seule dans l'alambic.

Par l'usage de la vapeur comprimée l'huile peut être distillée sans presque pas de décomposition, et la distillation, qui est d'un rouge clair jaunâtre, peut être convertie en une résine inférieure en l'oxydant au moyen d'un courant d'air chaud. La résine produite par cette oxydation d'huile de boue est distinguée de toutes autres résines et substances résineuses connues par son effet en le mêlant à différents acides et fondants. Elle varie en couleur de jaune à rouge grenat foncé, selon la méthode de sa production. Elle est dure, cassante, et sans odeur aux températures ordinaires, sans goût, insoluble, et n'est pas affectée par l'eau, la soude, la potasse, et l'ammoniaque, même lorsque chauffée.

L'alcool de 95 pour cent ne dissout que de petites quantités de cette résine, même lorsqu'elles sont bouillies ensemble. Le pétrole-naphthe la dissout rapidement sans l'aide de la chaleur, produisant un vernis. L'esprit de térébenthine la dissout facilement, la résine fondue formant un vernis. La benzole, le chloroforme, et le bisulfite de carbone dissolvent la résine, la solution étant aidée par la chaleur. L'éther et un mélange d'éther et d'alcool, en parties égales, la dissolvent facilement, mais pas aussi rapidement que l'éther pur. L'huile de lin et l'huile d'olive dissolvent la résine fondue. Une solution de la résine dans de l'huile de lin et de l'esprit de térébenthine forme un "vernis à l'huile." L'acide sulfurique concentré les dissout complètement ; la résine se sépare de nouveau en ajoutant de l'eau. L'acide nitrique l'attaque violemment et la convertit en une substance brune goudronneuse ou gommeuse, ayant une odeur agréable et particulière. L'acide hydrochlorique ne semble presque pas l'affecter.

Il est bien connu qu'il a été proposé d'employer l'huile de boue comme huile à peinture, mais ce projet n'a pas réussi. Je ne veux pas qu'on croie toutefois, que je réclame un procédé pour débarrasser l'huile de boue de l'acide au moyen de l'eau et de soude caustique, ou de la purifier encore plus en la soumettant à la distillation, ou en y passant de la vapeur afin d'en enlever les impuretés, toutes choses qui ont été pratiquées depuis la découverte du procédé actuel de raffiner le pétrole. Je ne veux pas non plus réclamer dans la présente demande la substance résineuse produite par mon procédé, vu que cela forme le sujet d'une autre demande de lettres patentes par moi.

Je réclame—

1. Le procédé ici décrit pour produire de l'huile de boue une substance résineuse possédant les propriétés décrites, qui consiste à combiner l'oxygène de l'air avec l'huile de boue à l'aide d'un degré modéré de chaleur.

2. Le procédé de produire de l'huile de boue une substance d'une nature résineuse qui consiste à traiter l'huile de boue chauffée à une température modérée, avec de l'air et autres agents oxydants, tel que décrit en substance.

3. Le procédé de traiter de boue afin d'en obtenir une substance résineuse, qui consiste à purifier cette huile, d'en distiller les substances volatiles qui s'y trouvent, de chauffer le résidu à une température de 200e à 300e Fahrenheit, et d'y passer de l'air tandis qu'elle est ainsi chauffée, tel que décrit en substance.

(Une spécification et une copie d'icelle.)

POUR UNE COMPOSITION DE MATIÈRES.

A tous les intéressés :

Sachez que je, Ebenezer Whitney, de la cité de Charleston, dans le district de Charleston, et l'Etat de la Caroline du Sud, bourgeois, suis l'administrateur de la succession de Benjamin Browning, en son vivant de la dite cité, bourgeois, et que le dit Benjamin Browning a inventé une certaine nouvelle et utile composition de matières qui doit servir pour enlever le poil et la graisse des peaux avant le tannage (pour laquelle j'ai obtenu un brevet dans [*donnez ici le nom du pays*] (No. daté 189) dont ce qui suit est une spécification :

La composition du dit Benjamin Browning consiste des ingrédients suivants, combinés dans les proportions indiquées, savoir :—

Eau substantiellement pure	500	gallons.
Chaux vive	350	livres.
Carbonate de soude........................	100	"
Salpêtre (nitrate de métaux alcalins)	20	"
Soufre (fleurs de soufre préférable).	10	"

Ces ingrédients doivent être parfaitement mélangés en les agitant.

En se servant de la composition susdite les peaux doivent d'abord être débarrassées de tous sels et impuretés, en faisant tremper les peaux vertes un jour et les peaux sèches huit jours. Les peaux ainsi nettoyées sont alors placées dans la dite solution, et y sont laissées pendant quarante-huit heures. Elles doivent alors être sorties de la solution et le poil enlevé de la manière ordinaire.

Par l'emploi de la susdite composition le poil est promptement et parfaitement détaché, et les peaux, tout en retenant toute cette partie de la substance qui peut être convertie en cuir, sont en même temps entièrement nettoyées de la graisse et autres substances qui les empêcheraient d'être tannées promptement.

Je sais qu'une composition consistant en carbonate de soude, d'eau, de chaux et de soufre a été employée pour le même objet, et qu'un brevet pour icelle a été accordée à C.D., 10 juillet, 18 No. . Je sais aussi que le salpêtre a été employé dans des procédés dépilatoires ; mais je ne sache pas que tous les ingrédients de ma composition aient été employés ensemble.

Ce que je réclame et désire obtenir par lettres patentes de la Puissance du Canada, est ce qui suit :—

1. La composition ici décrite de matière, consistant d'eau, de chaux vive, de carbonate de soude, de salpêtre et de soufre, tel que décrit en substance et pour les fins spécifiées.

2. La composition ici décrite de matière pour dépiler et préparer les peaux pour le tannage, consistant d'eau pure, cinq cents gallons ; de chaux vive, trois cent cinquante livres ; de carbonate de soude, cent livres ; de salpêtre, vingt livres, et de fleurs de soufre, dix livres, tel que décrit.

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

SUR un rapport daté du 7 de juin 1898, du ministre de l'Intérieur, disant que le Conseil Exécutif de la province du Manitoba a passé un arrêté autorisant l'ouverture d'une nouvelle réserve de chemin sur le quart nord-ouest de la section 28, township 10, rang 10 à l'ouest du 1er méridien, et qu'il a déposé au Secrétariat d'Etat une copie de l'arrêté ainsi qu'un plan qui l'accompagne. L'arrêté énonce que ce chemin " est nécessaire et avantageux pour les fins d'établissement et de colonisation, et pour la commodité du public," etc.

Le Ministre recommande donc que l'assentiment de Votre Excellence soit donné à l'ouverture du dit chemin qui est coloré rose sur le plan ci-joint, et qu'il soit transféré à la Couronne à la province du Manitoba, pour les fins d'un chemin public, tel que prévu par la clause 7 du chapitre 30 de l'Acte 58-59 Victoria.

Le comité soumet ce qui précède à l'approbation de Votre Excellence.

Vendredi, le 24e jour de juin 1898.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

SUR un memorandum daté le 30 de mai 1898, du ministre de l'Intérieur, soumettant que sur un rapport daté le 24 décembre 1894, du ministre de l'Intérieur alors en exercice, énonçant qu'il lui avait été représenté de la part des colons Mennonites au Manitoba que leurs deux réserves dans cette province étaient encombrées partie par l'affluence de leurs compatriotes venus des Etats-Unis et de l'Europe, et partie par l'accroissement naturel qui a eu lieu depuis leur premier établissement au Manitoba, et que, pour faire face aux besoins croissants de leurs familles, et pour encourager l'établissement de leurs compatriotes en Canada, il était devenu nécessaire de demander au gouvernement d'établir une réserve pour eux à même les terres dans le district de Prince Albert, un arrêté de Son Excellence en conseil fut rendu en date du 23 de janvier 1895, réservant pour inscription par les mennonites seulement, les sections impaires (à l'exception des terres de la Compagnie de la Baie d'Hudson) qui étaient à la disposition du gouvernement dans les townships 40, rangs 3, 4 et 5, et le township 41, rang 4, tous à l'ouest du 5e méridien.

Les Mennonites disent maintenant que le mouvement dans le district de Prince Albert se développe beaucoup, et qu'il y a au delà de soixante-dix familles qui partent ce printemps pour ce nouveau district, et vu qu'ils considèrent que la réserve est déjà insuffisante, ils ont demandé que le township 41, rang 3 à l'ouest du 3e méridien lui soit ajouté.

Le Ministre dit que ces gens ont été de bons colons, et ont toujours fidèlement rempli les obligations relatives à l'établissement entreprises par eux, et il considère que c'est dans l'intérêt public de les encourager dans leurs efforts pour développer l'établissement, et à cette fin il est nécessaire de donner aux colons en perspective l'assurance qu'ils pourront mettre à exécution les principes de leur système social et de s'établir ensemble par hameaux (système prévu par l'article 37 de l'*Acte des terres fédérales*) en obtenant des inscriptions pour des terres contiguës.

A ces causes le Ministre recommande qu'il soit autorisé à réserver pour inscription par les Mennonites seulement, les sections impaires (à l'exception des terres de la Compagnie de la Baie d'Hudson) dans le township 41, rang 3 à l'ouest du 3e méridien, en tant que le gouvernement peut en disposer.

Le comité conseille que l'autorisation requise doit donnée en conséquence.

H. G. LaMOTHE,
2–4 Greffier-adjoint du Conseil privé.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

SUR un rapport daté le 18 de juin 1898, du ministre de l'Intérieur, énonçant que par arrêté en conseil du 22 de janvier 1872, un bloc de terre à Winnipeg, contenant environ 50 acres, fut réservé pour des fins publiques, à même les terres qui constituaient autrefois la réserve faite par la Compagnie de la Baie d'Hudson à Fort Garry en haut. Subséquemment, par arrêté en conseil du 10 d'avril 1874, la moitié est de ce bloc de terre, sur lequel les édifices du gouvernement provincial sont situés, fut transférée à la province du Manitoba.

Le Ministre dit, de plus, qu'il est maintenant représenté qu'une partie de la balance de la réserve fédérale est requise par l'Université du Manitoba, et il est d'avis que cette demande devrait être accordée.

Le Ministre recommande qu'une partie de la dite réserve colorée rose sur le plan ci-joint, et contenant environ 6·60 acres, soit accordée au gouvernement de la province du Manitoba pour des fins d'éducation.

Le comité soumet ce qui précède à l'approbation de Votre Excellence.

Règles *in re* Avis de bills privés.

Dans le cas de toute demande de bills privés, proprement du ressort législatif du Parlement du Canada suivant les dispositions de l'Acte de l'Amérique Britannique du Nord, 1867, ayant pour objet la concession à une ou plusieurs personnes de certains droits ou privilèges exclusifs ou particuliers, ou le pouvoir de faire quelque chose qui, dans ses effets, pourrait toucher aux droits ou à la propriété d'autrui, ou concerner une classe particulière de la société ; ou ayant pour objet quelque amendement à un acte antérieur,—un avis, énonçant d'une manière claire et intelligible la nature et l'objet de la demande (sauf s'il s'agit de corporations déjà existantes) par les pétitionnaires ou de leur part est nécessaire et doit être publié comme il suit :—

Dans les provinces de Québec et du Manitoba.

Dans la *Gazette du Canada* en anglais et en français ainsi que dans un journal anglais et un journal français, du district intéressé, ou en anglais et en français dans le même journal, s'il ne s'en publie qu'un seul dans ce district ; ou s'il n'y paraît pas de journal, alors la publication de l'avis en anglais et en français doit se faire dans un journal du district le plus voisin où il s'en publie.

Dans les autres provinces ou territoires.

Dans la *Gazette du Canada*, et dans un journal du comté, du district ou des comtés-unis intéressés, ou s'il n'y paraît pas de journal alors la publication doit se faire dans un journal du comté ou district le plus voisin où il s'en publie. La publication de ces avis durera, dans chaque cas, la période de deux mois au moins pendant l'intervalle de temps qui s'écoulera entre la clôture de la session précédente et la prise en considération de la pétition. Des exemplaires marqués de tous les numéros des journaux reproduisant la première et la dernière insertion de l'avis, devront être transmis au greffier de chaque Chambre, et porter à l'endos "Demande de bill privé."

Si la pétition demande l'autorisation de présenter un bill privé ayant pour objet la construction d'un pont de péage, les pétitionnaires devront aussi, en même temps et de la même manière, donner avis du taux de péages projeté, de l'étendue du privilège, de la hauteur des arches, de l'espace à laisser libre entre les culées ou les piles pour le passage des radeaux et des navires ; et, si c'est un pont mobile, quelles en seront les dimensions.

Toute personne désirant obtenir un bill privé devra, dans les huit jours au moins qui précéderont l'ouverture du parlement, déposer au bureau du greffier de la Chambre dans laquelle le bill doit prendre naissance, une copie de ce bill en langue anglaise ou en langue française, avec une somme suffisante pour en payer la traduction et l'impression. Après la seconde lecture et avant la prise en considération du bill par tout comité, le pétitionnaire aura aussi à payer au greffier du Sénat, ou au comptable de la Chambre des Communes (selon le cas) un honoraire de $200, plus une somme suffisante pour défrayer le coût de l'impression de l'acte dans les Statuts, et remettra le reçu de ce paiement au greffier du comité auquel ce bill aura été renvoyé.

L'honoraire de $200 payable sur tout bill privé, ne sera payé que dans la Chambre où ce bill a pris naissance ; mais les frais de réimpression et de traduction nécessités par ce bill seront payés dans la Chambre où ces frais sont encourus.

Aucune pétition pour l'obtention d'un bill privé ne sera reçue par le Sénat ou par la Chambre des Communes, après les premières trois semaines de la session.

Aucun bill privé ne pourra être présenté au Sénat ou à la Chambre des Communes après les premières quatre semaines de la session.

49. (*c*.) Chaque fois qu'un bill doit opérer dans plus d'une province, territoire ou district, l'avis sera publié dans la *Gazette du Canada* et dans un journal bien établi publié dans chaque province, territoire ou district où le bill doit opérer.

Ordre permanent.

Lorsqu'un bill confirmant un bail, une convention ou toute autre espèce de contrat, sera reçu ou présenté au Sénat, ce bail, cette convention ou cette autre espèce de contrat sera exposé dans un appendice ou autrement.

EDOUARD J. LANGEVIN,
Greffier du Sénat.

Règles additionnelles de la Chambre des Communes concernant les bills privés.

Tous les bills privés demandant des actes constitutifs devront être rédigés de manière à y incorporer, en les spécifiant, les *clauses* des Actes généraux concernant les détails qui font l'objet de ces bills ; des raisons spéciales seront données chaque fois que l'on aura l'intention de se départir de ce principe, ou que l'on voudra y introduire d'autres dispositions touchant ces détails ; et une note sera annexée au bill indiquant les dispositions au sujet desquelles l'on entend s'écarter de l'Acte général ; les bills qui ne seront pas rédigés conformément à cette Règle, devront être remodelés par les auteurs et réimprimés à leurs frais, avant qu'aucun comité en examine les clauses.

49. Les pétitions pour bills privés ne seront reçues par la Chambre que pendant les trois premières semaines de la session, et les bills privés ne pourront être présentés à la Chambre que pendant les quatre premières semaines de la session ; et tout comité auquel aura été renvoyé un bill privé devra le prendre en considération et en faire rapport à la Chambre avec toute la diligence convenable.

JOHN GEORGE BOURINOT,
Greffier des Communes.

SUBSTANCE DES RÈGLES ET FORMES DE PROCÉDER DU SÉNAT CONCERNANT LES BILLS DE DIVORCE.

L'époux qui a l'intention de demander un bill de divorce doit faire connaître cette intention, ainsi que les noms de l'autre époux et la cause du divorce, par avis inséré durant six mois avant la présentation de sa pétition pour obtenir le bill, dans la *Gazette du Canada* et dans deux journaux du district où il avait sa résidence habituelle à l'époque de séparation d'avec son conjoint, s'il résidait alors dans la province de Québec, le Manitoba, la Colombie-Britannique, ou les Territoires du Nord-Ouest,—ou du comté ou des comtés-unis, s'il résidait dans une autre province ; mais si ce nombre de journaux ne s'y trouve pas, l'avis sera publié dans le district, le comté ou les comtés-unis voisins. Il doit être signifié, à la diligence de l'époux pétitionnaire, un mois au moins avant la présentation de la pétition, une copie de cet avis à l'autre époux en personne, si cela est possible.

Aucune pétition en divorce n'est reçue après l'expiration des trente premiers jours de la session.

Toute pétition en divorce devra être écrite lisiblement et porter la signature du pétitionnaire. Elle énoncera sommairement le fait du mariage, le lieu et l'époque de sa célébration, les noms du célébrant, les griefs qui donnent lieu à la demande de redressement et la nature du redressement demandé, et en outre contiendra assurance qu'il n'y a pas eu réconciliation, collusion ni connivence. Les allégations de la pétition seront appuyées de la déclaration du pétitionnaire faite en vertu de "l'Acte de la preuve en Canada, 1893."

Huit jours avant l'ouverture du Parlement, le pétitionnaire déposera au bureau du greffier du Sénat, une copie en langue anglaise ou française du bill de divorce qui doit être présenté, et en même temps une somme suffisante pour payer la traduction et l'impression et tirage à 600 exemplaires anglais et 200 exemplaires français de ce bill.

PATENTS OF INVENTION.

RULES AND FORMS OF THE CANADIAN PATENT OFFICE.

By Order in Council, dated 27th June, 1898.

1. A personal appearance of the applicant, or his representative, at the Patent Office is not required, unless specially called for by the Commissioner or Deputy Commissioner.

2. In all cases the applicant or depositor of any paper is responsible for the merits of his allegations, and the validity of the instruments furnished by him or his agent.

3. Correspondence may be carried on either with the applicant, or his agent, but only with one person, and will be conveyed through the Canadian mails free of charge.

4. All documents must be legibly and neatly written or printed on foolscap paper, 13 inches long and 8 wide, with an inner margin of one inch and a half wide.

5. All communications are to be addressed—"*The Commissioner of Patents, Ottawa, Canada.*" Papers forwarded to the Office should be accompanied by a letter, and a separate letter should be written on every subject.

6. As regards proceedings not specially provided for in the accompanying forms, any other form being conformable to the letter and spirit of the law may be accepted, and if not conformable therewith will be returned for correction.

7. Models need only be furnished when required by the Commissioner, and must be neat and substantial working ones, not exceeding 12 inches on the longest side, unless otherwise allowed by special permission ; models must be so constructed as to show exactly every part of the invention claimed and its mode of working. In cases were samples of ingredients are required by law, they must be contained in glass bottles properly arranged ; but dangerous or explosive substances must not be sent. Both models and bottles must bear the name of the inventor, the title of the invention and date of the application ; they must be furnished to the Patent Office free of charge and in good order.

8. All fees should be transmitted with the application for any action by the office. Remittances must be in current bankable funds, bank drafts, money orders, or certified cheques. Money sent by mail should be in registered letters and is at the risk of the sender. Drafts, money orders and cheques should be made payable to the Commissioner of Patents, Ottawa.

9. An application for a Patent must be proceeded with and made perfect for examination within two years after the lodging of the petition, or upon failure of the applicant to prosecute the same within two years after any action therein, in default of which it will be regarded as abandoned, as well as all proceedings had in relation thereto, and any fees paid will be held at the expiration of that period to be forfeited, unless the Commissioner is satisfied that the cause of the delay was not the fault of the applicant.

10. Two or more separate inventions cannot be claimed in one application, nor included in one Patent. But if separate matters are represented to be so dependent on, and connected with each other as to be necessarily taken together, to obtain the end sought for by the inventor, the Commissioner of Patents shall be the judge whether or not the pretentions of the applicant in such respect can be entertained.

11. The filing of a protest against the issuing of a Patent shall not be taken in itself as sufficient reason to withhold the granting of such Patent to an applicant.

12. A *Caveat* can only be filed by an inventor, and shall be composed of a specification (*and drawings*), certified on oath [Form No. 23] and the applicant may, while it is pending, lodge additional papers, provided they relate exclusively to the same invention. The person filing a *Caveat* will not be entitled to notice of any application pending at the time of filing his *Caveat*. A *Caveat* must be limited to a single invention.

The specification of a *Caveat* should be sufficiently precise to enable the Office to judge whether there is a probable interference when a subsequent application is filed.

13. Drawings in duplicate, to be attached to the duplicate specification, must be made in India or carbon ink, on sheets of tracing cloth other than Linaura or similar fabric, eight by thirteen inches, neatly executed and without colours.

DRAWINGS.

(*To be in duplicate.*)

Each sheet on tracing linen shall contain the following : The title of the invention on the top of the sheet ; the following certificate at the bottom : "Certified to be the drawings referred to in the specification hereunto annexed," and signed by the inventor or his attorney; place, date, and signature of two witnesses.

All drawings must be clear, sharp, well-defined, not too fine *and perfectly black.*

Lines that are pale, ashy, very fine, ragged or broken, give bad results when photo-lithographed.

Brush-shading, tinting and imitation surface graining should never be used; and in fine-shading the result should be attained with as few lines as possible

Section lines also should be as open in their spacing as the case will admit of, and these, as well as all right lines, in order to insure clearness, should be made with a ruling pen. The shading of convex and concave surfaces may be dispensed with when the invention is otherwise well illustrated.

Shade lines may sometimes be used with good effect, but heavy shadows where they would obscure lines or letters of reference, should be avoided.

With each application an extra full set of drawings must be supplied on double Bristol Board, 8 by 13 inches, without writing on its face, merely the usual lettering; no title, certificate, nor signatures; on the back of the sheet the name of the inventor and the title of the invention must be written in pencil.

The card board drawing should be rolled on a roller for transmission to the office, as folding will prevent its usefulness for photo-lithographing.

14. In the matter of a re-issue, under section 23 of the Act, whatever is really embraced in the original application and so described or shown in the same, that it might have been embraced in the original Patent, may be ground for a re-issue. No new matter can be introduced into the specifications, nor shall the models or drawings be amended except each by the other. In the absence of model or drawing, the re-issue may contain amendments, upon satisfactory proof to the Commissioner that such amendments were part of the invention, although omitted in the original application. Separate patents may be issued for each separate and distinct part of the invention, comprehended in the original patent.

15. Information in relation to pending cases will be furnished only so far as it becomes necessary in conducting the business of the Office.

16. The Office can not respond to inquiries as to the probability of an alleged invention being patented in advance of an application for a Patent; nor to inquiries founded on brief or imperfect descriptions, propounded with a view of ascertaining whether alleged improvements have been patented, nor unless the name of the patentee, and, as nearly as possible, the date of the Patent be given; nor can it act as an expounder of the Patent Law, nor as counsellor for individuals, except as to questions within the Office.

In order to avoid unnecessary explanations and useless loss of time and labour, it is particularly recommended that reference be made to the law before writing on any subject to the Patent Office.

A copy of the Rules with a particular section marked, sent to any person making an inquiry, will be deemed a respectful answer by the Office.

17. It is desirable, both in the interests of the applicant and of the public service, that the papers and drawings should be prepared by competent persons. Therefore, the applicant is advised, unless himself competent to draw up papers, in connection with the application, to employ a skilled attorney, as the value of patents is largely based upon the ability with which the specification and claims have been prepared. The Office will always decline to advise the selection of an attorney.

18. All business with this Office should be transacted in writing. The action of the Office will be based exclusively on the written record. No attention will be paid to any alleged verbal promise or understanding in relation to which there is any disagreement or doubt.

19. Assignments of Patents are to be accompanied by a copy thereof; the original will be kept in the Patent Office, and the copy will be returned to the person sending it, with certificate of registration thereon.

20. All cases connected with the intricate and multifarious proceedings arising from the working of the Patent Office, which are not specially defined and provided for in these Rules, will be decided in accordance with the merits of each case under the authority of the Commissioner; and such decision will be communicated to the interested parties in writing.

21. Applications for patents sent to this Office, unaccompanied by the fee provided by law; will receive no official recognition, nor be filed nor numbered; they will merely be pigeon-holed, and only marked filed the day on which the fee shall have been received.

22. The applicant has a right to amend before or after the first rejection or action; and he may amend as often as the examiner presents new references or reasons for rejection. In so amending, the applicant must clearly point out all the patentable novelty which he thinks the case presents in view of the state of the art disclosed by the references cited or the objections made. He must also show how the amendments avoid such references or objections.

23. The specification and drawing must be amended and revised when required, to correct inaccuracies of description or unnecessary prolixity and to secure correspondence between the claim, the specification and the drawing. But no change in the drawing may be made except by written permission of the office.

24. In every amendment the exact word or words to be stricken out or inserted in the application must be specified and the precise point indicated where the erasure or insertion is to be made. All such amendments must be on sheets of paper separate from the papers previously filed, and written on but one side of the paper. Erasures, additions, insertions or mutilations of the papers and records must not be made by the applicant.

25. Amendments require the signature of the applicant or his attorney.

26. When an amendatory clause is amended, it must be wholly rewritten, so that no interlineation or erasure shall appear in the clause, as finally amended, when the application is passed to issue. If the number or nature of the amendments shall render it otherwise difficult to consider the case or to arrange the papers for printing or copying, the Examiner or Commissioner may require the entire specification to be rewritten.

FORM 13.

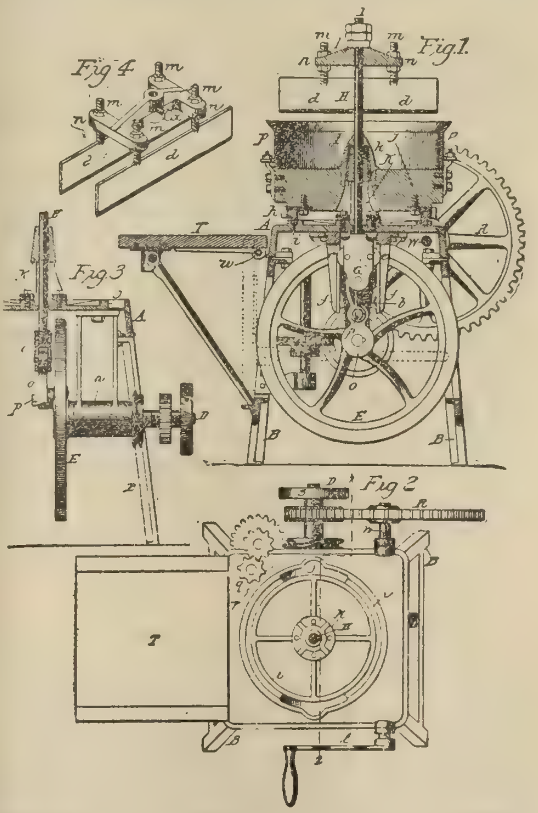
FOR A MACHINE.

To all whom it may concern :

Be it known that I, William Woodworth, of the Town of Poughkeepsie, in the County of Duchess, in the State of New York, gentleman, having invented certain new and useful improvements in Meat Chopping Machines (for which I have obtained a patent in [here name the country] No. bearing date 189) ;* do hereby declare that the following is a full, clear, and exact description of the same.

My invention relates to improvements in meat-chopping machines in which vertically-reciprocating knives operate in conjunction with a rotating chopping-block ; and the objects of my improvement are, first, to provide a continuously-lubricated bearing for the block ; second, to afford facilities for the proper adjustment of the knives independently of each other in respect to the face of the block ; and, third, to reduce the friction of the reciprocating rod which carries the knives.

I attain these objects by the mechanism illustrated in the accompanying drawing, in which—



Certified to be the Drawings referred to in the specification hereunto annexed.
(Place and date.)
(Signature of Inventor or his Attorney.)
(Signature of two witnesses.)

---

* NOTE.—If no foreign patent has been obtained, the words in parentheses should be omitted.

Figure 1 is a vertical section of the entire machine; Fig. 2, a top view of the machine as it appears after the removal of the chopping-block and knives; Fig. 3, a vertical section of a part of the machine on the line 1, 2, Fig. 2; and Fig. 4, a detailed view in perspective of the reciprocating crosshead and its knives.

Similar letters refer to similar parts throughout the several views.

The table or plate A, its legs or standards BB, and the hanger *a*, secured to the under side of the table, constitute the frame-work of the machine. In the hanger *a* turns the shaft D, carrying a fly-wheel E, a crank-pin, on the hub of which is connected by a link *b* to a pin passing through a cross-head G, and to the latter is secured a rod H, having at its upper end a cross-head I, carrying the adjustable chopping-knives *d d*, referred to hereinafter.

The cross-head G, reciprocated by the shaft D, is provided with antifriction rollers, *e e*, adapted to guides *f f*, secured to the under side of the table A, so that the reciprocation of this cross-head may be accompanied with as little friction as possible.

To the under side of a wooden chopping-block J is secured an annular rib *h* adapted to and bearing in an annular groove *i* in the table A. (See Figs. 1 and 2.) This annular groove or channel is not of the same depth throughout, but communicates at one or more points (two in the present instance) with the pockets or receptacles *j j*, deeper than the groove, and containing supplies of oil in contact with which the rib *h* rotates, so that the continuous lubrication of the groove and rib is assured. The rod H passes through and is guided by a central stand K, secured to the table A, and projecting through a central opening in the chopping-block without being in contact therewith, the upper portion of the said stand being contained within a cover *k*, which is secured to the block, and which prevents particles of meat from escaping through the central opening of the same.

The cross-head I, previously referred to, and shown in perspective in Fig. 4, is vertically adjustable on the rod H, and can be retained after adjustment by a set-screw *x*, the upper end of the rod being threaded for the reception of nuts, which resist the shocks imparted to the cross-head when the knives are brought into violent contact with the meat on the chopping-block.

The knives *d d* are adjustable independently of each other and of the said cross-head, so that the coincidence of the cutting-edge of each knife with the face of the chopping-block may always be assured.

I prefer to carry out this feature of my invention in the manner shown in Fig. 4, where it will be seen that two screw-rods *m m* rise vertically from the back of each knife and pass through lugs *n n* on the cross-head, each rod being furnished with two nuts, one above and the other below the lug through which it passes. The most accurate adjustment of the knives can be effected by the manipulation of these nuts.

A circular casing *p* is secured to the chopping-block, so as to form on the same a trough P for keeping the meat within proper bounds; and on the edge of the annular rib *h*, secured to the bottom of the block, are teeth for receiving those of a pinion *q*, which may be driven by the shaft D through the medium of any suitable system of gearing, that shown in the drawing forming no part of my present invention.

This shaft D may be driven by a belt passing round the pulleys *s*, or it may be driven by hand from a shaft W, furnished at one end with a handle *t*, and at the other with a cog-wheel R, gearing into a pinion on the said shaft D.

A platform T may be hinged, as at *w*, to one edge of the table A, to support a vessel in which the chopped meat can be deposited. The means by which it may be supported, and the most convenient method of disposing of it when not in use, are shown in Fig. 1.

I am aware that prior to my invention meat-chopping machines have been made with vertically-reciprocating knives operating in conjunction with rotating chopping-blocks. I therefore do not claim such a combination broadly; but

What I do claim as my invention, and desire to secure by letters patent, is:—

1. The combination, in a meat-chopping machine, of a rotary chopping-block having an annular rib, with a table having an annular recess and a pocket communicating with the said recess, all substantially as set forth.

2. In a meat-chopping machine, the combination of a rotary chopping-block with a reciprocating cross-head carrying knives, each of which is vertically adjustable on the said cross-head independently of the other, substantially as described.

3. The knife *d*, having two screw rods, *m m*, attached to its back, substantially as shown, for the purpose specified.

4. The combination, in a meat-chopping machine, of the reciprocating rod, carrying the knives, the cross-head secured to the said rod, and having anti-friction rollers, with guides, adapted to the said rollers, all substantially as set forth.

FOR AN ART OR PROCESS.

To all whom it may concern:

Be it known that we, Marion Ellsworth, of Chicago, County of Cook, and State of Illinois, gentleman, and Joseph Richard Shaw, of Indianapolis, County of Marion, and State of Indiana, gentleman, have jointly invented certain new and useful Process of Treating Sludge Oil, in order to obtain from it a resinous substance, (for which I have obtained a patent in [here name the country], No. , bearing date 189), of which the following is a specification:

In the purification of hydrocarbon oils produced by the distillation of crude petroleum, asphalts, or bitumens, or by the destructive distillation of coal, resins, or bituminous shales, the oils are agitated with 2 per cent or more of concentrated sulphuric acid (60° Baumé, 1·86 specific gravity) in order to remove certain oils contained in the distillate which would, in course of time, absorb oxygen from the air, and cause the oil to become dark-coloured and gummy, and also to remove tarry substances and the disagreeable odour. Sulphuric acid combines chemically with these bodies and dissolves them, forming a dark-red, heavy liquid, which settles on the bottom of the agitator, and can then be readily drawn off from the purified oil. This peculiar compound of sulphuric acid and hydrocarbon oils, dissolved in the excess of acid, is known as "sludge." At present it is purchased by superphosphate manufacturers, who mix it with a little water, which decomposes the compound of acid and oil, producing a weaker acid (about 50° Beaumé) used in the manufacture of superphosphate of lime, and a dark coloured offensive oil, which rises to the surface of the acid, and usually is thrown away, no commercial use having been found for it. This waste product is called "sludge oil."

The mode of practising my invention is as follows: In my process, when the sludge has been decomposed by the addition of water, the sludge oil is drawn off, and is then purified by repeated washings with water, until the acid remaining in it is removed. For this purpose equal volumes of water and sludge oil may be used; but the washing can be effected by a less quantity of water. The acid remaining in the oil, if any, is then neutralized with quicklime or caustic soda. The purified oil has a strong and somewhat disagreeable odour, and contains about 10 per cent of volatile oils, which are converted into a hard resin with difficulty. To remove these volatile substances, the sludge oil thus purified is introduced into a still with the addition of from 2 to 4 per cent of caustic soda and about 2 per cent of the oxides of lead or manganese, to oxidize any sulphurous body which may be in the oil and combine with it, and steam is then blown through the oil, the oil being kept hot either by a fire under the still or by the use of steam heated to the required temperature (between 212° and 450° Fahrenheit). The action of the steam is continued until no more volatile oils are removed (usually from five to ten hours). The steam is then shut off, and the contents of the still allowed to settle, when a sediment of tarry impurities and soda subsides, from which the pure oil may be drawn off. The oil is then introduced into a still or tank, and oxidized by blowing currents of air through it, the oil being kept at a moderate temperature (from 200° to 300° Fahrenheit), either by a slow fire under the still, or by a steam coil in the bottom of the tank, or by heating the air by a hot-blast oven to the proper temperature before it is blown through the oil, and the action of the air is continued until complete oxidation is effected, and a sample on cooling solidifies to a more or less hard resin.

The time required to effect the oxidation varies with the working temperature and with the extent of surface of oil brought in contact with the air. I may define it as between four and twelve days. The action of the air upon the oil is stopped when samples on cooling, taken from the contents of the still, are found to be of the proper degree of hardness and toughness for the particular purpose to which the product is to be applied, and after letting the contents of the still settle the hot resin is drawn off from the sediment of soda and impurities.

The action of the air may be accelerated by adding other oxidizing agents—for example, about 2 per cent of the oxides of lead or manganese, or about 2 per cent of the manganates of soda and potassa to the oil. These substances act either by giving up oxygen to the oil or by their presence inducing a combination of the oxygen and the hydrocarbon.

An inferior quality of resin may be produced by treating the washed sludge oil in a still with caustic soda and litharge (5 per cent soda to 1 to 2 per cent litharge) and blowing a current of air through it at about the temperature of 350° Fahrenheit, which at the same time oxidizes the oil and removes the more volatile portions, which are distilled off until it is converted into a resin, which, on cooling, becomes hard and brittle. This process last mentioned requires from two to six days, but the resin produced is darker in colour than that made by first treating with steam and then with air at a lower temperature, as the colouring matter is not affected by steam at 400°, while air at that temperature rapidly darkens it by oxidation. Sunlight bleaches the colour of sludge oil, and, at the same time, greatly accelerates the absorption of oxygen from the air. To produce the lightest-coloured resins the sludge oil is steamed with 5 per cent of a solution of soda, 20° Baumé, at a low temperature (about 200° to 250° Fahrenheit for ten hours), to remove the more volatile portions, and then oxidized and bleached by exposing the oil, in shallow tanks covered by glass, to the action of the sunlight, the oil being kept hot and fluid by a steam coil in the bottom of the tank, and currents of air blown through it to produce the oxidation.

Inferior qualities of sludge oil, as those produced in the purification of lubricating oils, and which contain a large quantity of tarry substances, are treated as follows: The oil is charged in to a still, and caustic soda and black oxide of manganese (in the proportion of about 5 per cent of soda and 2 per cent of manganese) are added, and the charge distilled by a current of steam blown through the oil, assisted by a fire under the still, until only tar and coke remain behind. The distillation commences at about 350° Fahrenheit, and, the fire being increased, the temperature in the still gradually rises to about 800°, when only the thick pitch remains in the still.

By the use of steam under pressure the oil can be distilled with scarcely any decomposition, and the distillate, which is of a yellow light-red colour, can be converted into a superior resin by oxidizing it with a current of hot air. The resin produced by this oxidation of sludge oil is distinguished from all other known resins and resinous substances by its behaviour with different chemicals and solvents. It varies in colour from yellow to dark garnet red, according to the method of its production. It is hard, brittle, and odourless at ordinary temperatures, tasteless, insoluble, and not acted upon by water, soda, potassa, and ammonia, even when heated.

Alcohol of 95 per cent dissolves but small quantities of this resin, even when boiled with it. Petroleum-naphtha dissolves it very quickly without the aid of heat, producing a varnish. Spirits of turpentine readily dissolves the melted resin, forming a varnish. Benzole, chloroform, and bisulphide of carbon all dissolve the resin, the solution being aided by warming. Ether and a mixture of ether and alcohol, in equal parts, quite readily dissolve it, but not so readily as pure ether. Linseed oil and olive oil dissolve the melted resin. A solution of the resin in linseed oil and spirits of turpentine forms an "oil varnish." Concentrated sulphuric acid dissolves it completely; the resin separates again on adding water. Nitric acid attacks it violently and converts it into a brown tarry or gummy substance, having a pleasant, peculiar odour. Hydrochloric acid seems to have little or no action on it.

It is well known that it has been proposed to use sludge oil as a paint oil, but this has not been attended with practical success. I do not wish to be understood, however, as making claim, broadly, to a process for freeing sludge oil from the acid by the use of water and caustic alkalies, or by still further purifying it by subjecting it to distillation, or by blowing steam through it, for the purpose of removing impurities, all of which, it is well known, have been practised since the discovery of the present processes of refining petroleum. Nor do I wish to be understood as laying claim in this application to the resinous substance produced by my process, as that forms the subject-matter of another application by me for letters patent.

I claim—

1. The process herein described for producing from sludge oil a resinous substance possessing the properties described, which consists in combining the oxygen of the air with the sludge oil with the aid of a moderate degree of heat.

2. The process of producing from sludge oil a substance of a resinous character, which consists in treating the sludge oil while heated to a moderate temperature, with the air and with other oxiding agents, substantially as described.

3. The process of treating sludge oil in order to obtain from it a resinous substance, which consists in purifying such oil, distilling from it the volatile substances present therein, heating the residue of a temperature of from 200° to 300° Fahrenheit, and blowing air into it while it is so heated, substantially as described.

FORM 16.

(One executed Specification and copy thereof.)

FOR A COMPOSITION OF MATTERS.

To all whom it may concern:

Be it known that I, Ebenezer Whitney, of the City of Charleston, in the District of Charleston and State of South Carolina, gentleman, am the administrator of the estate of Benjamin Browning, in his lifetime of the said city, gentleman, and that the said Benjamin Browning did invent a certain new and useful Composition of matter to be used for the removal of Hair and Grease from Hides preparatory to tanning (for which I have obtained a patent in [here name the country], (No. , dated , 189) of which the following is a specification:

The composition of the said Benjamin Browning consists of the following ingredients, combined in the proportions stated, viz. :

Water substantially pure	500 gallons
Unslacked lime	350 pounds
Soda-ash (sodium carbonate)	100 pounds
Saltpetre (nitrate of an alkali metal)...	20 pounds
Sulphur (preferable flowers of sulphur)	10 pounds

These ingredients are to be thoroughly mingled by agitation.

In using the above named composition the hides should first be freed from all salt and impurities, by soaking green hides one day and dry hides eight days. The hides so cleaned are then placed in the said solution, and allowed to remain in it forty-eight hours. They should then be removed from the solution and unhaired in the usual way.

By the use of the above composition the hair is speedily and thoroughly loosened, and the hides, while retaining all that portion of the substance which can be converted into leather, are at the same time entirely cleaned from grease and other substances which would prevent them from being tanned quickly.

I am aware that a composition consisting of soda-ash-water, lime and sulphur has been used for the same purpose, and that a patent therefor was granted to C. D., July 10, 18 , No. . I am also aware that saltpeter has been used in depilatory processes ; but I am not aware that all of the ingredients of my composition have been used together.

What I claim, and desire to secure by letters patent of the Dominion of Canada, is—

1. The herein-described composition of matter, consisting of water, unslacked lime, soda-ash, saltpetre, and sulphur, substantially as described and for the purpose specified.

2. The herein-described composition of matter for depilating and preparing hides for tanning, consisting of pure water five hundred gallons, unslacked lime three hundred and fifty pounds, soda-ash one hundred pounds, saltpeter twenty pounds, and flowers of sulphur ten pounds, substantially as described.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Friday, the 1st day of July, 1898.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, by and with the advice of the Queen's Privy Council for Canada, is pleased to order and direct that the annexed Regulations governing the granting of yearly licenses and permits to cut timber on Dominion Lands in Manitoba and the North-west Territories (excepting the Provisional District of Yukon), and within twenty miles of either side of the Canadian Pacific Railway, in the Province of British Columbia, shall be and the same are hereby substituted in lieu of the Regulations issued under authority of an Order of the Governor in Council, dated 17th September, 1889, for similar purposes, as amended by subsequent Orders of the Governor in Council.

JOHN J. McGEE,
Clerk of the Privy Council.

TIMBER LICENSES.

Section 1.

(*a*) Licenses to cut timber shall be disposed of by public competition.

(*b*) Parties tendering will be required to state the sum or bonus per square mile which they will pay in addition to ground rent and royalty; and each tender must be forwarded in a sealed envelope and be accompanied by the cash, or an accepted cheque of a chartered bank, payable to the order of the Deputy Minister or the Minister of the Interior for the amount of such bonus. No tender by telegraph will be accepted. The limit will be awarded to the party offering the highest bonus therefor.

(*c*) The length of any berth covered by a license shall in no case exceed three times the breadth thereof.

Section 2.

(*a*) The licensee shall pay an annual ground rent of five dollars per square mile, except for lands situated west of Eagle Pass, in the Province of British Columbia, in which case the yearly ground rent shall be five cents an acre.

(*b*) Within a month after the date of awarding a timber berth, the party in whose favour it is awarded shall pay rent for the year in advance, and if not then paid the said rent shall bear interest at the rate of six per cent per annum from that date until the same is paid.

(*c*) The licensee shall furnish the Crown Timber Agent, having jurisdiction in the matter, sworn returns monthly, or at such times as the Minister of the Interior may direct, accounting for the full quantity of sawn lumber and other products of timber manufactured and sold and otherwise disposed of, and pay the following Crown dues, that is to say:—

Sawn lumber, 50 cents per thousand feet, B.M.
Railway ties, 8 feet long...... 1½ cents each.
do 9 do ...... 1¾ do
Shingle bolts...................... 25 cents per cord.

And 5 per cent on the sales of all other products of the berth.

A rebate of forty cents per thousand feet, B.M., will be allowed on lumber exported from British Columbia to places outside of the Dominion of Canada, provided the licensee can produce evidence to the Crown Timber Agent as to the quantity exported.

(*d*) Should the licensee manufacture other timber at his mill, than that cut under his license or on Dominion Lands so as to make it difficult or impossible to keep a separate account of the sales thereof, he shall pay dues at the rates provided in the preceding sub-clause "*c*" on the amount of the lumber in the log, on returns required, under sub-clause "*e.*"

(*e*) All licensees shall furnish to the Crown Timber Agent, having jurisdiction in the matter, monthly or at such time as the Minister of the Interior may direct through himself, his scaler and foreman, a statement in writing in detail, under oath, setting forth the number of pieces of timber, saw-logs and other material cut, caused to be cut or taken under his or their licenses during the month immediately preceding said statement, or for such other period as may be required, and the correct contents in board measure of the same, as shown by Scribner's log rule, if the timber has been cut in Manitoba, the North-west Territories or the district of Keewatin, and by the British Columbia log scale when cut within the Railway Belt of British Columbia.

(*f*) On the arrival of any raft or parcel of timber or saw-logs (cut or taken from Dominion lands) at the place where the same is to be manufactured or sold, and before the same becomes mixed with the timber or saw-logs, the owners or persons in charge thereof, shall report the same to the Crown Timber Agent having jurisdiction in the matter, making, if required, declaration upon oath as to where the said timber was cut, the number of pieces and the description of each kind of wood contained in such raft or parcel of timber and contents thereof in board measure, and should the Crown Timber Agent not be satisfied with the correctness of such report he shall cause a strict count and scale to be made of the timber on such raft; and on being satisfied of the correctness of such report, or count, the Crown Timber Agent may grant a clearance in due form for such raft, when the same may be at the disposal of the owner or person in charge of the same. Should the number of pieces given in the report of the owner or person in charge be found by the specification of measurement to contain a greater number of pieces or contain a greater number of feet in board measure than is given by the owner or agent's report, the surplus number of pieces or overplus, if not satisfactorily explained, shall be held as having been cut on Dominion lands without authority and subject to payment of dues accordingly. This clause only to have force in the case of a licensee making payment of dues on the quantity of lumber contained in the timber or saw-log by log scale.

(*g*) The licensee shall also pay the Crown dues prescribed by the regulations on any lumber or other timber products on which the dues have not previously been paid which may be damaged or consumed by fire or otherwise destroyed.

Licensees will not be required to pay royalty dues on the sales of slabs, for fuel purposes, or on saw-dust.

(*h*) Saw-logs and other timber for manufacture, taken from the berth, must be manufactured at the saw-mill of the licensee to be operated in connection with the berth, as prescribed by sub-clause "*j.*"

All timber before being put into any stream or lake to be floated to the mill, must be marked with a stamp

furnished by the licensee and approved by the Crown Timber Agent, a copy of said stamp to be placed on record in the Crown Timber Office.

(*i*) It is required that all licensees, through themselves, their scalers and foremen, shall furnish proof on oath on the said first day of May of each year, or at such other time as the Minister may direct, as to the exact locality, by a ground sketch, where all timber, saw-logs or other lumber cut by themselves and others, to their knowledge, upon the timber berth held or occupied by him or them, respectively, have been cut.

(*j*) The licensee shall have in operation within a year from the date when he is notified by the proper officer of the Department of the Interior that the Minister of the Interior regards such a step necessary or expedient in the public interest, and keep in operation for at least six months of each year of his holding a saw-mill, in connection with his berth, capable of cutting in twenty-four hours a thousand feet, board measure, for every two and a half square miles of the area licensed, or shall establish such other manufactory of wood goods as the Minister accepts as equivalent thereto.

(*k*) Any right to a timber berth cannot be assigned or transferred without the consent of the Minister of the Interior.

(*l*) All timber licenses shall expire on the 30th of April next after the date thereof.

Section 3.

When a licensee has complied with all the conditions herein set forth in his license and the regulations, and where no portion of the timber berth is required for settlement or other public purpose, of which the Minister of the Interior is to be the judge, the license may be renewed for another year, subject to such revision of the annual rental and royalty to be paid therefor as may be fixed by the Governor in Council.

Section 4.

(*a*) The person who has acquired a timber berth shall receive a license so soon as the berth has been awarded to him, but the licensee before he cuts any timber thereunder shall cause to be made at his own expense, under the instructions of the Surveyor General, a survey of his timber berth by a duly qualified Dominion Land Surveyor, and the plan and field notes of such survey shall be deposited on record in the Department of the Interior; and he shall be held liable for the dues upon timber that may be cut by any one on the berth subsequent to ten days from the date upon which he is notified that the berth has been awarded to him. The dues upon such timber to be fixed by the Minister of the Interior.

(*b*) In surveyed territory, berths shall consist of township sections, their legal subdivisions or fractions thereof.

Section 5.

If, in consequence of any incorrectness in survey or other error or cause whatever, a timber berth is found to comprise lands included in another berth awarded at a prior date, or any lands sold, granted, leased or lawfully set apart for any other purpose under these regulations or the Dominion Lands Act, the later berth shall be void in so far as it interferes with any previous sale, grant or setting apart.

Section 6.

All ground rents, royalties or other dues on timber cut within the boundaries of any timber berth, which are not paid at the time when they become due shall bear interest at the rate of six per cent per annum until paid, and shall be a lien on any timber cut within such limits; or on other Dominion Lands by the licensee or his agents; and in case of such non-payment—whether, in consequence thereof the license of the berth has or has not been cancelled—the Crown Timber Agent or other person authorized thereto may, with the sanction of the Minister, seize so much of the timber cut on such berth or other Dominion lands by the licensee or his agents, as will in his opinion, be sufficient to secure the payment of such rent or royalty and all interest and expenses of seizure and sale, and may detain the same as security for the payment thereof; and if payment is not made within three months after such seizure, he may, with the sanction of the Minister, sell such timber by public auction, and after deducting the sum due to the Crown, the interest thereon and expenses aforesaid, he shall pay over the balance, if any, to the licensee, if the timber was in his possession at the time of seizure, or if it was not, to the person who had possession thereof at the time.

Section 7.

All timber cut under license shall be liable for the payment of the Crown dues thereon, whenever and wherever the said timber or any part of it is found, whether it is or is not converted into deals, boards or any other manufacture of wood; and all officers or agents employed in the collection of such dues may follow all such timber and may seize and detain the same wherever it is found, until the dues thereon are paid or secured, as provided in the next preceding clause.

Section 8.

If the payment of the Crown dues on any timber has been evaded by any licensee or other person, by the removal of such timber or products out of Canada, or otherwise, the amount of dues so evaded and any expenses incurred by the Crown in enforcing payment of the said dues under the Dominion Lands Act, may be added to the dues remaining to be collected on any other timber cut on any timber berth by the licensee or by his authority, and may be levied and collected or secured on such timber, together with such last mentioned dues, in the manner hereinbefore provided; or the amount due to the Crown, of which payment has been evaded, may be recovered by action or suit in the name of the Minister or his agent, in any court of competent jurisdiction.

Section 9.

The Minister may take or authorize the taking of bonds or promissory notes for any money due to the Crown, as aforesaid, or, in his discretion, for double the amount of any dues, penalties and costs incurred or to be incurred, and may, if it is under seizure, then release any timber upon which the same would be leviable, but the taking of such bonds or notes shall not affect the right of the Crown to enforce payment of such money, and the debt shall be a lien on any timber cut on the same or on any other berth by the licensee or by his authority, if the sums for which such bonds or notes are given are not paid when due.

FORM OF TIMBER LICENSE.

Section 10.

The following is the form of license to be used in respect of timbered lands:—

Know all men by these presents, that by virtue of the authority vested in me by the Dominion Lands Act, that by an Order of His Excellency the Governor General in Council, of the day of , 18 , I, , the Minister of the Interior, of Canada, do hereby in consideration of the sum of , ground rent, now paid to me for the use of Her Majesty, and in consideration of the royalty hereinafter mentioned, given unto , hereinafter called the licensee, executors and administrators, full right, power and license, subject to the conditions and restrictions hereinafter mentioned and contained, and such other conditions and restrictions as are in that behalf contained in the Dominion Lands Act and the amendments thereto, and in the regulations respecting timber passed by the Governor General in Council, to cut timber on the following tract of land (hereinafter called the "berth" or "berths") that is to say:— , and to take and keep exclusive possession of the said lands, except as hereinafter mentioned, for and during the period of one year from the day of , 18 , to the day of , 18 , and no longer.

This license shall vest in the licensee, subject to the conditions hereinafter mentioned, all right of property whatsoever in all trees, timber, lumber, and other products of timber cut within the "berths," during the continuance thereof, whether such trees, timber and

lumber or products be cut by authority of the licensee or by any other person, with or without consent; and shall entitle the licensee to seize in replevin, revendication or otherwise, as property, such timber where the same is found in the possession of any unauthorized person, and also to bring any action or suit at law or in equity, against any party unlawfully in possession of any such timber or of any land so leased, and to prosecute all trespassers thereon and other such offenders as aforesaid, to conviction and punishment, and to recover damages, if any, and all proceedings pending at the expiration of this license may be continued and completed as if the same had not expired.

This license is subject to the following conditions and restrictions in addition to such of the conditions and restrictions as are in that behalf contained in the Dominion Lands Act and the amendments thereto, and in the regulations respecting timber passed by order of the Governor General in Council:—

1. That the licensee shall not have the right thereunder to cut timber of a less diameter than ten (10) inches at the stump except such as may be actually necessary for the construction of roads, &c., to facilitate the taking out of merchantable timber.

2. That this license shall not be allowed to interfere with the settlement of any lands within the "berths" which may be desirable for settlement, the Minister of the Interior to be the judge of the fact, and the only recourse of the licensee against the ruling of the Minister in favour of permitting settlement within such "berths" to be that (the licensee) may within sixty days after receiving notice to the above effect from the local agent of Dominion Lands, remove all timber on such lands which may be over ten inches in diameter at the stump.

Further, that this license shall not prevent individual Homestead Settlers holding free permits heretofore or hereafter given under the Order in Council, dated the seventeenth day of September, 1889, or under any subsequent Order in Council passed in such behalf from cutting and removing from the land covered by this license such quantity of building timber, fence rails, or fire wood, as such permit may set forth, and the Government may, notwithstanding this license, give such permit to individual settlers from time to time under said Order in Council or any subsequent Order in Council.

3. That the licensee shall take from every tree cut down all the timber fit for use, and manufacture the same into sawn lumber or some other saleable product.

4. That the licensee shall prevent all unnecessary destruction of growing timber on the part of his men, and exercise strict and constant supervision to prevent the origin or spread of fires.

5. That the licensee shall make returns to the Government monthly, or at such other periods as may be required by the Minister of the Interior, or by regulations under the said Act, sworn to by him or by his agent or employee, cognizant of the facts, declaring the quantities manufactured, sold or disposed of, of all sawn lumber, timber, or any other product of timber from the berth with the exception of slabs for fuel and saw-dust, in whatever form the same may be sold or otherwise disposed of by him during such month or other period, and the price or value thereof.

6. That the licensee shall pay, in addition to the said ground rent, dues in the manner prescribed in subsection "*c*," section 2 of the Timber Regulations.

7. That the licensee shall keep a "lumber sales book" in which shall be entered all sales of the products of the berth, both cash and credit sales, also a book accounting for the number of feet of sawn lumber manufactured each day at the mill, with day and date; all books and memoranda kept at the logging camps shall be carefully preserved and these and other books kept by the licensee in connection with his lumbering business he shall submit for the inspection of the Crown Timber Agent or other officer of the Crown whenever required for the purpose of verifying his returns aforesaid.

8. This license shall be subject to the right of the Crown to deal in accordance with the provisions of the said Act, and the regulations made under it by the Governor in Council with any and all stone, coal and other minerals found within the limits of the berth licensed; and the Crown shall have the right in dealing, as above provided, with any stone, coal or other minerals in lands licensed as timber limits to authorize the persons to whom such stone, coal or other minerals are granted, to take possession of and occupy such extent of the land so licensed as is necessary to work such stone, coal or other minerals, and to open necessary roads through any such timber berth paying the licensee of the berth the value of any and all timber of a diameter of ten inches at the stump and upwards, necessarily cut in making such roads or in working the quarries or mines, such value in case of dispute to be fixed by the Minister of the Interior; and the provisions of this clause shall operate retrospectively, that is to say: They shall apply to all licenses of timber berths heretofore granted under any Act respecting Dominion lands, as if they had been contained in such Act when it was passed.

9. The license shall be subject to forfeiture for infraction of any one of the conditions to which it is subject, or for any fraudulent return; and in such case the Minister of the Interior shall have the right without any suit or other proceeding at law or in equity, or compensation to the licensee, to cancel the same, and to make a new license or disposition of the said "berth" to any other party, at any time during the term hereby granted. Provided that the Minister of the Interior if he sees fit, may refrain from forfeiting such license for non-payment of dues, and may enforce payment of such dues in the manner provided by the said Act:—

Provided, that if during the said term of one year any actual waiver on the part of the Minister of the Interior, or of any one on his behalf, of the benefit of any condition in this license shall take place in any one particular instance, such actual waiver shall not be assumed or deemed to extend in any instance or any breach of such condition, other than that to which such waiver shall specially relate, nor to be a general waiver of the benefit of such condition. Provided that whenever in the above conditions the word "licensee" occurs, it is to be taken to extend to and include the executors, administrators and assigns of the "licensee."

Provided further that the Minister of the Interior shall be the sole judge of the fact in regard to infraction or alleged infraction of any one of the conditions of this license, and that his decision in relation thereto shall be binding and conclusive.

10. That should the Canadian Pacific Railway Company, or any other railway company, become entitled to a grant from Her Majesty or Her successors of any portion of the lands hereby demised, whether as part of their land subsidy provided for by the Statutes of Canada, or for the road-bed of the railway, or its branches, or for stations, station grounds, workshops, dock grounds and water frontage on navigable waters, building yards and other appurtenances required for the convenient and effectual construction and working of the railway and its branches, and if Her Majesty or successors grant the same, the land so granted shall as soon as due notice thereof in writing has been served upon the licensee, or his legal representatives be withdrawn from the operation of this license, but the licensee or his legal representatives shall be at liberty to remove all timber then cut and all other property belonging to him then on the lands thereby withdrawn from the operation of this license.

11. This license cannot be assigned or transferred without the consent of the Minister of the Interior.

12. The licensee shall have in operation within one year from a date when he is notified by the proper officer of the Department of the Interior that the Minister of the Interior regards such a step necessary or expedient in the public interest and keep in operation, for at least six months of each year of his holding, a saw-mill in connection with the berth herein

described, capable of cutting in twenty-four hours a thousand feet board measure for every two and a half square miles of the area licensed.

Section 14.

Besides the dues above specified, grantees of permits may be called upon to pay such additional sum as the Minister may judge necessary to meet their proportion of any expense incurred or that may be incurred by the Department in making a survey or other demarcation on the ground of the boundaries within which such permits are to be operative.

Section 18.

Permits to cut timber upon School Lands may be granted in the discretion of the Minister of the Interior, who, before authorizing the issue of permits to cut upon any section or portion thereof, shall cause the same to be carefully examined, and shall satisfy himself that the removal of the timber will not impair the value of the land when offered for sale.

TIMBER FOR HOMESTEADERS.

Section 20.

Any occupant of a homestead quarter-section having no timber of his own suitable for the purposes hereunder mentioned, may, providing he has not previously obtained a free allowance of timber, obtain a permit to cut such quantity of building timber, fencing timber or fuel as he may require for use on the land he owns and occupies, not exceeding the following :—

(*a*) 3,000 lineal feet of building timber, no log to be over 12 inches at the butt end, unless the timber is cut from dry trees, in which case timber of any diameter may be taken.

Should the building timber be sawn at a mill, the permittee will be entitled to receive free of dues 6,750 feet, board measure, of lumber therefrom and no more, or in the proportion of 225 feet, board measure, to 100 lineal feet of timber manufactured.

(*c*) 500 fence posts, 7 feet long and not to exceed 5 inches at the small end.

Section 21.

Should the house timber be sawn at a mill, payments for sawing must not be made by way of toll, as the full quantity of lumber cut from the logs must be used on the permit-holder's homestead.

Section 22.

In order that mill-owners may be able to give satisfactory evidence that saw-logs or lumber found in their possession have been lawfully cut, they shall require from settlers bringing timber to be sawn, proof that the same has not been cut on Dominion lands, or that it has been cut under a permit, which the settler should produce in order that its number, its date, and the name of the permittee may be noted by the mill-owner. The latter should also record the quantity of such timber sawn by him, so that he may be in a position to duly protect himself should an account or return thereof be demanded by agents of the Department.

Section 23.

The applicant will require to pay an office fee of twenty-five cents before he can obtain a permit, but no dues will be charged for the timber or wood cut under and in accordance therewith.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Friday, the 24th day of June, 1898.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

ON a Memorandum, dated 30th May, 1898, from the Minister of the Interior, submitting that, on a Report dated 24th December, 1894, from the then Minister of the Interior, stating that it had been represented to him on behalf of the Mennonite settlers in Manitoba that their two Reserves in that Province were overcrowded owing partly to the influx of their fellow-countrymen from the United States and Europe and partly to the natural increase which has taken place since their first settlement in Manitoba, and that, therefore, to meet the growing needs of their families and to encourage the settlement of their fellow-countrymen in Canada, it had become necessary to ask the Government to establish a reservation for them from lands in the Prince Albert District, an Order of Your Excellency in Council was passed dated the 23rd of January, 1895, reserving for entry by Mennonites only, the even-numbered sections (exclusive of Hudson's Bay Company's lands) so far as they were at the disposal of the Government, in Townships 40, Ranges 3, 4, and 5, and Township 41, Range 4, all west of the 3rd Meridian.

The Mennonites now state that the movement to the Prince Albert District is assuming large proportions, and that there are upwards of seventy families leaving for the new district this Spring and, as they consider the reserve already made insufficient, they have applied for an addition to it of Township 41, Range 3 west of the third Meridian.

The Minister states that these people have been a good class of settlers and have always faithfully discharged any obligations in connection with settlement undertaken by them, and he considers it in the public interest to encourage them in their efforts to promote settlement, and to do this it is necessary to give the intending settlers an assurance that they will be enabled to carry out the principles of their social system and to settle together in hamlets (for which provision is made by section 37 of the Dominion Lands Act) by obtaining entries for contiguous lands.

The Minister, therefore, recommends that he be authorized to reserve for entry by Mennonites only, the even-numbered sections (exclusive of Hudson's Bay Company's lands), in Township 41, Range 3, west of the 3rd Meridian, so far as they may be at the disposal of the Government.

The Committee advise that the requisite authority be granted accordingly.

The Order sets forth that this road "is necessary and advisable for the purposes of settlement and colonization, and for the convenience of the public," &c.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

ON a Report, dated 18th June, 1898, from the Minister of the Interior, stating that by Order in Council dated 22nd January, 1872, a block of land at Winnipeg, containing about 50 acres, was reserved for public purposes out of the lands formerly constituting the reservation made by the Hudson's Bay Company at Upper Fort Garry. Subsequently, by Order in Council of 10th April, 1874, the easterly half of this block of land, on which the Provincial Government Buildings are situated, was transferred to the Province of Manitoba

The Minister further states that it is now represented that a portion of the balance of the Dominion Reserve is required by the University of Manitoba, and he is of the opinion that this application should be complied with.

The Minister recommends that the portion of the said Reserve shewn coloured pink on the annexed plan, and containing about 6·60 acres, be granted to the Government of the Province of Manitoba for educational purposes.

The Committee submit the same for Your Excellency's approval.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Monday, the 27th day of June, 1898.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

ON a Report, dated 20th May, 1898, from the Minister of the Interior, submitting, that by Orders in Council, dated respectively 3rd March, 1873, and 25th April, 1876, tracts of land in the Province of Manitoba were set apart for settlement by Mennonites exclusively, that is to say, some eight townships in Ranges 4, 5 and 6 on the east side of the Red River, and what is known as the Dufferin Mennonite Reserve on the west side of the said river, the latter being composed of Townships 2 and 3, in Ranges 1 to 5 inclusive, Townships 1, in Ranges 1 to 6 inclusive, west of the Principal Meridian, and Township 1, Range 1 east of the same Meridian.

The Minister states that fully one-half of the lands within the western Mennonite Reserve have passed out of the possession of the Mennonites to persons of other nationalities by sale and otherwise, and the few sections remaining vacant are inferior in quality and better adapted for stock purposes than for farming, with the exception of Township 6, Range 1 west, which is chiefly valuable for timber. The lands in the eastern Mennonite Reserve that have been disposed of are held almost exclusively by Mennonites, but comparatively very little of the lands in Townships 4 and 5, Range 6 east, have so far been taken up at all.

The Minister is of opinion that the purpose for which these Reserves were originally made has now been fully served, and as the Mennonites do not appear to be desirous of acquiring the lands remaining vacant, for which applications have been made by settlers belonging to other nationalities, the same should be thrown open for general settlement, and he therefore recommends that on and after the 1st day of August next, (1898) all the lands remaining vacant at that date in the western Mennonite Reserve, and in Townships 4 and 5 in Range 6 east, in the Eastern Mennonite Reserve, be thrown open for general settlement, except such portions thereof as it may be deemed advisable in the public interest to reserve for timber purposes.

The Minister further recommends that all lands remaining vacant in the Eastern Mennonite Reserve, outside of Townships 4 and 5 in Range 6 east above referred to, including both odd and even-numbered sections, be and remain open for homestead entry by Mennonites exclusively up to the 30th November, 1898, and that after that date all lands not then taken up be thrown open for general settlement.

The Committee submit the above recommendation for Your Excellency's approval.

H. G. LAMOTHE,
Assist. Clerk of the Privy Council.

II. Rock in Shoal Channel.

An uncharted danger in Shoal Channel, entrance to Howe Sound, near the conspicuous cone shown on plan 585 has been located by Mr. J. T. Walbran, Master of the D.G.S. "Quadra."

The danger is a narrow shoal running S.S.E. from a point on the west shore where a slate spit extends 160 feet south from high water mark. No depth of more than 2 fathoms is found to the shoalest spot, a rock awash, at a distance of one cable from the shore. A depth of 4 fathoms is found ½ cable south of this spot, outside of which the water rapidly deepens.

From the rock awash Gibsons Landing wharf bears S.S.W. (S. 45° 45' W. true), distant 1⅕ miles ; the North Shelter Island, S.E. (S. 21° 45' E. true), distant 7 cables, and the trend of the shore northward bears N. ¼ E. (N. 26° E. true).

This notice affects Admiralty charts Nos. 579 and 585, and British Columbia Pilot, 1888, page 169.

III. Rocky Patch off Cole Bay.

Notice has been received from the Commander-in-chief of the Pacific Station of the location by the officers of H.M.S. "Pheasant" of a rocky patch off White Rocks, Cole Bay, Saanich Inlet.

Lat. N. 48° 37' 47"
Long. W. 123° 29' 40"

The patch lies in a N.E. by S.W. direction with the westernmost of the White Rocks bearing N. 57° E. magnetic, distant 2 cables. It is about ½ cable in extent and has a least depth of 8 feet.

The following sextant angles will locate the position of least depth.

IV. Shoal Southeastward of Mitlenatch Island.

Information, dated 21st April, 1898, was received by the British Admiralty from Commander M. H. Smith, H.M. surveying-vessel "Egeria," of the existence of a shoal, now named Sentry Shoal, lying to the southeastward of Mitlenatch Island. The shoal within the limits of the 10 fathom line runs N.W. and S.E. 1½ miles, the least depth found being 5 fathoms, from which the summit of Mitlenatch Island bears N. 30° W., distant 2$\frac{1}{10}$ miles.

Shoal water also appears to extend ½ mile from the north side of Mitlenatch Island.

Approximate position of 5 fathom patch :—

Lat. N. 49° 55' 0"

This notice affects Admiralty charts Nos. 580 and 1917, and British Columbia Pilot, 1888, page 182.

V. Rock in Schooner Passage.

Captain Roberts, of the steamer "Princess Louise," has reported that his vessel struck an unknown rock in Schooner Passage, Rivers Inlet. The rock is about 70 yards from the western shore and is awash at extreme low tide. A mid-channel course will clear the danger.

Approximate position on Admiralty chart No. 1923*b* :—

Lat. N. 51° 33' 17"
Long. W. 127° 36' 30"

Captain Roberts also reports that the rock shown on the chart on the eastern side of the southern entrance to Schooner Passage dries at an extreme low tide.

This notice affects Admiralty chart No. 1923*b*, and British Columbia Pilot, 1888, page 360.

VI. GENERAL INFORMATION RESPECTING WORK CHANNEL.

The following summary of a report by Captain Walbran, has been published in the United States Notice to Mariners No. 24 of 1898 :—

Work Channel, the entrance to which lies close northward of Point Maskelyne, is a nearly straight arm stretching about 30 miles to the southeastward, the head reaching within 2 or 3 miles of the Skeena River.

There is good anchorage in 9 fathoms in a small cove, known as Trail Bay Cove, situated on the west side of Trail Bay. Trail Bay is situated on the western shore of the inlet and 5½ miles from the entrance.

Two miles eastward of Grace Point, the entrance to Trail Bay, is a dangerous pinnacle rock situated nearly in the middle of the inlet. The rock just dries at an extreme low tide. It is surrounded by deep water, there being a depth of 130 fathoms close to it.

The shores of this inlet are bold and compact and the whole of this channel is surrounded by high and precipitous mountains.

About 8 miles from the head a narrow arm branches off to the northward for about 3 miles and then turns to the southeast and eastward for 8 miles.

Indifferent anchorage may be found at the head of the main inlet, between the two small streams in the southwestern bight, in 35 fathoms, 400 yards from low water mark. There is also anchorage, for a small vessel, in 9 fathoms in the cove to the northward of the bight and off the entrance of Salt Water Lake, steadying her with a hawser to the trees.

The tidal stream in the entrance of Work Channel runs about 3 knots per hour.

This notice affects Admiralty charts Nos. 1923*a* and 2430, and British Columbia Pilot, 1888, page 428.

I. PRIVATE LIGHTS IN RIVER ST. MARY.

1. A fixed white light has been established by Mr. Joseph Rouleau, pilot, to mark the southern edge of the dredged curve opposite the beacon in the upper entrance to the Canadian Canal at Sault Ste. Marie, Ontario. The light is shown from a buoy or float moored near the black spar buoy maintained by the Government.

2. Two range lights have been established by Mr. Rouleau on Big Point, on the American side of the river, in the same alignment as the lights on the Canadian side, to show the axis of the dredged channel above the canal from the American side to the turning point at the beacon.

These lights will be maintained by the pilots and the Canadian Government assumes no responsibility in connection with them.

This notice affects Admiralty charts Nos. 320 and 324, and the substance of it should be entered in the Canadian List of Lights after No. 1115.

II. SHOAL OFF GROS CAP.

The Department of Marine and Fisheries is advised that several vessels, drawing 17 feet or more, have struck an uncharted shoal in the upper or Lake Superior entrance to River St. Mary, between Gros Cap and Point Iroquois.

One master states that the shoal is about a mile and a-half above Point Iroquois.

The shoal is on, or a little to the eastward of, the alignment of the private lights known as Bernard's Range.

Masters are advised to keep the range open a little to the westward until abreast of Point Iroquois.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

SUR un memorandum daté le 30 de mai 1898, du ministre de l'Intérieur, soumettant que sur un rapport daté le 24 décembre 1894, du ministre de l'Intérieur alors en exercice, énonçant qu'il lui avait été représenté de la part des colons Mennonites au Manitoba que leurs deux réserves dans cette province étaient encombrées partie par l'affluence de leurs compatriotes venus des Etats-Unis et de l'Europe, et partie par l'accroissement naturel qui a eu lieu depuis leur premier établissement au Manitoba, et que, pour faire face aux besoins croissants de leurs familles, et pour encourager l'établissement de leurs compatriotes en Canada, il était devenu nécessaire de demander au gouvernement d'établir une réserve pour eux à même les terres dans le district de Prince Albert, un arrêté de Son Excellence en conseil fut rendu en date du 23 de janvier 1895, réservant pour inscription par les mennonites seulement, les sections impaires (à l'exception des terres de la Compagnie de la Baie d'Hudson) qui étaient à la disposition du gouvernement dans les townships 40, rangs 3, 4 et 5, et le township 41, rang 4, tous à l'ouest du 5e méridien.

Les Mennonites disent maintenant que le mouvement dans le district de Prince Albert se développe beaucoup, et qu'il y a au delà de soixante-dix familles qui partent ce printemps pour ce nouveau district, et vu qu'ils considèrent que la réserve est déjà insuffisante, ils ont demandé que le township 41, rang 3 à l'ouest du 3e méridien lui soit ajouté.

Le Ministre dit que ces gens ont été de bons colons, et ont toujours fidèlement rempli les obligations relatives à l'établissement entreprises par eux, et il considère que c'est dans l'intérêt public de les encourager dans leurs efforts pour développer l'établissement, et à cette fin il est nécessaire de donner aux colons en perspective l'assurance qu'ils pourront mettre à exécution les principes de leur système social et de s'établir ensemble par hameaux (système prévu par l'article 37 de l'*Acte des terres fédérales*) en obtenant des inscriptions pour des terres contiguës.

A ces causes le Ministre recommande qu'il soit autorisé à réserver pour inscription par les Mennonites seulement, les sections impaires (à l'exception des terres de la Compagnie de la Baie d'Hudson) dans le township 41, rang 3 à l'ouest du 3e méridien, en tant que le gouvernement peut en disposer.

Le comité conseille que l'autorisation requise doit donnée en conséquence.

RÈGLES ET FORMULES du Bureau Canadien des brevets d'invention adoptés par arrêté en conseil daté le 27 de juin 1898.

1. Il n'est pas nécessaire que celui qui demande un brevet d'invention, ou son représentant, se présente personnellement au bureau des brevets, à moins qu'il n'y soit spécialement invité par le commissaire ou le sous-commissaire.

2. Le requérant ou celui qui dépose quelque document relatif à une demande de brevet, est dans tous les cas responsable du mérite de ses allégations et de la validité des documents soumis par lui ou par son agent.

3. La correspondance peut se faire soit avec le pétitionnaire, soit avec son agent, mais avec une seule personne, et elle sera transmise franco par les malles canadiennes.

4. Tous les documents doivent être lisiblement et proprement écrits ou imprimés sur papier tellière (*foolscap*,) de 13 pouces de longueur par 8 de largeur, en conservant une marge intérieure d'un pouce et demi.

5. Toutes communications doivent être adressées : *Au commissaire des brevets d'invention, Ottawa, Canada.* Les documents envoyés au bureau doivent être accompagnés d'une lettre, et une lettre distincte doit être écrite sur chaque sujet.

6. Au sujet des manières de procéder auxquelles il n'est pas spécialement pourvu par les formules ci-jointes, toute formule conforme à la lettre et à l'esprit de la loi sera acceptée, et dans le cas contraire, elle sera renvoyée pour être corrigée.

7. Il suffit de fournir des modèles que si le commissaire l'exige, et ils doivent être bien faits et pouvoir fonctionner ; ils ne doivent pas avoir plus de douze pouces dans leur plus grande longueur, à moins d'une permission spéciale, et ils doivent être construits de manière à faire voir exactement chaque partie de l'invention et son fonctionnement. Lorsque la loi exige des échantillons d'ingrédients, ils doivent être contenus dans des fioles convenablement arrangées ; mais les substances dangereuses ou explosibles ne doivent pas être transmises. Les modèles et les fioles devront porter le nom de l'inventeur, celui de l'invention et la date de la requête, et devront être envoyés au bureau des brevets en bon état, aux frais du pétitionnaire.

8. Tous les droits prescrits par la loi devront être transmis en même temps que la demande, pour que le bureau s'en occupe. Les remises doivent être en fonds de banque, traites, mandats-poste ou chèques certifiés. Les deniers envoyés par la poste doivent l'être dans des lettres enregistrées et au risque de l'envoyeur. Les traites, mandats-poste et chèques doivent être faits à l'ordre du commissaire des brevets, Ottawa.

9. Toute demande de brevet doit être poursuivie et parfaite pour examen dans les deux ans qui suivent le dépôt de la pétition, ou, si le requérant manque de la poursuivre, alors sous deux ans après un commencement d'exécution, à défaut de quoi elle sera regardée comme abandonnée, aussi bien que tous procédés qui auront eu lieu à ce sujet, et tous les droits payés seront, à l'expiration de cette période considérés confisqués, à moins que le commissaire ne soit convaincu que le délai n'était pas dû à la négligence du requérant.

10. Deux ou plusieurs inventions distinctes ne peuvent faire la matière d'une seule demande, ni être comprises dans un même brevet. Mais s'il est allégué que les différentes matières sont si étroitement liées entre elles qu'il devient nécessaire de les rattacher ensemble pour obtenir le but que se propose l'inventeur, le commissaire des brevets décidera si les prétentions du requérant à cet égard peuvent être maintenues.

11. Le dépôt d'un protêt contre la concession d'un brevet ne sera pas regardé comme étant une raison suffisante pour empêcher cette concession au pétitionnaire.

12. Un *caveat* ne peut être déposé que par un inventeur, et se composera d'une spécification (*et de dessins*) certifiée sous serment [formule n° 23]. et celui qui l'aura déposé pourra, pendant sa durée, y joindre des documents supplémentaires, pourvu qu'ils se rattachent exclusivement à la même invention. La personne qui aura déposé un *caveat* n'aura pas le droit d'être notifiée des demandes pendantes lors du dépôt de son *caveat*. Un *caveat* ne doit s'appliquer qu'à une seule invention.

La spécification d'un *caveat* doit être suffisamment précise pour permettre au bureau de juger s'il y a conflit probable lors d'une demande subséquente.

13. Les dessins en double qui sont attachés au double de la spécification, doivent être faits en encre de Chine, sur des feuilles de toile à calquer autre que la linaura ou fabrique semblable, de huit sur 13 pouces, proprement exécutés et non colorés.

DESSINS.

(Faits en double.)

Chaque feuille sur la toile à calquer contiendra ce qui suit :—Le titre de l'invention en tête de la feuille ; le certificat suivant au pied : " Certifiés être les dessins mentionnés dans la spécification ci-annexée," et signée par l'inventeur ou son fondé de pouvoirs ; le lieu, la date et la signature de deux témoins.

Toutes les lignes doivent être claires, nettes, bien accentuées pas trop fines, *et parfaitement noires.*

Les lignes pâles, grises, très-fines, imparfaites ou embrouillées, donnent de mauvais résultats à la photo-lithographie.

Les ombres au pinceau, les hachures et les imitations du bois doivent être évitées ; et les ombres fines au trait doivent être faites avec le moins de lignes possible.

Les lignes de section doivent être bien espacées, et elles doivent être faites ainsi que toutes les lignes droites, au moyen du tire-ligne, afin d'obtenir le plus de clarté possible. L'on peut se dispenser d'ombrer les surfaces convexes et concaves, lorsque l'invention est d'ailleurs bien représentée.

L'on peut parfois employer les lignes ombrées avec avantage, mais les fortes ombres, qui auraient l'effet d'obscurcir les traits ou les lettres de renvoi, doivent être évitées.

Avec chaque demande de brevet, il faut envoyer une série de dessins à part sur du carton de Bristol, de 8 x 13 pouces, et ne devra contenir aucune écriture, sur sa face, sauf les lettres de renvoi. Il ne sera pas nécessaire d'y mettre ni titre, ni certificat, ni signatures ; le nom de l'inventeur et celui de l'invention devront être écrits au crayon sur le revers.

Le dessin sur carton doit être roulé sur un rouleau pour le transmettre au bureau, car les plis détruiraient son utilité pour la photo-lithographie.

14. A l'égard de la redélivrance d'un brevet, en vertu de l'article 23 de l'acte, tout ce qui est réellement compris dans la requête primitive et décrit ou indiqué dans la spécification de manière à pouvoir être compris dans le premier brevet, pourra faire le sujet d'un nouveau brevet. Aucune nouvelle matière ne sera introduite dans la spécification, et les modèles et dessins ne pourront être amendés que les uns par les autres. En l'absence de modèles ou de dessins, la nouvelle spécification pourra être amendée sur preuve donnée à la satisfaction du commissaire que les amendements faisaient partie de l'invention, bien qu'ils aient été omis dans la première description. Des brevets distincts pourront être émis pour chaque partie séparée et distincte de l'invention, comprise dans le brevet primitif.

15. Les renseignements relatifs aux demandes pendantes ne seront fournis qu'en autant que la chose sera nécessaire pour la transaction des affaires du bureau.

16. Le bureau ne peut répondre aux questions relatives à la probabilité de la concession d'un brevet pour une prétendue invention, avant que la demande de brevet ne soit régulièrement faite, non plus qu'aux questions basées sur des descriptions abrégées ou imparfaites, posées dans le but de constater si quelque prétendu perfectionnement a été breveté, ni à moins que le nom du breveté, et la date du brevet, aussi exactement que possible, ne soient donnés. Le bureau ne peut, non plus, agir comme interprète de la loi des brevets, ni comme conseiller des particuliers, excepté pour les questions surgissant dans le bureau.

On recommande particulièrement d'examiner la loi avant d'écrire au département sur un sujet quelconque, afin d'éviter des explications et un travail inutiles.

Un exemplaire des règlements, avec indication particulière d'un article quelconque, expédié à une personne demandant quelque renseignement, servira de réponse par le bureau.

17. Il est de l'intérêt, tant du pétitionnaire que du service public, que les documents et dessins soient préparés par des personnes entendues, ce qui facilitera

l'expédition et la régularité des procédés. On conseille donc au requérant, à moins qu'il ne soit lui-même capable de dresser les papiers relatifs à sa demande, d'employer un procureur capable, vu que la valeur des brevets dépend beaucoup de l'habileté avec laquelle la spécification et les réclamations ont été préparés. Le bureau refusera toujours de suggérer le choix d'un procureur.

18. Toute affaire avec le bureau doit se transiger par écrit. Les décisions du bureau ne seront basées que sur les documents écrits. Il ne sera fait aucune attention aux prétendues promesses verbales ou ententes au sujet desquelles il y aura désaccord ou doute.

19. Les cessions de brevets devront être accompagnées d'une copie de la cession ; l'original sera gardé au bureau des brevets, et la copie sera renvoyée à la personne qui l'aura transmise, avec le certificat d'enregistrement y inscrit.

20. Tous les cas difficiles pouvant naître de l'application de la loi des brevets d'invention, auxquels il n'est pas spécialement pourvu dans ces règlements, seront décidés, suivant leur mérite, par autorité du commissaire, et cette décision sera communiquée par écrit aux intéressés.

21. Les demandes de brevets envoyées à ce bureau, non accompagnées des droits exigés par la loi, ne seront pas reconnues officiellement, ni notées ni numérotées ; elles seront simplement mises dans les casiers, et ne seront reçues comme déposées que le jour où les droits auront été reçus.

22. Le requérant a le droit de modifier avant ou après le premier rejet, ou première action ; et il peut modifier aussi souvent que l'examinateur présente quelques nouveaux renvois ou raisons pour rejet. En faisant ainsi des modifications, le requérant doit indiquer clairement tous les points nouveaux que le cas présente selon lui, dans l'état de l'art dévoilé par les renvois cités ou les objections faites. Il doit aussi indiquer comment les modifications surmontent ces renvois ou objections.

23. La spécification et le dessin doivent être modifiés et revisés lorsque requis, pour corriger des inexactitudes de description ou une prolixité inutile, et faire concorder la réclamation, la spécification et le dessin. Mais aucun changement dans le dessin ne sera fait sans la permission écrite du bureau.

24. Dans chaque modification le mot ou les mots exacts à biffer ou à insérer dans la demande doivent être spécifiés, et le point précis indiqué où la rature ou l'insertion doit être faite. Toutes ces modifications doivent être faites sur des feuilles de papier distincte des papiers déjà déposés, et écrites sur un seul côté du papier. Le requérant ne doit pas faire de ratures, d'ajoutés, d'insertions ou de mutilations dans les papiers et archives.

25. Les modifications exigent la signature du requérant ou de son fondé de pouvoirs.

29. Si une clause modificative est modifiée, elle doit être écrite au long, de façon que ni intercallation ni rature ne paraisse dans la clause telle que définitivement modifiée lorsque la demande est acceptée pour délivrance. Si le nombre ou la nature des modifications rendaient difficile l'examen du cas, ou l'arrangement des papiers pour l'impression ou la transcription, l'examinateur ou le commissaire fera écrire de nouveau toute la spécification.

(*A faire en double.*)

FORMULE 13.

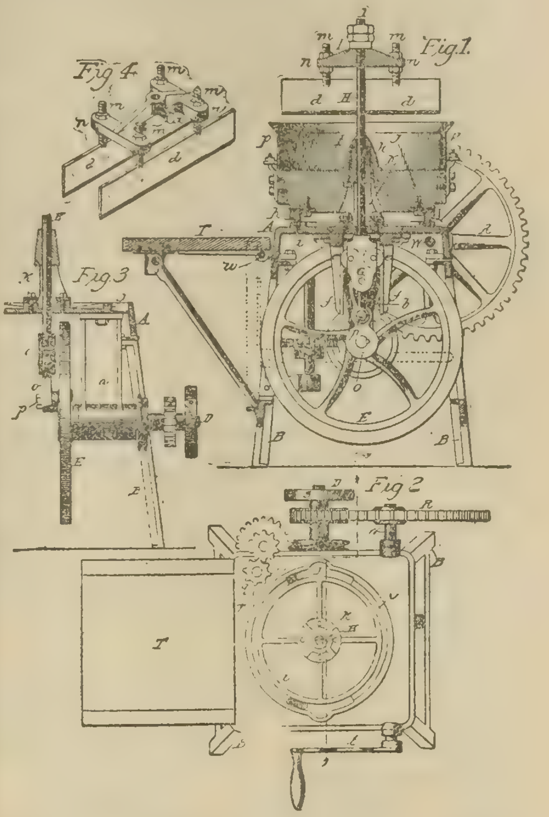
POUR UNE MACHINE.

A tous les intéressés :

Sachez que moi, William Woodworth, de la ville de Poughkeepsie, dans le comté de Duchess, dans l'Etat de New-York, bourgeois, ai inventé certains perfectionnements nouveaux et utiles aux machines à hacher la viande (pour lesquels j'ai obtenu un brevet dans (*ici nommez le pays*) No. daté 189) ; [*] je déclare par ses présentes que ce qui suit en est une description claire, entière et exacte.

Mon invention se rapporte à des perfectionnements aux machines à hacher la viande dans lesquelles des couperets verticaux opèrent alternativement avec un billot rotatoire ; et le but de mon perfectionnement est, premièrement de fournir un coussinet toujours graissé pour le billot ; secondement, donner des facilités pour l'ajustement convenable des couperets indépendamment l'un de l'autre à l'égard de la face du billot ; et troisièmement réduire la friction de la tige alternative qui porte les couperets.

J'atteins ce but par le mécanisme illustré dans le dessin ci-joint, dans lequel—



Attestés être les dessins mentionnés dans la spécification ci-jointe.

(Lieu et date.)

(Signature de l'inventeur ou de son procureur.)

(Signature de deux témoins.)

La figure 1 est une section verticale de toute la machine ; la figure 2, une vue plongeante de la machine telle qu'elle appert après l'enlèvement du billot et des couperets ; la figure 3, est une section verticale d'une partie de la machine sur la ligne 1, 2 de la figure 2 ; et la figure 4, une vue détaillée en perspective de la traverse alternative et ses couperets.

Des lettres semblables renvoient à de semblables pièces par toutes les diverses vues.

La table ou plaque A, ses pieds ou montants BB, et le support *a*, assujéti en-dessous de la table, forment la charpente de la machine. Dans le support *a* tourne un arbre D, portant un volant E, un tourillon, le moyeu duquel est relié par une boucle *b* à une cheville passant à travers une traverse G, et à cette dernière est assujétie une tige H, ayant à sa tête une traverse I, portant les couperets ajustables *d d*, mentionnés plus loin.

La traverse G, rencontrée par l'arbre D, est munie de rouleaux anti-friction *e e*, adaptés à des guides *f f*, assujétis en-dessous de la table A, de façon que le mouvement alternatif de cette traverse puisse se faire avec le moins de friction possible.

Au-dessous d'un billot de bois J est attaché un tirant annulaire *h* adapté à et portant sur une rainure *i* dans la table A. (Voir figures 1 et 2.) Cette rainure annulaire n'est pas partout de la même profondeur, mais communique à un ou plusieurs points (deux dans le cas-ci) avec des poches ou réceptables *j j*, plus profondes que la rainure, et contenant de l'huile dans laquelle tourne le tirant *h*, de façon qu'il s'opère un graissage continu de la rainure et du tirant. La tige H passe à travers d'un, et est guidé par un support central K, assujéti à la table A, et projetant par une ouverture centrale dans le billot sans y toucher, la partie supérieure du dit support étant contenue dans un couvercle *k*, qui est assujéti au billot, et qui empêche les parcelles de viande de s'échapper par l'ouverture centrale.

---

[*] NOTES.—S'il n'a pas obtenu de brevet étranger, les mots entre parenthèses doivent être omis.

La traverse I, déjà mentionnée, et indiquée en perspective dans la figure 4, est ajustable verticalement sur la tige H, et peut être retenue après ajustage par une vis à demeure *x*, la tête de la tige étant filetée pour y recevoir un écrou qui résiste aux chocs causés à la traverse lorsque les couperets viennent en contact violent avec la viande sur le billot.

Les couperets *d d* sont ajustables indépendamment l'un de l'autre et de la dite traverse, de façon que la coïncidence du tranchant de chaque couperet avec la face du billot est toujours assurée.

Je préfère exécuter cette partie de mon invention en la manière indiquée à la figure 4, où l'on verra que deux tiges à vis *m m* sortent verticalement du dos de chaque couperet et passent à travers deux oreilles *n n* sur la traverse, chaque tige étant munie de deux noix, une au-dessus et l'autre au-dessous de l'oreille qu'elle traverse. L'ajustage le plus parfait des couperets peut se faire au moyen de ces noix.

Une enveloppe *p* est attachée au billot, de façon à y former une auge P pour retenir la viande ; et sur le bord du tirant annulaire *h* assujéti au fond du billot, se trouvent des dents pour recevoir celles du pignon *q* qui peut être mû par l'arbre D au moyen d'un système convenable d'engrenage, celui indiqué dans le dessin ne formant pas partie de ma présente invention.

Cet arbre D peut être mû par une courroie passant autour des poulies *s*, ou peut être mû à la main de l'arbre W muni à un bout d'une manivelle *t*, et à l'autre bout d'une roue dentée R, s'adaptant dans un pignon sur le dit arbre D.

Une plateforme T peut être pendue, tel qu'à *w* à un bord de la table A, pour soutenir un vaisseau dans lequel la viande hachée peut être déposée. Les moyens par lesquels elle peut être soutenue et la méthode la plus facile d'en disposer lorsqu'elle n'est pas en usage, sont indiqués à la figure 1.

Je sais qu'antérieurement à mon invention des machines à hacher la viande ont été faites avec des couperets verticaux fonctionnant alternativement. En conséquence je ne réclame pas une telle combinaison généralement ; mais

Ce que je réclame comme mon invention, et désire m'assurer par des lettres patentes sont :—

1. La combinaison, dans une machine à hacher la viande, d'un billot rotatoire ayant un tirant annulaire, avec une table ayant une cavité annulaire et une poche communiquant avec la dite cavité, le tout tel que décrit en substance.

2. Dans une machine à hacher la viande, la combinaison d'un billot rotatoire avec une traverse alternative portant des couperets, dont chacun est verticalement ajustable sur la dite traverse indépendamment de l'autre, tel que décrit en substance.

3. Le couperet *d*, ayant deux tiges à vis *m m*, attachées à son dos, tel que décrit en substance, pour la fin spécifiée.

4. La combinaison, dans une machine à hacher la viande, de la tige alternative, portant les couperets, la traverse attachée à la dite tige, et ayant deux rouleaux anti-friction, avec des guides, adaptés aux dits rouleaux, le tout tel qu'énoncé en substance.

POUR UN ART OU PROCÉDÉ.

A tous les intéressés :

Sachez que nous Marion Ellsworth, de Chicago comté de Cook, et Etat d'Illinois, bourgeois, et Joseph Richard Shaw, d'Indianapolis, comté de Marion, Etat d'Indiana, bourgeois, avons conjointement inventé un procédé nouveau et utile pour traiter l'huile de boue, afin d'en obtenir une substance résineuse (pour lequel j'ai obtenu un brevet dans (*ici nommez le pays*) No.   date 189   , dont suit une spécification :—

Dans la purification des huiles hydrocarboniques produites par la distillation du pétrole cru, d'asphaltes ou de bitumes, ou par la distillation destructive de la houille, des résines, ou des schistes bitumineux, les huiles sont agitées avec 2 pour 100 ou plus d'acide sulfurique concentré (60° Baumé, 1.86 poids spécifique) afin d'enlever certaines huiles contenues dans la distillation qui, dans le cours du temps, absorberaient de l'oxygène de l'air, et rendraient l'huile brune et gommeuse, et aussi enlever les substances goudronneuses et l'odeur désagréable. L'acide sulfurique se combine chimiquement avec ces corps et les dissout, formant un liquide rouge foncé et lourd, qui se dépose au fond de l'agitateur et peut être alors aisément retiré de l'huile purifiée. Ce composé particulier d'acide sulfurique et d'huiles hydrocarboniques, dissous dans l'excédent d'acide, est appelé "boue." Actuellement il est acheté par les fabricants de superphosphates, qui le mélangent avec un peu d'eau, qui décompose le composé d'acide et d'huile, produisant un acide plus faible (environ 50° Baumé) utilisé dans la manufacture du superphosphate de chaux, et une huile désagréable de couleur foncée, qui s'élève à la surface de l'acide, et est généralement jetée de côté, n'ayant aucune valeur commerciale, ce rebut est appelé huile de "boue."

Le mode de pratiquer mon invention est comme suit : Dans mon procédé lorsque la boue a été décomposée par addition de l'eau, l'huile de boue est retirée, et est ensuite purifiée en la lavant fréquemment avec de l'eau, jusqu'à ce que l'acide qui y reste soit enlevé. Dans ce but des volumes égaux d'eau et d'huile de boue peuvent être employés, mais le lavage peut se faire avec une moindre quantité d'eau. L'acide qui reste dans l'huile, s'il s'en trouve, est alors neutralisé au moyen de chaux vive ou de soude caustique. L'huile purifiée a une odeur forte et quelque peu désagréable, et contient environ 10 pour 100 d'huiles volatiles, qui sont difficilement converties en une résine dure. Pour enlever ces substances volatiles, l'huile de boue ainsi purifiée est introduite dans un alambic avec addition de 2 à 4 pour 100 de soude caustique et d'environ 2 pour 100 des oxydes de plomb ou de manganèse, afin d'oxyder tout corps sulfureux qui pourrait se trouver dans l'huile et se combiner avec elle, et la vapeur est alors forcée dans l'huile, l'huile étant tenue chaude au moyen d'un feu sous l'alambic, ou au moyen de la vapeur chauffée à la température voulue (entre 212° et 240° Fahrenheit). L'action de la vapeur est continuée jusqu'à ce qu'il ne reste plus d'huiles volatiles à retirer,—(de cinq à dix heures généralement). La vapeur est alors fermée, on laisse reposer le contenu de l'alambic, et il en résulte un dépôt d'impuretés goudronneuses et de soude, duquel l'huile pure peut être retirée. L'huile est alors introduite dans un alambic ou réservoir, et oxydée en y soufflant des courants d'air, l'huile étant tenue à une température modérée (de 200° à 300° Fahrenheit), soit par un feu lent sous l'alambic, soit par un serpentin à vapeur au fond du réservoir, ou en chauffant l'air par un fourneau à eau chaude à la température voulue avant de la souffler dans l'huile, et l'action de l'air est continuée jusqu'à complète oxydation, et un échantillon se solidifie en refroidissant en une résine plus ou moins dure.

Le temps requis pour effectuer l'oxydation varie avec la température effective et avec l'étendue de la surface d'huile mise en contact avec l'air. Disons quatre et douze jours. L'action de l'air sur l'huile est arrêtée du moment que des échantillons, pris du contenu de l'alambic, atteignent en refroidissant le degré voulu de dureté et de raideur pour les fins auxquelles le produit est destiné, et après avoir laissé reposer le contenu de l'alambic la résine chaude est retirée du sédiment de soude et d'impurités.

L'action de l'air peut être accélérée en ajoutant à l'huile d'autres agents oxydants, par exemple, environ 2 pour 100 des oxydes de plomb ou manganèse, ou environ 2 pour 100 des manganates de soude et de potasse. Ces substances agissent soit en rendant l'oxygène à l'huile, ou en produisant par leur présence une combinaison de l'oxygène et de l'hydrocarbone.

Une qualité inférieure de résine peut être produite en traitant l'huile de boue lavée dans un alambic avec de la soude caustique et de la litharge (5 pour 100 de litharge) et en y soufflant un courant d'air à une température d'environ 350° Fahrenheit, qui oxyde en même temps l'huile et enlève les parties les plus volatiles, qui sont distillées jusqu'à ce qu'elle soit convertie en une résine, qui devient dure et cassante en refroidissant. Ce dernier procédé exige de deux à six jours, mais la résine produite est plus foncée que celle obtenue en la traitant d'abord avec la vapeur et ensuite avec l'air à une température plus basse, vu que la matière colorante n'est pas affectée par la vapeur à 400°, tandis que l'air à cette température la rend rapidement plus foncée par l'oxydation. La lumière du soleil blanchit la couleur de l'huile de boue, et, en même temps accélère grandement l'absorption de l'oxygène de l'air. Pour produire les résines plus claires l'huile de boue est traitée à la vapeur avec 5 pour 100 d'une solution de soude, 20° Baumé, à une basse température (environ 200° à 250° Fahrenheit pendant dix heures), pour enlever les parties les plus volatiles, et ensuite oxydée et blanchie en exposant l'huile dans des bassins plats couverts de verre, à l'action de la lumière du soleil, l'huile étant tenue chaude et fluide au moyen d'un serpentin à vapeur au fond du bassin, et des courants d'air soufflés à travers pour produire l'oxydation.

Les qualités inférieures d'huile de boue, telles que celles produites dans la purification d'huiles lubrifiantes, et qui contiennent une grande quantité de substances goudronneuses, sont traitées comme suit :—L'huile est chargée dans un alambic, et de la soude caustique et de l'oxyde noir de manganèse (dans la proportion d'environ 5 pour 100 de soude et de 2 pour 100 de manganèse) sont ajoutés, et la charge distillée par un courant de vapeur passée dans l'huile, aidé d'un feu sous l'alambic, jusqu'à ce que le goudron et le coke restent seuls. La distillation commence à environ 350° Fahrenheit, et le feu étant attisé, la température dans l'alambic s'élève graduellement à environ 800°, alors que la poix épaisse reste seule dans l'alambic.

Par l'usage de la vapeur comprimée l'huile peut être distillée sans presque pas de décomposition, et la distillation, qui est d'un rouge clair jaunâtre, peut être convertie en une résine inférieure en l'oxydant au moyen d'un courant d'air chaud. La résine produite par cette oxydation d'huile de boue est distinguée de toutes autres résines et substances résineuses connues par son effet en le mêlant à différents acides et fondants. Elle varie en couleur de jaune à rouge grenat foncé, selon la méthode de sa production. Elle est dure, cassante, et sans odeur aux températures ordinaires, sans goût, insoluble, et n'est pas affectée par l'eau, la soude, la potasse, et l'ammoniaque, même lorsque chauffée.

L'alcool de 95 pour cent ne dissout que de petites quantités de cette résine, même lorsqu'elles sont bouillies ensemble. Le pétrole-naphthe la dissout rapidement sans l'aide de la chaleur, produisant un vernis. L'esprit de térébenthine la dissout facilement, la résine fondue formant un vernis. La benzole, le chloroforme, et le bisulfite de carbone dissolvent la résine, la solution étant aidée par la chaleur. L'éther et un mélange d'éther et d'alcool, en parties égales, la dissolvent facilement, mais pas aussi rapidement que l'éther pur. L'huile de lin et l'huile d'olive dissolvent la résine fondue. Une solution de la résine dans de l'huile de lin et de l'esprit de térébenthine forme un "vernis à l'huile." L'acide sulfurique concentré les dissout complètement ; la résine se sépare de nouveau en ajoutant de l'eau. L'acide nitrique l'attaque violemment et la convertit en une substance brune goudronneuse ou gommeuse, ayant une odeur agréable et particulière. L'acide hydrochlorique ne semble presque pas l'affecter.

Il est bien connu qu'il a été proposé d'employer l'huile de boue comme huile à peinture, mais ce projet n'a pas réussi. Je ne veux pas qu'on croie toutefois, que je réclame un procédé pour débarrasser l'huile de boue de l'acide au moyen de l'eau et de soude caustique, ou de la purifier encore plus en la soumettant à la distillation, ou en y passant de la vapeur afin d'en enlever les impuretés, toutes choses qui ont été pratiquées depuis la découverte du procédé actuel de raffiner le pétrole. Je ne veux pas non plus réclamer dans la présente demande la substance résineuse produite par mon procédé, vu que cela forme le sujet d'une autre demande de lettres patentes par moi.

Je réclame—

1. Le procédé ici décrit pour produire de l'huile de boue une substance résineuse possédant les propriétés décrites, qui consiste à combiner l'oxygène de l'air avec l'huile de boue à l'aide d'un degré modéré de chaleur.

2. Le procédé de produire de l'huile de boue une substance d'une nature résineuse qui consiste à traiter l'huile de boue chauffée à une température modérée, avec de l'air et autres agents oxydants, tel que décrit en substance.

3. Le procédé de traiter l'huile de boue afin d'en obtenir une substance résineuse, qui consiste à purifier cette huile, d'en distiller les substances volatiles qui s'y trouvent, de chauffer le résidu à une température de 200e à 300e Fahrenheit, et d'y passer de l'air tandis qu'elle est ainsi chauffée, tel que décrit en substance.

FORMULE 16.

(Une spécification et une copie d'icelle.)

POUR UNE COMPOSITION DE MATIÈRES.

A tous les intéressés :

Sachez que je, Ebenezer Whitney, de la cité de Charleston, dans le district de Charleston, et l'Etat de la Caroline du Sud, bourgeois, suis l'administrateur de la succession de Benjamin Browning, en son vivant de la dite cité, bourgeois, et que le dit Benjamin Browning a inventé une certaine nouvelle et utile composition de matières qui doit servir pour enlever le poil et la graisse des peaux avant le tannage (pour laquelle j'ai obtenu un brevet dans [*donnez ici le nom du pays*] (No.   daté   189   ) dont ce qui suit est une spécification :

La composition du dit Benjamin Browning consiste des ingrédients suivants, combinés dans les proportions indiquées, savoir :—

Eau substantiellement pure	500 gallons.
Chaux vive	350 livres.
Carbonate de soude........................	100 "
Salpêtre (nitrate de métaux alcalins)	20 "
Soufre (fleurs de soufre préférable).	10 "

Ces ingrédients doivent être parfaitement mélangés en les agitant.

En se servant de la composition susdite les peaux doivent d'abord être débarrassées de tous sels et impuretés, en faisant tremper les peaux vertes un jour et les peaux sèches huit jours. Les peaux ainsi nettoyées sont alors placées dans la dite solution, et y sont laissées pendant quarante-huit heures. Elles doivent alors être sorties de la solution et le poil enlevé de la manière ordinaire.

Par l'emploi de la susdite composition le poil est promptement et parfaitement détaché, et les peaux, tout en retenant toute cette partie de la substance qui peut être convertie en cuir, sont en même temps entièrement nettoyées de la graisse et autres substances qui les empêcheraient d'être tannées promptement.

Je sais qu'une composition consistant en carbonate de soude, d'eau, de chaux et de soufre a été employée pour le même objet, et qu'un brevet pour icelle a été accordée à C.D., 10 juillet, 18 No. . Je sais aussi que le salpêtre a été employé dans des procédés dépilatoires ; mais je ne sache pas que tous les ingrédients de ma composition aient été employés ensemble.

Ce que je réclame et désire obtenir par lettres patentes de la Puissance du Canada, est ce qui suit :—

1. La composition ici décrite de matière, consistant d'eau, de chaux vive, de carbonate de soude, de salpêtre et de soufre, tel que décrit en substance et pour les fins spécifiées.

2. La composition ici décrite de matière pour dépiler et préparer les peaux pour le tannage, consistant d'eau pure, cinq cents gallons ; de chaux vive, trois cent cinquante livres ; de carbonate de soude, cent livres ; de salpêtre, vingt livres, et de fleurs de soufre, dix livres, tel que décrit.

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

SUR un rapport daté le 18 de juin 1898, du ministre de l'Intérieur, énonçant que par arrêté en conseil du 22 de janvier 1872, un bloc de terre à Winnipeg, contenant environ 50 acres, fut réservé pour des fins publiques, à même les terres qui constituaient autrefois la réserve faite par la Compagnie de la Baie d'Hudson à Fort Garry en haut. Subséquemment, par arrêté en conseil du 10 d'avril 1874, la moitié est de ce bloc de terre, sur lequel les édifices du gouvernement provincial sont situes, fut transférée à la province du Manitoba.

Le Ministre dit, de plus, qu'il est maintenant représenté qu'une partie de la balance de la réserve fédérale est requise par l'Université du Manitoba, et il est d'avis que cette demande devrait être accordée.

Le Ministre recommande qu'une partie de la dite réserve colorée rose sur le plan ci-joint, et contenant environ 6·60 acres, soit accordée au gouvernement de la province du Manitoba pour des fins d'éducation.

DEMANDES AU PARLEMENT.

Règles *in re* Avis de bills privés.

Dans le cas de toute demande de bills privés, proprement du ressort législatif du Parlement du Canada suivant les dispositions de l'Acte de l'Amérique Britannique du Nord, 1867, ayant pour objet la concession à une ou plusieurs personnes de certains droits ou privilèges exclusifs ou particuliers, ou le pouvoir de faire quelque chose qui, dans ses effets, pourrait toucher aux droits ou à la propriété d'autrui, ou concerner une classe particulière de la société ; ou ayant pour objet quelque amendement à un acte antérieur,—un avis, énonçant d'une manière claire et intelligible la nature et l'objet de la demande (sauf s'il s'agit de corporations déjà existantes) par les pétitionnaires ou de leur part est nécessaire et doit être publié comme il suit :—

Dans les provinces de Québec et du Manitoba.

Dans la *Gazette du Canada* en anglais et en français ainsi que dans un journal anglais et un journal français, du district intéressé, ou en anglais et en français dans le même journal, s'il ne s'en publie qu'un seul dans ce district ; ou s'il n'y paraît pas de journal, alors la publication de l'avis en anglais et en français doit se faire dans un journal du district le plus voisin où il s'en publie.

Dans les autres provinces ou territoires.

Dans la *Gazette du Canada*, et dans un journal du comté, du district ou des comtés-unis intéressés, ou s'il n'y paraît pas de journal alors la publication doit se faire dans un journal du comté ou district le plus voisin où il s'en publie. La publication de ces avis durera, dans chaque cas, la période de deux mois au moins pendant l'intervalle de temps qui s'écoulera entre la clôture de la session précédente et la prise en considération de la pétition. Des exemplaires marqués de tous les numéros des journaux reproduisant la première et la dernière insertion de l'avis, devront être transmis au greffier de chaque Chambre, et porter à l'endos " Demande de bill privé."

Si la pétition demande l'autorisation de présenter un bill privé ayant pour objet la construction d'un pont de péage, les pétitionnaires devront aussi, en même temps et de la même manière, donner avis du taux de péages projeté, de l'étendue du privilège, de la hauteur des arches, de l'espace à laisser libre entre les culées ou les piles pour le passage des radeaux et des navires ; et, si c'est un pont mobile, quelles en seront les dimensions.

Toute personne désirant obtenir un bill privé devra, dans les huit jours au moins qui précéderont l'ouverture du parlement, déposer au bureau du greffier de la Chambre dans laquelle le bill doit prendre naissance, une copie de ce bill en langue anglaise ou en langue française, avec une somme suffisante pour en payer la traduction et l'impression. Après la seconde lecture et avant la prise en considération du bill par tout comité, le pétitionnaire aura aussi à payer au greffier du Sénat, ou au comptable de la Chambre des Communes (selon le cas) un honoraire de $200, plus une somme suffisante pour défrayer le coût de l'impression de l'acte dans les Statuts, et remettra le reçu de ce paiement au greffier du comité auquel ce bill aura été renvoyé.

L'honoraire de $200 payable sur tout bill privé, ne sera payé que dans la Chambre où ce bill a pris naissance ; mais les frais de réimpression et de traduction nécessités par ce bill seront payés dans la Chambre où ces frais sont encourus.

Aucune pétition pour l'obtention d'un bill privé ne sera reçue par le Sénat ou par la Chambre des Communes, après les premières trois semaines de la session.

Aucun bill privé ne pourra être présenté au Sénat ou à la Chambre des Communes après les premières quatre semaines de la session.

EDOUARD J. LANGEVIN,
Greffier du Sénat.
JOHN GEORGE BOURINOT,
Greffier des Communes.

—

Règle spéciale du Sénat.

49. (*c.*) Chaque fois qu'un bill doit opérer dans plus d'une province, territoire ou district, l'avis sera publié dans la *Gazette du Canada* et dans un journal bien établi publié dans chaque province, territoire ou district où le bill doit opérer.

Ordre permanent.

Lorsqu'un bill confirmant un bail, une convention ou toute autre espèce de contrat, sera reçu ou présenté au Sénat, ce bail, cette convention ou cette autre espèce de contrat sera exposé dans un appendice ou autrement.

EDOUARD J. LANGEVIN,
Greffier du Sénat.

—

Règles additionnelles de la Chambre des Communes concernant les bills privés.

Tous les bills privés demandant des actes constitutifs devront être rédigés de manière à y incorporer, en les spécifiant, les *clauses* des Actes généraux concernant les détails qui font l'objet de ces bills ; des raisons spéciales seront données chaque fois que l'on aura l'intention de se départir de ce principe, ou que l'on voudra y introduire d'autres dispositions touchant ces détails ; et une note sera annexée au bill indiquant les dispositions au sujet desquelles l'on entend s'écarter de l'Acte général ; les bills qui ne seront pas rédigés conformément à cette Règle, devront être remodelés par les auteurs et réimprimés à leurs frais, avant qu'aucun comité en examine les clauses.

51*a*. Tous les bills privés pour chartes ou pour modification de chartes de compagnies de chemins de fer seront rédigés conformément au bill-modèle dont copie peut être obtenue du greffier de la Chambre ;

(*a.*) Les dispositions contenues dans un bill quelconque qui ne seront pas conformes au bill-modèle, seront insérées entre crochets, et après avoir été revisées par l'officier compétent, elles seront imprimées ainsi ; et les bills qui ne seront pas rédigés en conformité de cette règle seront renvoyés aux auteurs pour être remodelés avant leur revision et impression ;

(*b*.) Toutes clauses d'actes existants que l'on proposera de modifier, seront imprimées en entier, avec les amendements insérés en leur lieu et place, et entre crochets;

(*c*.) Toutes dispositions exceptionnelles que l'on proposera d'insérer dans un bill quelconque, seront imprimées dans l'avis publié.

51*b*. Nul bill pour la constitution légale d'une compagnie de chemin de fer ou pour changer le tracé du chemin de fer d'une compagnie déjà constituée ne sera pris en considération par le comité des chemins de fer à moins qu'il n'ait été donné au comité, au moins une semaine avant la prise en considération du bill—

(*a*.) Une carte ou plan à l'échelle de pas moins d'un demi-pouce au mille, indiquant le territoire sur lequel l'on se propose de construire les travaux projetés, ainsi que les lignes de travaux analogues existants ou autorisés, dans les limites du district, ou partie du district que la ligne projetée doit desservir, ou affectant le dit district en aucune manière; cette carte ou plan devra être signé par l'ingénieur ou toute autre personne qui l'aura fait;

(*b*.) Un exhibit faisant connaître le montant total du capital que l'on se propose de prélever pour les fins de l'entreprise, et la manière dont on se propose de le prélever, soit au moyen d'actions ordinaires, obligations, débentures ou autres garanties, et le montant respectif de chacune.

JOHN GEORGE BOURINOT,
Greffier des Communes.

ORDRE SPÉCIAL DE LA CHAMBRE DES COMMUNES.

Résolu,—Que le greffier de la Chambre adresse une copie de la Règle 49 modifiée aux personnes qui signifient dans la *Gazette du Canada* leur intention de s'adresser au parlement pour la passation d'un bill privé, ainsi qu'un avis portant que la dite Règle sera strictement appliquée à l'avenir:—

49. Les pétitions pour bills privés ne seront reçues par la Chambre que pendant les trois premières semaines de la session, et les bills privés ne pourront être présentés à la Chambre que pendant les quatre premières semaines de la session; et tout comité auquel aura été renvoyé un bill privé devra le prendre en considération et en faire rapport à la Chambre avec toute la diligence convenable.

2. Qu'il soit enjoint à tous les comités sur bills privés, dans le cas où les promoteurs ne seraient point prêts à procéder avec leurs mesures quand celles-ci auront été appelées deux fois en deux occasions différentes devant le comité pour y être considérées, de rapporter ces mesures à la Chambre sans délai, faisant connaître les faits, et avec la recommandation que ces bills soient retirés."

JOHN GEORGE BOURINOT,
Greffier des Communes.

SUBSTANCE DES RÈGLES ET FORMES DE PROCÉDER DU SÉNAT CONCERNANT LES BILLS DE DIVORCE.

L'époux qui a l'intention de demander un bill de divorce doit faire connaître cette intention, ainsi que les noms de l'autre époux et la cause du divorce, par avis inséré durant six mois avant la présentation de sa pétition pour obtenir le bill, dans la *Gazette du Canada* et dans deux journaux du district où il avait sa résidence habituelle à l'époque de séparation d'avec son conjoint, s'il résidait alors dans la province de Québec, le Manitoba, la Colombie-Britannique, ou les Territoires du Nord-Ouest,—ou du comté ou des comtés-unis, s'il résidait dans une autre province; mais si ce nombre de journaux ne s'y trouve pas, l'avis sera publié dans le district, le comté ou les comtés-unis voisins. Elle énoncera sommairement le fait du mariage, le lieu et l'époque de sa célébration, les noms du célébrant, les griefs qui donnent lieu à la demande de redressement et la nature du redressement demandé, et en outre contiendra assurance qu'il n'y a pas eu réconciliation, collusion ni connivence. Les allégations de la pétition seront appuyées de la déclaration du pétitionnaire faite en vertu de "l'Acte de la preuve en Canada, 1893."

Huit jours avant l'ouverture du Parlement, le pétitionnaire déposera au bureau du greffier du Sénat, une copie en langue anglaise ou française du bill de divorce qui doit être présenté, et en même temps une somme suffisante pour payer la traduction et l'impression et tirage à 600 exemplaires anglais et 200 exemplaires français de ce bill.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Monday, the 27th day of June, 1898.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

ON a Report, dated 20th May, 1898, from the Minister of the Interior, submitting, that by Orders in Council, dated respectively 3rd March, 1873, and 25th April, 1876, tracts of land in the Province of Manitoba were set apart for settlement by Mennonites exclusively, that is to say, some eight townships in Ranges 4, 5 and 6 on the east side of the Red River, and what is known as the Dufferin Mennonite Reserve on the west side of the said river, the latter being composed of Townships 2 and 3, in Ranges 1 to 5 inclusive, Townships 1, in Ranges 1 to 6 inclusive, west of the Principal Meridian, and Township 1, Range 1 east of the same Meridian.

The Minister states that fully one-half of the lands within the western Mennonite Reserve have passed out of the possession of the Mennonites to persons of other nationalities by sale and otherwise, and the few sections remaining vacant are inferior in quality and better adapted for stock purposes than for farming, with the exception of Township 6, Range 1 west, which is chiefly valuable for timber. The lands in the eastern Mennonite Reserve that have been disposed of are held almost exclusively by Mennonites, but comparatively very little of the lands in Townships 4 and 5, Range 6 east, have so far been taken up at all.

The Minister is of opinion that the purpose for which these Reserves were originally made has now been fully served, and as the Mennonites do not appear to be desirous of acquiring the lands remaining vacant, for which applications have been made by settlers belonging to other nationalities, the same should be thrown open for general settlement, and he therefore recommends that on and after the 1st day of August next, (1898) all the lands remaining vacant at that date in the western Mennonite Reserve, and in Townships 4 and 5 in Range 6 east, in the Eastern Mennonite Reserve, be thrown open for general settlement, except such portions thereof as it may be deemed advisable in the public interest to reserve for timber purposes.

The Minister further recommends that all lands remaining vacant in the Eastern Mennonite Reserve, outside of Townships 4 and 5 in Range 6 east above referred to, including both odd and even-numbered sections, be and remain open for homestead entry by Mennonites exclusively up to the 30th November, 1898, and that after that date all lands not then taken up be thrown open for general settlement.

The Committee submit the above recommendation for Your Excellency's approval.

H. G. LaMOTHE,
Assist. Clerk of the Privy Council.

(*a*) Licenses to cut timber shall be disposed of by public competition.

(*b*) Parties tendering will be required to state the sum or bonus per square mile which they will pay in addition to ground rent and royalty ; and each tender must be forwarded in a sealed envelope and be accompanied by the cash, or an accepted cheque of a chartered bank, payable to the order of the Deputy Minister or the Minister of the Interior for the amount of such bonus. No tender by telegraph will be accepted. The limit will be awarded to the party offering the highest bonus therefor.

(*c*) The length of any berth covered by a license shall in no case exceed three times the breadth thereof.

Section 2.

(*a*) The licensee shall pay an annual ground rent of five dollars per square mile, except for lands situated west of Eagle Pass, in the Province of British Columbia, in which case the yearly ground rent shall be five cents an acre.

(*b*) Within a month after the date of awarding a timber berth, the party in whose favour it is awarded shall pay rent for the year in advance, and if not then paid the said rent shall bear interest at the rate of six per cent per annum from that date until the same is paid.

(*c*) The licensee shall furnish the Crown Timber Agent, having jurisdiction in the matter, sworn returns monthly, or at such times as the Minister of the Interior may direct, accounting for the full quantity of sawn lumber and other products of timber manufactured and sold and otherwise disposed of, and pay the following Crown dues, that is to say :—

Sawn lumber, 50 cents per thousand feet, B.M.
Railway ties, 8 feet long...... 1½ cents each.
do 9 do ...... 1¾ do
Shingle bolts........................ 25 cents per cord.

And 5 per cent on the sales of all other products of the berth.

A rebate of forty cents per thousand feet, B.M., will be allowed on lumber exported from British Columbia to places outside of the Dominion of Canada, provided the licensee can produce evidence to the Crown Timber Agent as to the quantity exported.

(*d*) Should the licensee manufacture other timber at his mill, than that cut under his license or on Dominion Lands so as to make it difficult or impossible to keep a separate account of the sales thereof, he shall pay dues at the rates provided in the preceding sub-clause "*c*" on the amount of the lumber in the log, on returns required, under sub-clause "*e*."

(*e*) All licensees shall furnish to the Crown Timber Agent, having jurisdiction in the matter, monthly or at such time as the Minister of the Interior may direct through himself, his scaler and foreman, a statement in writing in detail, under oath, setting forth the number of pieces of timber, saw-logs and other material cut, caused to be cut or taken under his or their licenses during the month immediately preceding said statement, or for such other period as may be required, and the correct contents in board measure of the same, as shown by Scribner's log rule, if the timber has been cut in Manitoba, the North-west Territories or the district of Keewatin, and by the British Columbia log scale when cut within the Railway Belt of British Columbia.

(*f*) On the arrival of any raft or parcel of timber or saw-logs (cut or taken from Dominion lands) at the place where the same is to be manufactured or sold, and before the same becomes mixed with the timber or saw-logs, the owners or persons in charge thereof, shall report the same to the Crown Timber Agent having jurisdiction in the matter, making, if required, declaration upon oath as to where the said timber was cut, the number of pieces and the description of each kind of wood contained in such raft or parcel of timber and contents thereof in board measure, and should the Crown Timber Agent not be satisfied with the correctness of such report he shall cause a strict count and scale to be made of the timber on such raft ; and on being satisfied of the correctness of such report, or count, the Crown Timber Agent may grant a clearance in due form for such raft, when the same may be at the disposal of the owner or person in charge of the same. Should the number of pieces given in the report of the owner or person in charge be found by the specification of measurement to contain a greater number of pieces or contain a greater number of feet in board measure than is given by the owner or agent's report, the surplus number of pieces or overplus, if not satisfactorily explained, shall be held as having been cut on Dominion lands without authority and subject to payment of dues accordingly. This clause only to have force in the case of a licensee making payment of dues on the quantity of lumber contained in the timber or saw-log by log scale.

(*g*) The licensee shall also pay the Crown dues prescribed by the regulations on any lumber or other timber products on which the dues have not previously been paid which may be damaged or consumed by fire or otherwise destroyed.

Licensees will not be required to pay royalty dues on the sales of slabs, for fuel purposes, or on saw-dust.

(*h*) Saw-logs and other timber for manufacture, taken from the berth, must be manufactured at the saw-mill of the licensee to be operated in connection with the berth, as prescribed by sub-clause "*j*."

All timber before being put into any stream or lake to be floated to the mill, must be marked with a stamp

furnished by the licensee and approved by the Crown Timber Agent, a copy of said stamp to be placed on record in the Crown Timber Office.

(*i*) It is required that all licensees, through themselves, their scalers and foremen, shall furnish proof on oath on the said first day of May of each year, or at such other time as the Minister may direct, as to the exact locality, by a ground sketch, where all timber, saw-logs or other lumber cut by themselves and others, to their knowledge, upon the timber berth held or occupied by him or them, respectively, have been cut.

(*j*) The licensee shall have in operation within a year from the date when he is notified by the proper officer of the Department of the Interior that the Minister of the Interior regards such a step necessary or expedient in the public interest, and keep in operation for at least six months of each year of his holding a saw-mill, in connection with his berth, capable of cutting in twenty-four hours a thousand feet, board measure, for every two and a half square miles of the area licensed, or shall establish such other manufactory of wood goods as the Minister accepts as equivalent thereto.

(*k*) Any right to a timber berth cannot be assigned or transferred without the consent of the Minister of the Interior.

(*l*) All timber licenses shall expire on the 30th of April next after the date thereof.

Section 3.

When a licensee has complied with all the conditions herein set forth in his license and the regulations, and where no portion of the timber berth is required for settlement or other public purpose, of which the Minister of the Interior is to be the judge, the license may be renewed for another year, subject to such revision of the annual rental and royalty to be paid therefor as may be fixed by the Governor in Council.

Section 4.

(*a*) The person who has acquired a timber berth shall receive a license so soon as the berth has been awarded to him, but the licensee before he cuts any timber thereunder shall cause to be made at his own expense, under the instructions of the Surveyor General, a survey of his timber berth by a duly qualified Dominion Land Surveyor, and the plan and field notes of such survey shall be deposited on record in the Department of the Interior; and he shall be held liable for the dues upon timber that may be cut by any one on the berth subsequent to ten days from the date upon which he is notified that the berth has been awarded to him. The dues upon such timber to be fixed by the Minister of the Interior.

(*b*) In surveyed territory, berths shall consist of township sections, their legal subdivisions or fractions thereof.

Section 5.

If, in consequence of any incorrectness in survey or other error or cause whatever, a timber berth is found to comprise lands included in another berth awarded at a prior date, or any lands sold, granted, leased or lawfully set apart for any other purpose under these regulations or the Dominion Lands Act, the later berth shall be void in so far as it interferes with any previous sale, grant or setting apart.

Section 6.

All ground rents, royalties or other dues on timber cut within the boundaries of any timber berth, which are not paid at the time when they become due shall bear interest at the rate of six per cent per annum until paid, and shall be a lien on any timber cut within such limits; or on other Dominion Lands by the licensee or his agents; and in case of such nonpayment—whether, in consequence thereof the license of the berth has or has not been cancelled—the Crown Timber Agent or other person authorized thereto may, with the sanction of the Minister, seize so much of the timber cut on such berth or other Dominion lands by the licensee or his agents, as will in his opinion, be sufficient to secure the payment of such rent or royalty and all interest and expenses of seizure and sale, and may detain the same as security for the payment thereof; and if payment is not made within three months after such seizure, he may, with the sanction of the Minister, sell such timber by public auction, and after deducting the sum due to the Crown, the interest thereon and expenses aforesaid, he shall pay over the balance, if any, to the licensee, if the timber was in his possession at the time of seizure, or if it was not, to the person who had possession thereof at the time.

Section 7.

All timber cut under license shall be liable for the payment of the Crown dues thereon, whenever and wherever the said timber or any part of it is found, whether it is or is not converted into deals, boards or any other manufacture of wood; and all officers or agents employed in the collection of such dues may follow all such timber and may seize and detain the same wherever it is found, until the dues thereon are paid or secured, as provided in the next preceding clause.

Section 8.

If the payment of the Crown dues on any timber has been evaded by any licensee or other person, by the removal of such timber or products out of Canada, or otherwise, the amount of dues so evaded and any expenses incurred by the Crown in enforcing payment of the said dues under the Dominion Lands Act, may be added to the dues remaining to be collected on any other timber cut on any timber berth by the licensee or by his authority, and may be levied and collected or secured on such timber, together with such last mentioned dues, in the manner hereinbefore provided; or the amount due to the Crown, of which payment has been evaded, may be recovered by action or suit in the name of the Minister or his agent, in any court of competent jurisdiction.

Section 9.

The Minister may take or authorize the taking of bonds or promissory notes for any money due to the Crown, as aforesaid, or, in his discretion, for double the amount of any dues, penalties and costs incurred or to be incurred, and may, if it is under seizure, then release any timber upon which the same would be leviable, but the taking of such bonds or notes shall not affect the right of the Crown to enforce payment of such money, and the debt shall be a lien on any timber cut on the same or on any other berth by the licensee or by his authority, if the sums for which such bonds or notes are given are not paid when due.

FORM OF TIMBER LICENSE.

Section 10.

The following is the form of license to be used in respect of timbered lands:—

Know all men by these presents, that by virtue of the authority vested in me by the Dominion Lands Act, that by an Order of His Excellency the Governor General in Council, of the day of , 18 , I, , the Minister of the Interior, of Canada, do hereby in consideration of the sum of , ground rent, now paid to me for the use of Her Majesty, and in consideration of the royalty hereinafter mentioned, given unto , hereinafter called the licensee, executors and administrators, full right, power and license, subject to the conditions and restrictions hereinafter mentioned and contained, and such other conditions and restrictions as are in that behalf contained in the Dominion Lands Act and the amendments thereto, and in the regulations respecting timber passed by the Governor General in Council, to cut timber on the following tract of land (hereinafter called the "berth" or "berths"), that is to say:— , and to take and keep exclusive possession of the said lands, except as hereinafter mentioned, for and during the period of one year from the day of , 18 , to the day of , 18 , and no longer.

This license shall vest in the licensee, subject to the conditions hereinafter mentioned, all right of property whatsoever in all trees, timber, lumber, and other products of timber cut within the "berths," during the continuance thereof, whether such trees, timber and

lumber or products be cut by authority of the licensee or by any other person, with or without consent; and shall entitle the licensee to seize in replevin, revendication or otherwise, as property, such timber where the same is found in the possession of any unauthorized person, and also to bring any action or suit at law or in equity, against any party unlawfully in possession of any such timber or of any land so leased, and to prosecute all trespassers thereon and other such offenders as aforesaid, to conviction and punishment, and to recover damages, if any, and all proceedings pending at the expiration of this license may be continued and completed as if the same had not expired.

This license is subject to the following conditions and restrictions in addition to such of the conditions and restrictions as are in that behalf contained in the Dominion Lands Act and the amendments thereto, and in the regulations respecting timber passed by order of the Governor General in Council:—

1. That the licensee shall not have the right thereunder to cut timber of a less diameter than ten (10) inches at the stump except such as may be actually necessary for the construction of roads, &c., to facilitate the taking out of merchantable timber.

2. That this license shall not be allowed to interfere with the settlement of any lands within the "berths" which may be desirable for settlement, the Minister of the Interior to be the judge of the fact, and the only recourse of the licensee against the ruling of the Minister in favour of permitting settlement within such "berths" to be that (the licensee) may within sixty days after receiving notice to the above effect from the local agent of Dominion Lands, remove all timber on such lands which may be over ten inches in diameter at the stump.

Further, that this license shall not prevent individual Homestead Settlers holding free permits heretofore or hereafter given under the Order in Council, dated the seventeenth day of September, 1889, or under any subsequent Order in Council passed in such behalf from cutting and removing from the land covered by this license such quantity of building timber, fence rails, or fire wood, as such permit may set forth, and the Government may, notwithstanding this license, give such permit to individual settlers from time to time under said Order in Council or any subsequent Order in Council.

3. That the licensee shall take from every tree cut down all the timber fit for use, and manufacture the same into sawn lumber or some other saleable product.

4. That the licensee shall prevent all unnecessary destruction of growing timber on the part of his men, and exercise strict and constant supervision to prevent the origin or spread of fires.

5. That the licensee shall make returns to the Government monthly, or at such other periods as may be required by the Minister of the Interior, or by regulations under the said Act, sworn to by him or by his agent or employee, cognizant of the facts, declaring the quantities manufactured, sold or disposed of, of all sawn lumber, timber, or any other product of timber from the berth with the exception of slabs for fuel and saw-dust, in whatever form the same may be sold or otherwise disposed of by him during such month or other period, and the price or value thereof.

6. That the licensee shall pay, in addition to the said ground rent, dues in the manner prescribed in subsection "c," section 2 of the Timber Regulations.

7. That the licensee shall keep a "lumber sales book" in which shall be entered all sales of the products of the berth, both cash and credit sales, also a book accounting for the number of feet of sawn lumber manufactured each day at the mill, with day and date; all books and memoranda kept at the logging camps shall be carefully preserved and these and other books kept by the licensee in connection with his lumbering business he shall submit for the inspection of the Crown Timber Agent or other officer of the Crown whenever required for the purpose of verifying his returns aforesaid.

8. This license shall be subject to the right of the Crown to deal in accordance with the provisions of the said Act, and the regulations made under it by the Governor in Council with any and all stone, coal and other minerals found within the limits of the berth licensed; and the Crown shall have the right in dealing, as above provided, with any stone, coal or other minerals in lands licensed as timber limits to authorize the persons to whom such stone, coal or other minerals are granted, to take possession of and occupy such extent of the land so licensed as is necessary to work such stone, coal or other minerals, and to open necessary roads through any such timber berth paying the licensee of the berth the value of any and all timber of a diameter of ten inches at the stump and upwards, necessarily cut in making such roads or in working the quarries or mines, such value in case of dispute to be fixed by the Minister of the Interior; and the provisions of this clause shall operate retrospectively, that is to say: They shall apply to all licenses of timber berths heretofore granted under any Act respecting Dominion lands, as if they had been contained in such Act when it was passed.

9. The license shall be subject to forfeiture for infraction of any one of the conditions to which it is subject, or for any fraudulent return; and in such case the Minister of the Interior shall have the right without any suit or other proceeding at law or in equity, or compensation to the licensee, to cancel the same, and to make a new license or disposition of the said "berth" to any other party, at any time during the term hereby granted. Provided that the Minister of the Interior if he sees fit, may refrain from forfeiting such license for non-payment of dues, and may enforce payment of such dues in the manner provided by the said Act:—

Provided, that if during the said term of one year any actual waiver on the part of the Minister of the Interior, or of any one on his behalf, of the benefit of any condition in this license shall take place in any one particular instance, such actual waiver shall not be assumed or deemed to extend in any instance or any breach of such condition, other than that to which such waiver shall specially relate, nor to be a general waiver of the benefit of such condition. Provided that whenever in the above conditions the word "licensee" occurs, it is to be taken to extend to and include the executors, administrators and assigns of the "licensee."

Provided further that the Minister of the Interior shall be the sole judge of the fact in regard to infraction or alleged infraction of any one of the conditions of this license, and that his decision in relation thereto shall be binding and conclusive.

10. That should the Canadian Pacific Railway Company, or any other railway company, become entitled to a grant from Her Majesty or Her successors of any portion of the lands hereby demised, whether as part of their land subsidy provided for by the Statutes of Canada, or for the road-bed of the railway, or its branches, or for stations, station grounds, workshops, dock grounds and water frontage on navigable waters, building yards and other appurtenances required for the convenient and effectual construction and working of the railway and its branches, and if Her Majesty or successors grant the same, the land so granted shall as soon as due notice thereof in writing has been served upon the licensee, or his legal representatives be withdrawn from the operation of this license, but the licensee or his legal representatives shall be at liberty to remove all timber then cut and all other property belonging to him then on the lands thereby withdrawn from the operation of this license.

11. This license cannot be assigned or transferred without the consent of the Minister of the Interior.

12. The licensee shall have in operation within one year from a date when he is notified by the proper officer of the Department of the Interior that the Minister of the Interior regards such a step necessary or expedient in the public interest and keep in operation, for at least six months of each year of his holding, a saw-mill in connection with the berth herein

TIMBER FOR HOMESTEADERS.

Section 20.

Any occupant of a homestead quarter-section having no timber of his own suitable for the purposes hereunder mentioned, may, providing he has not previously obtained a free allowance of timber, obtain a permit to cut such quantity of building timber, fencing timber or fuel as he may require for use on the land he owns and occupies, not exceeding the following :—

(*a*) 3,000 lineal feet of building timber, no log to be over 12 inches at the butt end, unless the timber is cut from dry trees, in which case timber of any diameter may be taken.

Should the building timber be sawn at a mill, the permittee will be entitled to receive free of dues 6,750 feet, board measure, of lumber therefrom and no more, or in the proportion of 225 feet, board measure, to 100 lineal feet of timber manufactured.

Section 22.

In order that mill-owners may be able to give satisfactory evidence that saw-logs or lumber found in their possession have been lawfully cut, they shall require from settlers bringing timber to be sawn, proof that the same has not been cut on Dominion lands, or that it has been cut under a permit, which the settler should produce in order that its number, its date, and the name of the permittee may be noted by the mill-owner. The latter should also record the quantity of such timber sawn by him, so that he may be in a position to duly protect himself should an account or return thereof be demanded by agents of the Department.

DEMANDES AU PARLEMENT.

RÈGLES *in re* AVIS DE BILLS PRIVÉS.

Dans le cas de toute demande de bills privés, proprement du ressort législatif du Parlement du Canada suivant les dispositions de l'Acte de l'Amérique Britannique du Nord, 1867, ayant pour objet la concession à une ou plusieurs personnes de certains droits ou privilèges exclusifs ou particuliers, ou le pouvoir de faire quelque chose qui, dans ses effets, pourrait toucher aux droits ou à la propriété d'autrui, ou concerner une classe particulière de la société ; ou ayant pour objet quelque amendement à un acte antérieur,—un avis, énonçant d'une manière claire et intelligible la nature et l'objet de la demande (sauf s'il s'agit de corporations déjà existantes) par les pétitionnaires ou de leur part est nécessaire et doit être publié comme il suit :—

Dans les provinces de Québec et du Manitoba.

Dans la *Gazette du Canada* en anglais et en français, ainsi que dans un journal anglais et un journal français, du district intéressé, ou en anglais et en français dans le même journal, s'il ne s'en publie qu'un seul dans ce district ; ou s'il n'y paraît pas de journal, alors la publication de l'avis en anglais et en français doit se faire dans un journal du district le plus voisin où il s'en publie.

Dans les autres provinces ou territoires.

Dans la *Gazette du Canada*, et dans un journal du comté, du district ou des comtés-unis intéressés, ou s'il n'y paraît pas de journal alors la publication doit se faire dans un journal du comté ou district le plus voisin où il s'en publie. La publication de ces avis durera, dans chaque cas, la période de deux mois au moins pendant l'intervalle de temps qui s'écoulera entre la clôture de la session précédente et la prise en considération de la pétition. Des exemplaires marqués de tous les numéros des journaux reproduisant la première et la dernière insertion de l'avis, devront être transmis au greffier de chaque Chambre, et porter à l'endos "Demande de bill privé."

Si la pétition demande l'autorisation de présenter un bill privé ayant pour objet la construction d'un pont de péage, les pétitionnaires devront aussi, en même temps et de la même manière, donner avis du taux de péages projeté, de l'étendue du privilège, de la hauteur des arches, de l'espace à laisser libre entre les culées ou les piles pour le passage des radeaux et des navires ; et, si c'est un pont mobile, quelles en seront les dimensions.

Toute personne désirant obtenir un bill privé devra, dans les huit jours au moins qui précéderont l'ouverture du parlement, déposer au bureau du greffier de la Chambre dans laquelle le bill doit prendre naissance, une copie de ce bill en langue anglaise ou en langue française, avec une somme suffisante pour en payer la traduction et l'impression. Après la seconde lecture et avant la prise en considération du bill par tout comité, le pétitionnaire aura aussi à payer au greffier du Sénat, ou au comptable de la Chambre des Communes (selon le cas) un honoraire de $200, plus une somme suffisante pour défrayer le coût de l'impression de l'acte dans les Statuts, et remettra le reçu de ce paiement au greffier du comité auquel ce bill aura été renvoyé.

L'honoraire de $200 payable sur tout bill privé, ne sera payé que dans la Chambre où ce bill a pris naissance ; mais les frais de réimpression et de traduction nécessités par ce bill seront payés dans la Chambre où ces frais sont encourus.

Aucune pétition pour l'obtention d'un bill privé ne sera reçue par le Sénat ou par la Chambre des Communes, après les premières trois semaines de la session.

Aucun bill privé ne pourra être présenté au Sénat ou à la Chambre des Communes après les premières quatre semaines de la session.

EDOUARD J. LANGEVIN,
Greffier du Sénat.
JOHN GEORGE BOURINOT,
Greffier des Communes.

RÈGLE SPÉCIALE DU SÉNAT.

49. (*c.*) Chaque fois qu'un bill doit opérer dans plus d'une province, territoire ou district, l'avis sera publié dans la *Gazette du Canada* et dans un journal bien établi publié dans chaque province, territoire ou district où le bill doit opérer.

ORDRE PERMANENT.

Lorsqu'un bill confirmant un bail, une convention ou toute autre espèce de contrat, sera reçu ou présenté au Sénat, ce bail, cette convention ou cette autre espèce de contrat sera exposé dans un appendice ou autrement.

EDOUARD J. LANGEVIN,
Greffier du Sénat.

RÈGLES ADDITIONNELLES DE LA CHAMBRE DES COMMUNES CONCERNANT LES BILLS PRIVÉS.

Tous les bills privés demandant des actes constitutifs devront être rédigés de manière à y incorporer, en les spécifiant, les *clauses* des Actes généraux concernant les détails qui font l'objet de ces bills ; des raisons spéciales seront données chaque fois que l'on aura l'intention de se départir de ce principe, ou que l'on voudra y introduire d'autres dispositions touchant ces détails ; et une note sera annexée au bill indiquant les dispositions au sujet desquelles l'on entend s'écarter de l'Acte général ; les bills qui ne seront pas rédigés conformément à cette Règle, devront être remodelés par les auteurs et réimprimés à leurs frais, avant qu'aucun comité en examine les clauses.

51*a*. Tous les bills privés pour chartes ou pour modification de chartes de compagnies de chemins de fer seront rédigés conformément au bill-modèle dont copie peut être obtenue du greffier de la Chambre ;

(*a.*) Les dispositions contenues dans un bill quelconque qui ne seront pas conformes au bill-modèle, seront insérées entre crochets, et après avoir été revisées par l'officier compétent, elles seront imprimées ainsi ; et les bills qui ne seront pas rédigés en conformité de cette règle seront renvoyés aux auteurs pour être remodelés avant leur revision et impression ;

(*b.*) Toutes clauses d'actes existants que l'on proposera de modifier, seront imprimées en entier, avec les amendements insérés en leur lieu et place, et entre crochets;

(*c.*) Toutes dispositions exceptionnelles que l'on proposera d'insérer dans un bill quelconque, seront imprimées dans l'avis publié.

51*b.* Nul bill pour la constitution légale d'une compagnie de chemin de fer ou pour changer le tracé du chemin de fer d'une compagnie déjà constituée ne sera pris en considération par le comité des chemins de fer à moins qu'il n'ait été donné au comité, au moins une semaine avant la prise en considération du bill—

(*a.*) Une carte ou plan à l'échelle de pas moins d'un demi-pouce au mille, indiquant le territoire sur lequel l'on se propose de construire les travaux projetés, ainsi que les lignes de travaux analogues existants ou autorisés, dans les limites du district, ou partie du district que la ligne projetée doit desservir, ou affectant le dit district en aucune manière ; cette carte ou plan devra être signé par l'ingénieur ou toute autre personne qui l'aura fait ;

(*b.*) Un exhibit faisant connaître le montant total du capital que l'on se propose de prélever pour les fins de l'entreprise, et la manière dont on se propose de le prélever, soit au moyen d'actions ordinaires, obligations, débentures ou autres garanties, et le montant respectif de chacune.

JOHN GEORGE BOURINOT,
Greffier des Communes.

ORDRE SPÉCIAL DE LA CHAMBRE DES COMMUNES.

Résolu,—Que le greffier de la Chambre adresse une copie de la Règle 49 modifiée aux personnes qui signifient dans la *Gazette du Canada* leur intention de s'adresser au parlement pour la passation d'un bill privé, ainsi qu'un avis portant que la dite Règle sera strictement appliquée à l'avenir :—

49. Les pétitions pour bills privés ne seront reçues par la Chambre que pendant les trois premières semaines de la session, et les bills privés ne pourront être présentés à la Chambre que pendant les quatre premières semaines de la session ; et tout comité auquel aura été renvoyé un bill privé devra le prendre en considération et en faire rapport à la Chambre avec toute la diligence convenable.

2. Qu'il soit enjoint à tous les comités sur bills privés, dans le cas où les promoteurs ne seraient point prêts à procéder avec leurs mesures quand celles-ci auront été appelées deux fois en deux occasions différentes devant le comité pour y être considérées, de rapporter ces mesures à la Chambre sans délai, faisant connaître les faits, et avec la recommandation que ces bills soient retirés."

JOHN GEORGE BOURINOT,
Greffier des Communes.

SUBSTANCE DES RÈGLES ET FORMES DE PROCÉDER DU SÉNAT CONCERNANT LES BILLS DE DIVORCE.

L'époux qui a l'intention de demander un bill de divorce doit faire connaître cette intention, ainsi que les noms de l'autre époux et la cause du divorce, par avis inséré durant six mois avant la présentation de sa pétition pour obtenir le bill, dans la *Gazette du Canada* et dans deux journaux du district où il avait sa résidence habituelle à l'époque de séparation d'avec son conjoint, s'il résidait alors dans la province de Québec, le Manitoba, la Colombie-Britannique, ou les Territoires du Nord-Ouest,—ou du comté ou des comtés-unis, s'il résidait dans une autre province ; mais si ce nombre de journaux ne s'y trouve pas, l'avis sera publié dans le district, le comté ou les comtés-unis voisins. Dans les provinces de Québec et de Manitoba, les insertions seront faites dans un journal anglais et un journal français, s'il en existe des deux langues dans le district : autrement, elles se feront en anglais et en français au même journal.

Il doit être signifié, à la diligence de l'époux pétitionnaire, un mois au moins avant la présentation de la pétition, une copie de cet avis à l'autre époux en personne, si cela est possible.

Aucune pétition en divorce n'est reçue après l'expiration des trente premiers jours de la session.

Toute pétition en divorce devra être écrite lisiblement et porter la signature du pétitionnaire. Elle énoncera sommairement le fait du mariage, le lieu et l'époque de sa célébration, les noms du célébrant, les griefs qui donnent lieu à la demande de redressement et la nature du redressement demandé, et en outre contiendra assurance qu'il n'y a pas eu réconciliation, collusion ni connivence. Les allégations de la pétition seront appuyées de la déclaration du pétitionnaire faite en vertu de "l'Acte de la preuve en Canada, 1893."

Huit jours avant l'ouverture du Parlement, le pétitionnaire déposera au bureau du greffier du Sénat, une copie en langue anglaise ou française du bill de divorce qui doit être présenté, et en même temps une somme suffisante pour payer la traduction et l'impression et tirage à 600 exemplaires anglais et 200 exemplaires français de ce bill.

Section 1.

(*a*) Licenses to cut timber shall be disposed of by public competition.

(*b*) Parties tendering will be required to state the sum or bonus per square mile which they will pay in addition to ground rent and royalty; and each tender must be forwarded in a sealed envelope and be accompanied by the cash, or an accepted cheque of a chartered bank, payable to the order of the Deputy Minister or the Minister of the Interior for the amount of such bonus. No tender by telegraph will be accepted. The limit will be awarded to the party offering the highest bonus therefor.

(*c*) The length of any berth covered by a license shall in no case exceed three times the breadth thereof.

Section 2.

(*a*) The licensee shall pay an annual ground rent of five dollars per square mile, except for lands situated west of Eagle Pass, in the Province of British Columbia, in which case the yearly ground rent shall be five cents an acre.

(*b*) Within a month after the date of awarding a timber berth, the party in whose favour it is awarded shall pay rent for the year in advance, and if not then paid the said rent shall bear interest at the rate of six per cent per annum from that date until the same is paid.

(*c*) The licensee shall furnish the Crown Timber Agent, having jurisdiction in the matter, sworn returns monthly, or at such times as the Minister of the Interior may direct, accounting for the full quantity of sawn lumber and other products of timber manufactured and sold and otherwise disposed of, and pay the following Crown dues, that is to say:—

Sawn lumber, 50 cents per thousand feet, B.M.
Railway ties, 8 feet long...... 1½ cents each.
do 9 do ...... 1¾ do
Shingle bolts...................... 25 cents per cord.

And 5 per cent on the sales of all other products of the berth.

A rebate of forty cents per thousand feet, B.M., will be allowed on lumber exported from British Columbia to places outside of the Dominion of Canada, provided the licensee can produce evidence to the Crown Timber Agent as to the quantity exported.

(*d*) Should the licensee manufacture other timber at his mill, than that cut under his license or on Dominion Lands so as to make it difficult or impossible to keep a separate account of the sales thereof, he shall pay dues at the rates provided in the preceding sub-clause "*c*" on the amount of the lumber in the log, on returns required, under sub-clause "*e*."

(*e*) All licensees shall furnish to the Crown Timber Agent, having jurisdiction in the matter, monthly or at such time as the Minister of the Interior may direct through himself, his scaler and foreman, a statement in writing in detail, under oath, setting forth the number of pieces of timber, saw-logs and other material cut, caused to be cut or taken under his or their licenses during the month immediately preceding said statement, or for such other period as may be required, and the correct contents in board measure of the same, as shown by Scribner's log rule, if the timber has been cut in Manitoba, the North-west Territories or the district of Keewatin, and by the British Columbia log scale when cut within the Railway Belt of British Columbia.

(*f*) On the arrival of any raft or parcel of timber or saw-logs (cut or taken from Dominion lands) at the place where the same is to be manufactured or sold, and before the same becomes mixed with the timber or saw-logs, the owners or persons in charge thereof, shall report the same to the Crown Timber Agent having jurisdiction in the matter, making, if required, declaration upon oath as to where the said timber was cut, the number of pieces and the description of each kind of wood contained in such raft or parcel of timber and contents thereof in board measure, and should the Crown Timber Agent not be satisfied with the correctness of such report he shall cause a strict count and scale to be made of the timber on such raft; and on being satisfied of the correctness of such report, or count, the Crown Timber Agent may grant a clearance in due form for such raft, when the same may be at the disposal of the owner or person in charge of the same. Should the number of pieces given in the report of the owner or person in charge be found by the specification of measurement to contain a greater number of pieces or contain a greater number of feet in board measure than is given by the owner or agent's report, the surplus number of pieces or overplus, if not satisfactorily explained, shall be held as having been cut on Dominion lands without authority and subject to payment of dues accordingly. This clause only to have force in the case of a licensee making payment of dues on the quantity of lumber contained in the timber or saw-log by log scale.

(*g*) The licensee shall also pay the Crown dues prescribed by the regulations on any lumber or other timber products on which the dues have not previously been paid which may be damaged or consumed by fire or otherwise destroyed.

Licensees will not be required to pay royalty dues on the sales of slabs, for fuel purposes, or on saw-dust.

(*h*) Saw-logs and other timber for manufacture, taken from the berth, must be manufactured at the saw-mill of the licensee to be operated in connection with the berth, as prescribed by sub-clause "*j*."

All timber before being put into any stream or lake to be floated to the mill, must be marked with a stamp furnished by the licensee and approved by the Crown Timber Agent, a copy of said stamp to be placed on record in the Crown Timber Office.

(*i*) It is required that all licensees, through themselves, their scalers and foremen, shall furnish proof on oath on the said first day of May of each year, or at such other time as the Minister may direct, as to the exact locality, by a ground sketch, where all timber, saw-logs or other lumber cut by themselves and others, to their knowledge, upon the timber berth held or occupied by him or them, respectively, have been cut.

(*j*) The licensee shall have in operation within a year from the date when he is notified by the proper officer of the Department of the Interior that the Minister of the Interior regards such a step necessary or expedient in the public interest, and keep in operation for at least six months of each year of his holding a saw-mill, in connection with his berth, capable of cutting in twenty-four hours a thousand feet, board measure, for every two and a half square miles of the area licensed, or shall establish such other manufactory of wood goods as the Minister accepts as equivalent thereto.

(*k*) Any right to a timber berth cannot be assigned or transferred without the consent of the Minister of the Interior.

(*l*) All timber licenses shall expire on the 30th of April next after the date thereof.

Section 3.

When a licensee has complied with all the conditions herein set forth in his license and the regulations, and where no portion of the timber berth is required for settlement or other public purpose, of which the Minister of the Interior is to be the judge, the license may be renewed for another year, subject to such revision of the annual rental and royalty to be paid therefor as may be fixed by the Governor in Council.

Section 4.

(*a*) The person who has acquired a timber berth shall receive a license so soon as the berth has been awarded to him, but the licensee before he cuts any timber thereunder shall cause to be made at his own expense, under the instructions of the Surveyor General, a survey of his timber berth by a duly qualified Dominion Land Surveyor, and the plan and field notes of such survey shall be deposited on record in the Department of the Interior; and he shall be held liable for the dues upon timber that may be cut by any one on the berth subsequent to ten days from the date upon which he is notified that the berth has been awarded to him. The dues upon such timber to be fixed by the Minister of the Interior.

(*b*) In surveyed territory, berths shall consist of township sections, their legal subdivisions or fractions thereof.

Section 5.

If, in consequence of any incorrectness in survey or other error or cause whatever, a timber berth is found to comprise lands included in another berth awarded at a prior date, or any lands sold, granted, leased or lawfully set apart for any other purpose under these regulations or the Dominion Lands Act, the later berth shall be void in so far as it interferes with any previous sale, grant or setting apart.

Section 6.

All ground rents, royalties or other dues on timber cut within the boundaries of any timber berth, which are not paid at the time when they become due shall bear interest at the rate of six per cent per annum until paid, and shall be a lien on any timber cut within such limits; or on other Dominion Lands by the licensee or his agents; and in case of such non-payment—whether, in consequence thereof the license of the berth has or has not been cancelled—the Crown Timber Agent or other person authorized thereto may, with the sanction of the Minister, seize so much of the timber cut on such berth or other Dominion lands by the licensee or his agents, as will in his opinion, be sufficient to secure the payment of such rent or royalty and all interest and expenses of seizure and sale, and may detain the same as security for the payment thereof; and if payment is not made within three months after such seizure, he may, with the sanction of the Minister, sell such timber by public auction, and after deducting the sum due to the Crown, the interest thereon and expenses aforesaid, he shall pay over the balance, if any, to the licensee, if the timber was in his possession at the time of seizure, or if it was not, to the person who had possession thereof at the time.

Section 7.

All timber cut under license shall be liable for the payment of the Crown dues thereon, whenever and wherever the said timber or any part of it is found, whether it is or is not converted into deals, boards or any other manufacture of wood; and all officers or agents employed in the collection of such dues may follow all such timber and may seize and detain the same wherever it is found, until the dues thereon are paid or secured, as provided in the next preceding clause.

Section 8.

If the payment of the Crown dues on any timber has been evaded by any licensee or other person, by the removal of such timber or products out of Canada, or otherwise, the amount of dues so evaded and any expenses incurred by the Crown in enforcing payment of the said dues under the Dominion Lands Act, may be added to the dues remaining to be collected on any other timber cut on any timber berth by the licensee or by his authority, and may be levied and collected or secured on such timber, together with such last mentioned dues, in the manner hereinbefore provided; or the amount due to the Crown, of which payment has been evaded, may be recovered by action or suit in the name of the Minister or his agent, in any court of competent jurisdiction.

Section 9.

The Minister may take or authorize the taking of bonds or promissory notes for any money due to the Crown, as aforesaid, or, in his discretion, for double the amount of any dues, penalties and costs incurred or to be incurred, and may, if it is under seizure, then release any timber upon which the same would be leviable, but the taking of such bonds or notes shall not affect the right of the Crown to enforce payment of such money, and the debt shall be a lien on any timber cut on the same or on any other berth by the licensee or by his authority, if the sums for which such bonds or notes are given are not paid when due.

FORM OF TIMBER LICENSE.

Section 10.

The following is the form of license to be used in respect of timbered lands:—

Know all men by these presents, that by virtue of the authority vested in me by the Dominion Lands Act, that by an Order of His Excellency the Governor General in Council, of the   day of   , 18   , I,   , the Minister of the Interior, of Canada, do hereby in consideration of the sum of   , ground rent, now paid to me for the use of Her Majesty, and in consideration of the royalty hereinafter mentioned, given unto   , hereinafter called the licensee, executors and administrators, full right, power and license, subject to the conditions and restrictions hereinafter mentioned and contained, and such other conditions and restrictions as are in that behalf contained in the Dominion Lands Act and the amendments thereto, and in the regulations respecting timber passed by the Governor General in Council, to cut timber on the following tract of land (hereinafter called the "berth" or "berths") that is to say:—   , and to take and keep exclusive possession of the said lands, except as hereinafter mentioned, for and during the period of one year from the   day of   , 18   , to the   day of   , 18   , and no longer.

This license shall vest in the licensee, subject to the conditions hereinafter mentioned, all right of property whatsoever in all trees, timber, lumber, and other products of timber cut within the "berths," during the continuance thereof, whether such trees, timber and lumber or products be cut by authority of the licensee or by any other person, with or without consent; and shall entitle the licensee to seize in replevin, revendication or otherwise, as property, such timber where the same is found in the possession of any unauthorized person, and also to bring any action or suit at law or in equity, against any party unlawfully in possession of any such timber or of any land so leased, and to prosecute all trespassers thereon and other such offenders as aforesaid, to conviction and punishment, and to recover damages, if any, and all proceedings pending at the expiration of this license may be continued and completed as if the same had not expired.

This license is subject to the following conditions and restrictions in addition to such of the conditions and restrictions as are in that behalf contained in the Dominion Lands Act and the amendments thereto, and in the regulations respecting timber passed by order of the Governor General in Council:—

1. That the licensee shall not have the right thereunder to cut timber of a less diameter than ten (10) inches at the stump except such as may be actually necessary for the construction of roads, &c., to facilitate the taking out of merchantable timber.

2. That this license shall not be allowed to interfere with the settlement of any lands within the "berths" which may be desirable for settlement, the Minister of the Interior to be the judge of the fact, and the only recourse of the licensee against the ruling of the Minister in favour of permitting settlement within such "berths" to be that (the licensee) may within sixty days after receiving notice to the above effect from the local agent of Dominion Lands, remove all timber on such lands which may be over ten inches in diameter at the stump.

Further, that this license shall not prevent individual Homestead Settlers holding free permits heretofore or hereafter given under the Order in Council, dated the seventeenth day of September, 1889, or under any subsequent Order in Council passed in such behalf from cutting and removing from the land covered by this license such quantity of building timber, fence rails, or fire wood, as such permit may set forth, and the Government may, notwithstanding this license, give such permit to individual settlers from time to time under said Order in Council or any subsequent Order in Council.

3. That the licensee shall take from every tree cut down all the timber fit for use, and manufacture the same into sawn lumber or some other saleable product.

4. That the licensee shall prevent all unnecessary destruction of growing timber on the part of his men, and exercise strict and constant supervision to prevent the origin or spread of fires.

5. That the licensee shall make returns to the Government monthly, or at such other periods as may be required by the Minister of the Interior, or by regulations under the said Act, sworn to by him or by his agent or employee, cognizant of the facts, declaring the quantities manufactured, sold or disposed of, of all sawn lumber, timber, or any other product of timber from the berth with the exception of slabs for fuel and saw-dust, in whatever form the same may be sold or otherwise disposed of by him during such month or other period, and the price or value thereof.

6. That the licensee shall pay, in addition to the said ground rent, dues in the manner prescribed in subsection "c," section 2 of the Timber Regulations.

7. That the licensee shall keep a "lumber sales book" in which shall be entered all sales of the products of the berth, both cash and credit sales, also a book accounting for the number of feet of sawn lumber manufactured each day at the mill, with day and date; all books and memoranda kept at the logging camps shall be carefully preserved and these and other books kept by the licensee in connection with his lumbering business he shall submit for the inspection of the Crown Timber Agent or other officer of the Crown whenever required for the purpose of verifying his returns aforesaid.

8. This license shall be subject to the right of the Crown to deal in accordance with the provisions of the said Act, and the regulations made under it by the Governor in Council with any and all stone, coal and other minerals found within the limits of the berth licensed; and the Crown shall have the right in dealing, as above provided, with any stone, coal or other minerals in lands licensed as timber limits to authorize the persons to whom such stone, coal or other minerals are granted, to take possession of and occupy such extent of the land so licensed as is necessary to work such stone, coal or other minerals, and to open necessary roads through any such timber berth paying the licensee of the berth the value of any and all timber of a diameter of ten inches at the stump and upwards, necessarily cut in making such roads or in working the quarries or mines, such value in case of dispute to be fixed by the Minister of the Interior; and the provisions of this clause shall operate retrospectively, that is to say: They shall apply to all licenses of timber berths heretofore granted under any Act respecting Dominion lands, as if they had been contained in such Act when it was passed.

9. The license shall be subject to forfeiture for infraction of any one of the conditions to which it is subject, or for any fraudulent return; and in such case the Minister of the Interior shall have the right without any suit or other proceeding at law or in equity, or compensation to the licensee, to cancel the same, and to make a new license or disposition of the said "berth" to any other party, at any time during the term hereby granted. Provided that the Minister of the Interior if he sees fit, may refrain from forfeiting such license for non-payment of dues, and may enforce payment of such dues in the manner provided by the said Act:—

Provided, that if during the said term of one year any actual waiver on the part of the Minister of the Interior, or of any one on his behalf, of the benefit of any condition in this license shall take place in any one particular instance, such actual waiver shall not be assumed or deemed to extend in any instance or any breach of such condition, other than that to which such waiver shall specially relate, nor to be a general waiver of the benefit of such condition. (*b*) All other products of the forest, not enumerated, 10 per cent *ad valorem.*

Section 12.

An office fee of twenty-five cents shall be charged for each permit.

Section 13.

Issuers of permits will be instructed by the Minister of the Interior as to the quantity of timber that will be granted, and also what proportion of dues shall be deposited on the issue of permit as a guarantee on the part of those obtaining the same.

Section 14.

Besides the dues above specified, grantees of permits may be called upon to pay such additional sum as the Minister may judge necessary to meet their proportion of any expense incurred or that may be incurred by the Department in making a survey or other demarcation on the ground of the boundaries within which such permits are to be operative.

Section 15.

Permits shall set forth that those obtaining them must conform to their conditions, terms and requirements specified in the same, and carefully restrict their cutting to the limits described therein, and any breach thereof will subject the offender to all the pains and penalties in that behalf prescribed by the Dominion Lands Act.

Section 16.

The permittee shall cut up the whole of the trees felled in such a way that there shall be no waste, and to prevent the spread of prairie or bush fires, the refuse (i.e., the tops and branches unfit either for rails or firewood) shall be piled together in a heap and not left scattered through the bush.

Section 17.

In the discretion of the Minister of the Interior permits may be granted in Manitoba and the North-west Territories to saw-mill owners to cut over a definitely described tract of land, not exceeding fifty square miles, in extent, on payment of Crown dues at the rate of fifty cents per thousand feet on sawn lumber, and a further sum of fifty cents per thousand feet in lieu of bonus and ground rent; all other products of manufacture to be paid for at the rates set forth in section 11, clause "*a*."

Permits of this class shall become null and void in the event of the permittee not operating upon the berth described therein to a reasonable extent during the continuance thereof.

TIMBER PERMITS ON SCHOOL LANDS.

Section 18.

Permits to cut timber upon School Lands may be granted in the discretion of the Minister of the Interior, who, before authorizing the issue of permits to cut upon any section or portion thereof, shall cause the same to be carefully examined, and shall satisfy himself that the removal of the timber will not impair the value of the land when offered for sale.

(*a*) Miners engaged in prospecting when holding free miners certificates.

(*b*) Travellers.

(*d*) For timber cut for the construction of public works, public institutions, and the buildings in connection therewith. The quantity of timber to be taken under permit free of dues to be determined by the Minister of the Interior, who shall also prescribe the territory within which it shall be cut and by whom.

TIMBER FOR HOMESTEADERS.

Section 20.

Any occupant of a homestead quarter-section having no timber of his own suitable for the purposes hereunder mentioned, may, providing he has not previously obtained a free allowance of timber, obtain a permit to cut such quantity of building timber, fencing timber or fuel as he may require for use on the land he owns and occupies, not exceeding the following:—

(*a*) 3,000 lineal feet of building timber, no log to be over 12 inches at the butt end, unless the timber is cut from dry trees, in which case timber of any diameter may be taken.

Should the building timber be sawn at a mill, the permittee will be entitled to receive free of dues 6,750 feet, board measure, of lumber therefrom and no more, or in the proportion of 225 feet, board measure, to 100 lineal feet of timber manufactured.

(*b*). 400 roof poles to be used for such purpose.

(*c*) 500 fence posts, 7 feet long and not to exceed 5 inches at the small end.

Section 21.

Should the house timber be sawn at a mill, payments for sawing must not be made by way of toll, as the full quantity of lumber cut from the logs must be used on the permit-holder's homestead.

Section 22.

In order that mill-owners may be able to give satisfactory evidence that saw-logs or lumber found in their possession have been lawfully cut, they shall require from settlers bringing timber to be sawn, proof that the same has not been cut on Dominion lands, or that it has been cut under a permit, which the settler should produce in order that its number, its date, and the name of the permittee may be noted by the mill-owner. The latter should also record the quantity of such timber sawn by him, so that he may be in a position to duly protect himself should an account or return thereof be demanded by agents of the Department.

Section 23.

The applicant will require to pay an office fee of twenty-five cents before he can obtain a permit, but no dues will be charged for the timber or wood cut under and in accordance therewith.

Section 24.

Homesteaders and all *bona fide* settlers whose farms may not have thereon a supply of timber, or who are not in possession of wood lots or other timbered lands, will be granted a free permit to take and cut dry fallen timber for their own use on their farms for fuel and fencing. 4-4

[1266]

AT THE GOVERNMENT HOUSE AT OTTAWA.

Monday, the 27th day of June, 1898.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

ON a Report, dated 20th May, 1898, from the Minister of the Interior, submitting, that by Orders in Council, dated respectively 3rd March, 1873, and 25th April, 1876, tracts of land in the Province of Manitoba were set apart for settlement by Mennonites exclusively, that is to say, some eight townships in Ranges 4, 5 and 6 on the east side of the Red River, and what is known as the Dufferin Mennonite Reserve on the west side of the said river, the latter being composed of Townships 2 and 3, in Ranges 1 to 5 inclusive, Townships 1, in Ranges 1 to 6 inclusive, west of the Principal Meridian, and Township 1, Range 1 east of the same Meridian.

The Minister states that fully one-half of the lands within the western Mennonite Reserve have passed out of the possession of the Mennonites to persons of other nationalities by sale and otherwise, and the few sections remaining vacant are inferior in quality and better adapted for stock purposes than for farming, with the exception of Township 6, Range 1 west, which is chiefly valuable for timber. The lands in the eastern Mennonite Reserve that have been disposed of are held almost exclusively by Mennonites, but comparatively very little of the lands in Townships 4 and 5, Range 6 east, have so far been taken up at all.

The Minister is of opinion that the purpose for which these Reserves were originally made has now been fully served, and as the Mennonites do not appear to be desirous of acquiring the lands remaining vacant, for which applications have been made by settlers belonging to other nationalities, the same should be thrown open for general settlement, and he therefore recommends that on and after the 1st day of August next, (1898) all the lands remaining vacant at that date in the western Mennonite Reserve, and in Townships 4 and 5 in Range 6 east, in the Eastern Mennonite Reserve, be thrown open for general settlement, except such portions thereof as it may be deemed advisable in the public interest to reserve for timber purposes.

The Minister further recommends that all lands remaining vacant in the Eastern Mennonite Reserve, outside of Townships 4 and 5 in Range 6 east above referred to, including both odd and even-numbered sections, be and remain open for homestead entry by Mennonites exclusively up to the 30th November, 1898, and that after that date all lands not then taken up be thrown open for general settlement.

The Committee submit the above recommendation for Your Excellency's approval.

H. G. LAMOTHE,
Assist. Clerk of the Privy Council.

DEMANDES AU PARLEMENT.

Règles *in re* Avis de bills privés.

Dans le cas de toute demande de bills privés, proprement du ressort législatif du Parlement du Canada suivant les dispositions de l'Acte de l'Amérique Britannique du Nord, 1867, ayant pour objet la concession à une ou plusieurs personnes de certains droits ou privilèges exclusifs ou particuliers, ou le pouvoir de faire quelque chose qui, dans ses effets, pourrait toucher aux droits ou à la propriété d'autrui, ou concerner une classe particulière de la société ; ou ayant pour objet quelque amendement à un acte antérieur,—un avis, énonçant d'une manière claire et intelligible la nature et l'objet de la demande (sauf s'il s'agit de corporations déjà existantes) par les pétitionnaires ou de leur part est nécessaire et doit être publié comme il suit :—

Dans les provinces de Québec et du Manitoba.

Dans la *Gazette du Canada* en anglais et en français ainsi que dans un journal anglais et un journal français, du district intéressé, ou en anglais et en français dans le même journal, s'il ne s'en publie qu'un seul dans ce district ; ou s'il n'y paraît pas de journal, alors la publication de l'avis en anglais et en français doit se faire dans un journal du district le plus voisin où il s'en publie.

Dans les autres provinces ou territoires.

Dans la *Gazette du Canada*, et dans un journal du comté, du district ou des comtés-unis intéressés, ou s'il n'y paraît pas de journal alors la publication doit se faire dans un journal du comté ou district le plus voisin où il s'en publie. La publication de ces avis durera, dans chaque cas, la période de deux mois au moins pendant l'intervalle de temps qui s'écoulera entre la clôture de la session précédente et la prise en considération de la pétition. Des exemplaires marqués de tous les numéros des journaux reproduisant la première et la dernière insertion de l'avis, devront être transmis au greffier de chaque Chambre, et porter à l'endos "Demande de bill privé."

Si la pétition demande l'autorisation de présenter un bill privé ayant pour objet la construction d'un pont de péage, les pétitionnaires devront aussi, en même temps et de la même manière, donner avis du taux de péages projeté, de l'étendue du privilège, de la hauteur des arches, de l'espace à laisser libre entre les culées ou les piles pour le passage des radeaux et des navires ; et, si c'est un pont mobile, quelles en seront les dimensions.

Toute personne désirant obtenir un bill privé devra, dans les huit jours au moins qui précéderont l'ouverture du parlement, déposer au bureau du greffier de la Chambre dans laquelle le bill doit prendre naissance, une copie de ce bill en langue anglaise ou en langue française, avec une somme suffisante pour en payer la traduction et l'impression. Après la seconde lecture et avant la prise en considération du bill par tout comité, le pétitionnaire aura aussi à payer au greffier du Sénat, ou au comptable de la Chambre des Communes (selon le cas) un honoraire de $200, plus une somme suffisante pour défrayer le coût de l'impression de l'acte dans les Statuts, et remettra le reçu de ce paiement au greffier du comité auquel ce bill aura été renvoyé.

L'honoraire de $200 payable sur tout bill privé, ne sera payé que dans la Chambre où ce bill a pris naissance ; mais les frais de réimpression et de traduction nécessités par ce bill seront payés dans la Chambre où ces frais sont encourus.

Aucune pétition pour l'obtention d'un bill privé ne sera reçue par le Sénat ou par la Chambre des Communes, après les premières trois semaines de la session.

Aucun bill privé ne pourra être présenté au Sénat ou à la Chambre des Communes après les premières quatre semaines de la session.

EDOUARD J. LANGEVIN,
Greffier du Sénat.

JOHN GEORGE BOURINOT,
Greffier des Communes.

49. (*c.*) Chaque fois qu'un bill doit opérer dans plus d'une province, territoire ou district, l'avis sera publié dans la *Gazette du Canada* et dans un journal bien établi publié dans chaque province, territoire ou district où le bill doit opérer.

Ordre permanent.

Lorsqu'un bill confirmant un bail, une convention ou toute autre espèce de contrat, sera reçu ou présenté au Sénat, ce bail, cette convention ou cette autre espèce de contrat sera exposé dans un appendice ou autrement.

EDOUARD J. LANGEVIN,
Greffier du Sénat.

(*b.*) Un exhibit faisant connaître le montant total du capital que l'on se propose de prélever pour les fins de l'entreprise, et la manière dont on se propose de le prélever, soit au moyen d'actions ordinaires, obligations, débentures ou autres garanties, et le montant respectif de chacune.

Ordre spécial de la Chambre des Communes.

Résolu,—Que le greffier de la Chambre adresse une copie de la Règle 49 modifiée aux personnes qui signifient dans la *Gazette du Canada* leur intention de s'adresser au parlement pour la passation d'un bill privé, ainsi qu'un avis portant que la dite Règle sera strictement appliquée à l'avenir :—

49. Les pétitions pour bills privés ne seront reçues par la Chambre que pendant les trois premières semaines de la session, et les bills privés ne pourront être présentés à la Chambre que pendant les quatre premières semaines de la session ; et tout comité auquel aura été renvoyé un bill privé devra le prendre en considération et en faire rapport à la Chambre avec toute la diligence convenable.

2. Qu'il soit enjoint à tous les comités sur bills privés, dans le cas où les promoteurs ne seraient point prêts à procéder avec leurs mesures quand celles-ci auront été appelées deux fois en deux occasions différentes devant le comité pour y être considérées, de rapporter ces mesures à la Chambre sans délai, faisant connaître les faits, et avec la recommandation que ces bills soient retirés."

JOHN GEORGE BOURINOT,
Greffier des Communes.

Substance des règles et formes de procéder du Sénat concernant les bills de divorce.

L'époux qui a l'intention de demander un bill de divorce doit faire connaître cette intention, ainsi que les noms de l'autre époux et la cause du divorce, par avis inséré durant six mois avant la présentation de sa pétition pour obtenir le bill, dans la *Gazette du Canada* et dans deux journaux du district où il avait sa résidence habituelle à l'époque de séparation d'avec son conjoint, s'il résidait alors dans la province de Québec, le Manitoba, la Colombie-Britannique, ou les Territoires du Nord-Ouest,—ou du comté ou des comtés-unis, s'il résidait dans une autre province ; mais si ce nombre de journaux ne s'y trouve pas, l'avis sera publié dans le district, le comté ou les comtés-unis voisins. Dans les provinces de Québec et de Manitoba, les insertions seront faites dans un journal anglais et un journal français, s'il en existe des deux langues dans le district : autrement, elles se feront en anglais et en français au même journal.

Il doit être signifié, à la diligence de l'époux pétitionnaire, un mois au moins avant la présentation de la pétition, une copie de cet avis à l'autre époux en personne, si cela est possible.

Aucune pétition en divorce n'est reçue après l'expiration des trente premiers jours de la session.

Toute pétition en divorce devra être écrite lisiblement et porter la signature du pétitionnaire. Elle énoncera sommairement le fait du mariage, le lieu et l'époque de sa célébration, les noms du célébrant, les griefs qui donnent lieu à la demande de redressement et la nature du redressement demandé, et en outre contiendra assurance qu'il n'y a pas eu réconciliation, collusion ni connivence. Les allégations de la pétition seront appuyées de la déclaration du pétitionnaire faite en vertu de "l'Acte de la preuve en Canada, 1893."

Huit jours avant l'ouverture du Parlement, le pétitionnaire déposera au bureau du greffier du Sénat, une copie en langue anglaise ou française du bill de divorce qui doit être présenté, et en même temps une somme suffisante pour payer la traduction et l'impression et tirage à 600 exemplaires anglais et 200 exemplaires français de ce bill.

La pétition en obtention d'un bill de divorce n'est présentée que lorsque le pétitionnaire a versé au bureau du greffier du Sénat une somme de $200.

La pétition, au moment de sa présentation, doit être accompagnée de la preuve de la publication d'avis, d'une déclaration qu'il a été signifié une copie de l'avis, et d'une copie du bill qui doit être présenté.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Wednesday, the 3rd day of August, 1898.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, by and with the advice of the Queen's Privy Council for Canada, is pleased to approve the annexed regulations for the disposal of the right to divert and use the water from any stream or lake, and the right of way through and entry upon any mining ground for the purpose of constructing ditches and flumes to convey such water for mining purposes in the Yukon Territory, and the said regulations are hereby approved accordingly.

His Excellency is further pleased to order that the said annexed regulations shall and the same do hereby form part of the regulations governing placer mining in the Provisional District of Yukon established by the Governor in Council on the 18th January, 1898, and of the regulations for the disposal of quartz mining claims in the said District as made by the Governor in Council on the 21st March, 1898.

JOHN J. McGEE,
Clerk of the Privy Council.

REGULATIONS for the disposal of the right to divert and use the water from any stream or lake and the right of way through and entry upon any mining ground for the purpose of constructing ditches and flumes to convey such water for mining purposes in the Provisional District of Yukon.

1. A Mining Recorder may, upon application hereinafter mentioned, grant to any person or persons, for any term not exceeding five years, or in special cases for such length of time as he may determine, the right to divert and use the water from any stream or

lake, at any particular part thereof, and the right of way through and entry upon any mining ground, for the purpose of constructing ditches and flumes to convey such water; provided always, that every such grant shall be deemed as appurtenant to the mining claim in respect of which it has been obtained, or is required in connection with reduction works, sampling works, stamp mills, concentrating works, or other works connected with mining operations; and whenever the claim shall have been worked out or abandoned, or whenever the occasion for the use of such water upon the claim or in connection with such works shall have permanently ceased, the grant shall cease and determine.

2. Twenty days' notice of the application shall be given, in accordance with form M in the schedule to these regulations, by affixing the same to a post planted in some conspicuous part of the ground, and a copy thereof conspicuously posted upon the inner walls of the Mining Recorder's Office, and any person may protest within such twenty days, but not afterwards, against such application being wholly or partially granted.

3. Every application for a grant of water exceeding 200 inches shall be accompanied by a deposit of $50, which shall be refunded in case the application is refused, but not otherwise.

4. Every such application shall state the names of the applicants, the name or description of the stream or lake to be diverted, the quantity of water to be taken, the locality for its distribution, the price (if any) to be charged for the use of such water, and the time necessary for the completion of the ditch. The grant shall be in the form N in the schedule hereto.

5. Every grant of a water privilege on occupied creeks shall be subject to the rights of such miners as shall, at the time of such grant, be working on the stream above or below the ditch head, and of any other persons lawfully using such water for any purpose whatsoever.

6. If after the grant has been made, any miner or miners locate and *bona fide* work any mining claim below the ditch head, on any stream so diverted, he or they collectively shall be entitled to 40 inches of water if 200 inches be diverted, and 60 inches if 300 inches be diverted, and no more, except upon paying to the owner of the ditch, and all other persons interested therein, compensation equal to the amount of damage sustained by the diversion of such extra quantity of water as may be required; and in computing such damage, the loss sustained by any claims using water therefrom, and all other reasonable losses shall be considered.

7. No person shall be entitled to a grant of the water of any stream for the purpose of selling the water to present or future claim holders on any part of such stream. The Mining Recorder may, however, grant such privilege as he may deem just, when such ditch is intended to work bench or hill claims fronting on any such stream, provided that the rights of miners then using the water so applied for be protected.

8. The Mining Recorder may, if he thinks such action desirable, obtain the enlargement or alterations of any ditch, and fix the compensation (if any) to be paid by parties to be benefited thereby.

9. Every owner of a ditch or water privilege shall take all reasonable means for utilizing the water granted to him; and, if he wilfully take and waste any unreasonable quantity of water, the Mining Recorder may, if such offence be persisted in, declare all rights to the water forfeited.

10. The owner of any ditch or water privilege may distribute the water to such persons and on such terms as he may deem advisable, within the limits mentioned in this grant; provided always, that such owner shall be bound to supply water to all miners who make application therefor in a fair proportion, and shall not demand more from one person than from another, except where the difficulty of supply is enhanced.

11. Any person desiring to bridge any stream, claim or other place, for any purpose, or to mine under or through any ditch or flume, or to carry water through or over any land already occupied, may, in proper cases, do so with the written sanction of the Mining Recorder. In all such cases the right of the party first in possession shall prevail so as to entitle him to compensation if the same be just.

12. In measuring water in any ditch or sluice, the following rules shall be observed:—The water taken into a ditch or sluice shall be measured at the ditch or sluice head; no water shall be taken into a ditch or sluice, except in a trough placed horizontally at the place at which the water enters it, and which trough shall be extended two feet beyond the orifice for the discharge of the water; one inch of water shall mean the quantity that will pass through a rectangular orifice two inches high by half an inch wide, with a constant head of seven inches above the upper side of the orifice.

13. Whenever it shall be intended, in forming or upholding any ditch, to enter upon and occupy any part of an entered claim, or to dig or loosen any earth or rock, within four feet of any ditch not belonging solely to the registered owner of such claim, three days' notice, in writing, of such intention shall be given before entering or approaching within four feet of such other property.

14. Any person engaged in the construction of any road or work may, with the sanction of the Mining Recorder, cross, divert, or otherwise interfere with any ditch, water privilege or other mining rights whatsoever, for such period as the Mining Recorder shall approve.

15. The Mining Recorder shall order what compensation for every such damage or interference shall be paid, and when, and to whom, and whether any and what works, damaged or affected by such interference as aforesaid, shall be replaced by flumes or otherwise repaired by the person or persons causing any such damage.

16. The owners of any ditch, water privilege, or mining right shall, at their own expense, construct, secure and maintain all culverts necessary for the passage of waste and superfluous water flowing through or over any such ditch, water privilege or right.

17. The owners of any ditch or water privilege shall construct and secure the same in a proper and substantial manner, and maintain the same in good repair, to the satisfaction of the Mining Recorder, and so that no damage shall occur to any road or work in its vicinity from any part of the works of such ditch, water privilege or right.

18. The owners of any ditch, water privilege or right, shall be liable, and shall make good in such manner as the Mining Recorder shall determine, all damages which may be occasioned by or through any part of the works of such ditch, water privilege, or right, breaking or being imperfect.

19. Nothing herein contained shall be construed to limit the right of the Commissioner in Council to lay out from time to time public roads across, through, along, or under any ditch, water privilege or mining right, without compensation.

20. The Commissioner of the Yukon Territory may alter or amend the foregoing regulations as he may deem advisable, and such alterations or amendments shall be and remain in force until disallowed by the Minister of the Interior.

ON a report, dated 28th June, 1898, from the Minister of the Interior, stating that applications have been received at the Department of the Interior to prospect for Petroleum on lands in Southern Alberta, North-West Territories.

The Minister recommends, as it is most desirable in the public interest that the question as to whether petroleum is to be found in paying quantities in the North-West Territories should be ascertained, that he be authorized to reserve for an applicant for a period of six months an area not exceeding 640 acres of land to prospect thereon for petroleum, and that if oil is found in paying quantities to sell the land to the applicant at the rate of one dollar per acre, with a provision that a royalty of two and one-half per cent upon the sales of the petroleum be paid to the Crown.

The Minister further recommends that the authority asked for be confined to lands situated south of the Canadian Pacific Railway in the District of Alberta.

The Committee submit the above recommendations for Your Excellency's approval.
